DISMASES OF IMPRUDENCE.—When the misguided
and imprudent votary of pleasure finds he has imbibed
the seeds of this painful disease, it too often happens that
all ill-timed sense of shame or dread of discovery deters
him from applying to those who, from education and respectability can alone befriend him, delaying till the consituational symptoms of this horrid disease make their
appearance, affecting the head, throat, usee, skin, senprogressing on with frightful rapidity, till death puts a
period to his dreadful suiterings by sending him to "that
bourne from whence so travelor returns." It is a melancholy fact that thousands fall victims to this terrible
disease, owing to the unskilfuleses of ignorant pretondders, who, by the use of that deadly posten, mercury, rain
the constitution and make the residue of life miserable.

Ladies and Gentlemen, in all parts of the world testify to the afficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

GENTIMEN: Your note of the 16th inst., has been recieved, saying that you had heard that I had been benefited by the use of Wood's Hair Kestorative, and requesting my certificate of the fact if I had no objection to give it.

log my certificate of the fact if I had no objection to give it.

I award it to you cheerfully, because I think it due.—
My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and cannerful to foru upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head and threatening to make me bald.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs, and sensibility to the scalp, and dandruf ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their ways to profit by my example, and use it if growing gray or getting baid.

ELI SLIFER,

A scout has just arrived here from Springfield and reports at the head quarters that there were only one thousand rebels at that place. He also learned that Ben. McCulloch was at Camp Jackson with only one hundred and fifty men waiting reinforcements from Arkansas. A large number of McCulloch's force who were with him at Wilson's creek were with Price at Lexington and the rest are with Hardee. McCulloch expects to join Price at Sac river, which dispute with the old political enemy the contest will be about the twentieth, and the combined force expect to march on Jefferson City. Touching Incident.—A very touching little incident occurred during the late session of the American Board of Missions, at Cleveland, Ohio. A beautiful pieced quilt was brought in and unfolded. It was accompanied with a note donating it to the treasury of the Board. The quilt was made by a little girl, five years old, who died from hip disease, a short time after she had finished the work. In her dying hours she had bequethed it to the cause of missions for whatever it might bring. The quilt was Representatives Steel, of New Jersey, and put up at auction in the convention. A bid of fifty dollars was immediately made for it; then a hundred dollars were offered, and, finally, Mr. W. E. Dodge, of New York, carried off the prize for one hundred and fifty dollars, regarding himself as the fortunate purchaser. Thus a child, scarce beyond an age to conceive the idea After transacting some business at the War of God and her relations to Him, gave, with the work of her little hands, more money to christianize the poor heathen, than some adults give in their whole lives.

One of our fellow-committeemen is awaiting them there. The Government has afforded every facility for the investigation, and it is known that the action of the Committee thus far has been highly beneficial to the pecuniary interests of the country.

While the male portion of the population of the State of New York, between the ages of eighteen and forty-five, capable of bearing arms, is 7866,300, that of the State of Pennsylvania is 507,000.
