WATER IN THE CANAL .- The Pittsburg Dispatch of Monday says that water was left into the canal last Saturday, and presumes, therefore, that the breaks in the western division have again been repaired. We trust navigation

Horse AND Wagon Stolen .-- Yesterday some unknown individual stole a horse and wagon during the temporary absence of their owner, a countryman, who had occasion to transact some business at the residence of Mr. M Cord, in Strawberry alley. The horse is represented as being a very fine animal, and highly prized by its owner.

A rifle shooter gives directions by which every near who chooses may become a good shot-Allow the rifle to hang in the hand in an easy manner, declined at an angle of about forty degrees, then raise it steadily but quickly in a line with the object, the eye ranging carefully over the sights, and at the instant the object aimed at is covered, touch the trigger. At the mement the upward movement of the rifle is arrested, it is absolutely still.

A DETERMINED COUPLE. -Two young people in Marky, who loved, perhaps wisely, but not acanding to the wishes of the "aged parients," area pted last week to choke themselves with al smoke. The fumes of the charcoal I a young man in the room above, who the young man and woman below in a spais, got married.

CAVALRY HORSES ORDERED WEST .- It would seem as if they had enough of horses at Washington. Quartermaster Ekin, at Pittsburg, received instructions from the War Department last Monday, instructing him to stop there some twenty-two hundred horses now in transitu to the capital. They are expected to arrive there this week, and will be turned back as fast as they come in. Twelve hundred of them are ordered to Denver City, for the use of a regiment there, and the balance, we believe, to Missouri.

Making out a Case. - A cotemporary who has been sued for libel by a party claiming \$10,000 damages, says he does not believe the man's character is worth so much, and offers to cipalities. bet his printing office against a keg of tar that A genteely dressed, and apparently respecta-If he wants anything more to make up his case, we will say that he is a most abominable liar." We fancy the plaintiff's case is fully made up.

An Itinerent Guost.—The prevaliling "s en sation" in the Sixth ward just now, is a phantom of variable form and size, which occasio nally perambulates the streets of that district, after the "witching hours of night," to the intense terror of some score or more of timid persons who have enjoyed a glimpse of his ghostship, and the indignation of a still greater number who irreverently regard the nocturnal visitor as a miscreant worthy only of summary punishment.

So much indignation has been excited by his twenty persons were on the watch for him. -Some of the party were armed with pistols, with ception. No one, however, prepared to encounter, has yet been so fortunate as to obtain a sight of the white sheeted individual.

Last Thursday night, a young man was walkthe ghost in a field to his right. The figure he says was ten feet high, and moved smoothly and noiselessly along. The young man remembers nothing more until he found himself lying

In the same neighborhood two boys encountered the apparition last Friday night. Picking up a stone one of the boys followed the figure, which was retreating rapidly up towards Hammon's lane. Just as the ghost turned into the but too vigorous for any but sound lungs of

flesh and blood, was the response.

Perhaps the ghost was admonished by this adventure that his nocturnal perambulations might be attended occasionally by disagreeable circumstances. Certain it is that when a man encountered it the next night, and was about proceeding to administer to it the castigation it so richly deserves, the ghost produced a most substantial cudgel with which he dealt his would be chastizer a blow that sent him reeling to the ground.

There are various accounts of the appearance of the figure. Some assert that when first seen it is no larger than an ordinary man, but immediately expands or enlarges to double that size. There is no "joke" in frightening people hearthstone. size. Incre is no "joke" in ingricing property as this miscreant has done, and the person who catches or punishes the fellow, will deserve the thanks of the community.

THE LATEST USE OF THE RED, WHITE AND BLUE We had previously supposed that the national colors had been applied to every use of which House. He is in excellent health and spirits. they were capable, ranging along from babies' aprons and gentleman's neckties to pin cushions and kettle holders. But very evidently their novelty-nothing less than an umbrella made of red, white and blue, with the stars added on the field! It was carried by a jolly looking volunteer, and our idea at the time was that the force of patriotism could not much further go. Imagine how profane the individual who would lay "violent hands" on that umbrella.

GEN. NEGLEY'S BRIGADE ORDERED TO THE WEST. There have been considerable activity in military circles this week in consequence of the expected orders for a large shipment of troops for Missouri. Gen. Fremont is at length to be reinforced, and in such force that no apprehension need longer be entertained of any more disasters like that of Springfield and Lexington. Gen. Negley's brigade-composed of Colonel Stambaugh's regiment. of Chambersburg, Colonel Hambright's, of Lancaster, and Colonel Sirwell's regiment, now at Camp Orr, Armstrong county-has been ordered to prepare for transportation to some distant point, in all probability to Missouri. Several companies of Col. Hambright's regiment have already passed through here en route westward, followed by have again be interrupted until winter sets their arms and camp equipment, which will be saving of money. They have a moral bearing, distributed to the regiment at Pittsburg.

> THE GREATEST WELL YET.—The editor of the Mercer Dispatch gives a description of an extraordinary vein of oil tapped the other day on the McElhany tarm, at a depth of four hundred and sixty feet. He says: A watch was held while it ran into a tank, holding, by measure, one hundred and eight barrels, and it filled the same in fifty-five minutes! At a fair estimate, taking this as a data, those who were working and watching about it are confident that in the first twenty-four hours, it flowed two thousand four hundred barrels of oil! And when we left on Friday morning there appeared to be but little diminution. What is also remarkable, is the fact, that this well is located not more than twenty rods from the Funk well, which has been flowing some four months, and has yielded an almost incredible quantity of the greasy fluid. It would have been supposed that the latter had drained all the oil for a considerable distance around, but here is one still more prolific within twenty rods. These oil wells are certainly among the wonders of the world.

OLD FOLKS.—Bless the old people say we.-What should we do without them? Does not a reported doings that one night last week about for having a grey-headed old father and mother man feel better and stronger in the battle of life under the shelter of some brown eaved farmwhom the ghost would have met a warm re- leap half so high, at the sight of the pines and oranges that daily decorate his table, as he does when the barrel of red-streaked apples comes from the country home, apples from the sideing up Third street when he suddenly beheld cled mother, and directed, in a shaking hand, by the kindly old man! Ah! those apples have a flavor of home and childhood. What an event it is to the dwellers in brown-stone on the ground, the ghost no where to be seen. the old folks come up from the country on a mansions and marble-fronted palaces, to have visit, with their old-fashionments, and horror of all new inventions and dangerous novelties. We can but smile when they blow out the gas, and sit as far as possible from the furnace registers for fear they should burst, start every lane, the boy threw his stone, and with such the water pipes as fearful and wonderful things. correct aim that it struck the figure full in the Such things make them feel that their day and generation are over, even more than the white headed little grandchildren, and the silver threads in the locks of the son or daughter, who was their baby once. Yet there is some thing beautiful in their simplicity, their utter ignorance of the marvels of city life. The dear old folks! As long as they are alive, there is always an untiring ear for our tales of joy or trial, a ready excuse for our foibles; there is always some one to whom we are still the children. It is only when the accustomed fireside chair is empty, and the violets growing over the gentle eye, that we feel the bitterest pang of heart-sickness that earth has to give.

The company will receive the regular pay, rations, uniform, &c., and be quartered in tents within the Capitol en closure. Young men desirous of joining in this enterprise, can do so by applying to the recruiting rendezvous, in the Fremont tent, at the corner of Third and Walnut streets.

THE MARKET HOURS .- Caution .- It might be well for our citizens to remember that the market ordinance amended by the city council last Saturday night fixing the market hours from the 1st of October to the 1st of May between the hours of 5 and 8 o'clock, A. M., and from the 1st of May to the 1st of October between 41 and 8 o'clock P. M., has not yet been approved by the Mayor, and is consequently not yet in operation. We deem it necessary to make this announcement in order to guard our citizens from making purchases at the market this morning before the usual hour of opening, six o'clock.

THE BENEFITS OF ECONOMY.-The benefits of a wise economy are not confined to the mere change, discoursing on the ingenius methods that are resorted to by the feminine part of creation to get along and make a "good appearance," without taking any more money out of the pockets of their husbands and fathers says:

The old bonnet—once such "a love of a thing"—has been taken out and fixed over, and so much taste has been developed in the doing of it, and so much of real cheerfulness of spirit has been cultivated, that it is a subject of sin-cere regret that our fair friends are not obliged to wear over their old bonnets and things every year! Think of the good done the social state by it; there is the sweet temper gained, the taste developed, the ingenuity brought out, the self-relience established, and the true courage made plain, in this single act, that very soon makes itself felt in the social state everywhere. There, my good lady, when you were busy exerting your ingenuity to do over your old bon net, you were not aware that you were a public benefactor! We know an old lady who has worn one bonnet for seventeen years, and she has not been so very far behind the fashions either, but has always appeared like a gentlewoman even with that old bonnet on. Her tact and ingenuity were equal to every caprice and fash-ion, and she never allowed it to so far out-run her as to give to her the appearance of oddity.

These times of adversity give our ladies an opportunity to show what stuff they are made of, and some of them shame the men. VALUABLE RECEIPTS .-- A lady correspondent ends us the following:

CARROTS AND COFFEE.—Carrots, when well vashed, shaved into thin bits, dried and browned in an oven and afterward ground with cof fee grains, gives a yellowness and richness to the coffe in effect almost like that of pure cream. The proportions are a full teaspoonful of ground carrots to four tablespoonsful of cof-

GELATINE SOAP.—It is impossible to cleanse greasy dishes, unaided by soap, and many soft hands are rendered unfit for needlework by daily immersions in hot dishwater. As an emollient for chopped skin and a superior soap where a quick lather is desired, I would re-commend the following receipe. To two pounds of clive soap cut up into small slices, add two soap where a quick lather is desired, I would recommend the following receipe. To two pounds of olive soap cut-up into small silces, add. two ounces of borax, put the ingredients into a crock, pour over two quarts of cold water, sit the vessel on a part of the range where there is but little heat, stirring occasionally until the borax has dissolved (eight or nine hours), and when cooled a thick gelatine is produced, which housekeepers need use but once to prove its efficiency and economy.

DECREASE IN CRIME. -- In conversation the other day with our worthy chief of police, Mr. Radabaugh, we asked the condition of business in his department. Dull, very dull, no burglaries of thefts, he remarked. We suggested that per-haps that kind of professionable men had aban loned their evil ways on account of the strong inducements to be honest, held out by URIOR & Bowman in the very low prices at which they are selling dry goods at the south-east corner of Front and Market streets. oc7-2t
