TO MILITARY OFFICERS.—Officers' pay-roll blanks, handsomely printed on fine white paper, according to the prescribed rule, will be for sale at this office to-day.

IN TOWN.—Capt. Jacob M. Eyster was in town yesterday looking remarkably well. The captain has just completed the recruiting of a fine military company in Ohio for the regular service, which will most likely be attached to the command of Gen. Boecernaz in Western Virginia.

SENT TO YORK.—Edward Parthmore, the young man arrested in this city some time ago, and committed to prison by Alderman Kline, and charged with stealing one hundred and fifty dollars from William Bomberger, of York county, was taken to York at noon yesterday by Sheriff Boas to await his trial.

DIVINE SERVICE.—The service, preparatory to the communion of the Lord's Supper, in the Reformed Church, will be held on Saturday evening (the 19th inst.) in the Lecture Room of the Reformed Church. Rev. P. Schaff, D.D., will preach on Saturday evening, and Sabbath morning and evening. All are invited to attend.

FRESH TOMATOES TILL WINTER.—If late in the season, just before frosts, the vigorous late-ripening tomato vine be pulled and hung up in a moderately dry cellar, the fruit will gradually mature, and thus furnish the table with fine, luscious tomatoes from time to time, even into the winter season. So say they who have tried it.

STAMPED NEWSPAPER WRAPPERS.—The Postmaster General has ordered to be placed on sale at the post offices, a new and convenient form of newspaper wrappers, which will supply a long existing want on the part of the public. These wrappers are formed of oblong square sheets, gummed at one end, and adapted to any size newspaper. The introduction of these convenient envelopes will, doubtless, greatly increase the postal revenues, and promote the interests of newspaper publishers by the facilities they afford in the transmission of their publications through the mails. The vendors of newspapers should supply themselves with them, the better to enable purchasers of their papers to transmit them, when read, to their friends.

POLICE.—Mayor's Office.—Thomas Fitz, a "bold sinner" from Camp Cameron, was arraigned for drunkenness. Received a reprimand, and placed in custody of the guard under marching order for camp.

General Fisher, David Hoister and Charles Boyer, also soldiers, from Camp Curtin, were arraigned for the same offence, and put in charge of a guard for the camp.

John Bazler and Henry Freeman, both "vags" of the "first water," and very dirty at that, were up for lying around loose. Discharged with an injunction to leave the city for the city's good.

Before Alderman Kline.—Thomas Smith, black as a tar bucket, was arraigned for drunkenness and sent to prison for five days.

Zepheniah Henninger, a delapidated specimen of the genus homo, was arraigned for the same offence, and sent to prison for twenty-four hours.

FIGHT BETWEEN FEMALES.—An interesting fist-fight is said to have taken place at 9 o'clock Wednesday night near the reservoir, between two of that class of females whom Solomon has described as having "much fair speech" and all that sort of thing. It appears that both of the Amazons love a certain young man, who, flattered at the attentions of his sweethearts, has been playing the deuce with their hearts. Yesterday afternoon the females discovered that they were rivals and agreed to fight for the possession of their soul's idol. The cause of the difficulty hearing of the affair succeeded in restoring quiet by telling the females that he loved both of them. As a matter of course, each of them fancied she was the loved one, and there the matter ended for the present. Thursday evening, however, young man accepted an invitation from one of the females to have a stew of oysters at one of our restaurants of questionable repute, which coming to the ear of the other female, the quarrel was renewed and the gamut again thrown down. The game was accepted, and the parties met near the reservoir, and at it they went with the following result: Round No. 1.—Both parties came up to the scratch in fine style. Mary led off with her left duke and planted a stunner on the snapper of Catharine, drawing the "roy." First blood claimed for Mary. Round No. 2.—Catharine, notwithstanding the claret tricking from her beak, was prompt to the call of time, and watching a favorable opportunity, let fly a savage blow, which greatly damaged the left sky-light of Mary. The whack somewhat surprised the latter, as she retreated a few feet, wondering how her adversary had so suddenly recovered from her astonishment, her adversary rallied in and planted a stunner with her right bunch of five squares on Mary's ivory. This appeared to astonish Mary more than ever, as she uttered a yell of pain and went down into the gutter. Tied to one "secess treasury shipmaster" was now offered on Catharine, but found no takers. Round No. 3.—Mary appeared on the curbstone somewhat groggy; her optic was closed, while her nose to use a common phrase, was "spread all over her face." Both parties extended their grapples with great force, but did no damage. Just as they were about to take each other into chancery, a cry was heard that the police were coming, when the combatants picking up their bonnets and shawls, hastily decamped in the direction of Ridge road.

FOR THE LADIES.—Red kid slippers with high black heels, and garniture of black velvet or lace, are "all the go" in New York. They are intended for walking shoes, and are very striking and distinctive with black dress and flame colored kid gloves. How soon shall we have these fiery shoes on the streets of Harrisburg?

NEW COUNTERFEITS.—Our readers should be on a sharp look out for new and dangerous counterfeit silver coins which have made their appearance in this city within a few days. Some quarters were passed at one of our stores yesterday, which are so well executed as to deceive some of the best judges. As there is reason to believe that there are some "shovers" of this spurious coin not far off, storekeepers and others should keep a sharp lookout.

"HURRAH!"—A great many people have shouted "hurrah!" "many a time and oft," but comparatively few, however, know its derivation and meaning. The same word, and for the same purpose, is used all the world over, and originated among the eastern nations, where it was used as a war cry, for the belief that every man who died in battle for his country, went to Heaven. It is derived from the Slavonic word Hu raj, which means "To Paradise."

THE APPROACH OF WINTER.—The falling leaves, the changing foliage of the forest trees, the heavy autumn rains, and the chill winds, are all eloquent of the arrival of the fall of the year and the approach of winter. Winter has no terrors for those whose coal-bins are well filled, who have close warm houses, and who have no fears of the want of sufficient clothing and food. But there are many who are not thus favored. There are always im provident people who lay by nothing for a rainy day; while depression in trade, growing out of the war, has caused many who are habitually prudent to suffer for the want of the necessities of life. This latter class will neither beg nor steal, and would rather die than make their wants known.

THE WEATHER.—It is worth one's while to notice what an influence the weather has upon different people. We might suppose mankind to be a sort of cloud-children, so susceptible are they to atmospheric influences. It is a very common matter to tell how blue the weather makes him feel to-day, or how exhilarated he is another day; but we cannot escape from these temperaments of ours, try as we will. Here we are, panned up in certain conditions from which there is no escape, save by getting out from our being itself. Even so trifling a circumstance as the freshness or the chilliness of the air controls us like a tyrant. If the sun smiles out through the clouds upon us, we are happy; if the sky is overcast with clouds, we are particularly inclined to be miserable. Our spirits go up when the weather is fine, and down when it changes. Fine air stimulates a person to goodness. He must be a rogue, indeed, who can commit a crime in the flush of a bright June morning, and he must be a stock or stone, who is not inspired to do deeds then worthy of his loftiest aspirations.

LUTHERAN SYNOD.—The Evangelical Lutheran Synod of East Pennsylvania has recently held its twentieth annual convention in the church of Rev. L. E. Albert, in Germantown. The opening sermon was preached on Wednesday evening, by Rev. Dr. Hay, of this city. There were fifty-three clergymen and forty-seven lay delegates in attendance, one hundred in all, besides a number of delegates from other bodies, advisory members, commissioners from churches, etc. Rev. J. A. Sois, D. D., was elected President; Rev. Matthias Sheeleigh, Secretary, and Rev. L. E. Albert, Treasurer.

The parochial reports and statements of pastors were of a highly encouraging character, and a large amount of business was transacted, pertaining to the Missionary and Education operations of the Synod. The anniversaries of these two societies were celebrated on Thursday evening, at which interesting addresses were delivered by Revs. Parson and Fink!

A series of patriotic resolutions, on the subject of the war, were read by Rev. E. W. Hutter, and unanimously adopted. They declare the rebellion as a plain violation of the Apostle's injunction for all men to be subject to the higher powers which are ordained of God, express sympathy with the patriotic soldiers in the service of the Government, and recommend the churches to send them material aid, in the shape of stockings, blankets and other winter comforts.

The meeting of the General Synod, postponed from May last, on account of the war, was recommended to be held in May 1862. The Emmaus Orphan House at Middletown, founded under the will of George Frey, was supposed to be in danger of being wrested from the Lutheran interest, and measures were adopted to prevent it.

On Monday evening, after an impressive discourse from Dr. Seis, five candidates for the gospel ministry were solemnly set apart to this service, viz: By license, Samuel Laird and Johnson R. Groff. By ordination, E. S. Johnston, J. H. Davidson and J. Friday.

Infant baptism was recommended to be performed hereafter, unless in exceptional cases, in the church, as are the other sacraments, and not in private.

The Lutheran Board of Publication was commended to the continued favor of the churches, as also the Germantown Orphan Home. The latter was visited by the members of the Synod in a body.

The Treasurer's report exhibited the following receipts and disbursements, in explanation of which, however, it must be added that many of the congregations disburse their own moneys, viz: Synodical Treasury, \$250 83; Home Missions, \$990 66; Education, \$1126 45; Foreign Missions, \$441 93; Pastors' Fund, \$116 49.

The sessions lasted one week, and were throughout characterized by the utmost harmony and good feeling. On last Sabbath the ministers of the Synod filled most of the pulpits in Germantown, and also many in Philadelphia. The next session is to be held on the first Wednesday of September, 1862, in the church of Rev. M. Valentine, in the city of Reading.

THE EXCITEMENT OF PICKET DUTY.—For genuine excitement, in which every quality of soldierly character is kept on the qui vive there is no position like that of the picket. Placed on the outskirts of our lines, and often within close rifle shot of the enemy's pickets, each watching for the other, and trying to conceal himself from view, the greatest vigilance, caution and care is called for, lest the picket unconsciously become a mark for a hidden enemy's aim. If a shot is fired by an unseen hand, he must, by a rapid deduction from the loudness of the report, its direction and perhaps a little smoke, almost intuitively conclude where his enemy is concealed, and in sending his compliments back, in the form of a Minie bullet, hope that his enemy, if not silenced, will at least conclude that it is better not to invite any further hostility. Then he is compelled to keep ears and eyes open for the sudden approach of any superior force, perhaps mounted, who, with a spirit of dare-devil adventure, surround him and his half-dozen companions, to carry them off as prisoners of war. How to extricate themselves from such a position, when once in it, sharpens human ingenuity and develops courage to their utmost point, and bravery, skill and strategy have to make up for want of numbers. The excitement of months in time, of peace is compressed into a day when on picket in time of war, and an experience with most men only sharpens the desire for more.

FOR OUR SICK SOLDIERS.—Miss Dix has sent forth word that there are many articles which would be quite acceptable in the hospitals of the army, among which are jellies, dried and preserved fruits, besides blankets and woolen socks, while she appeals in touching terms to the philanthropic women of the North to come to the relief of the wounded and sick. We would suggest that those of our families who have these dainties and necessities should spare a portion to the sick of our army. There is not a family but who could forego a day's indulgence in preserves, etc., and give the same to the gallant men who are bearing our burdens and fighting our battles. Not only could our city residents, but our farmers might contribute much out of their abundant storehouses which would comfort our sick soldiers. To us the sacrifice is nothing—to the invalids, suffering and enduring pain, how grateful would be the gift! We should let them know that we remember them, care for them, and appreciate their valiant services in the cause of their country. Let us show by these simple gifts that by their devotion in the Nation's struggle the tide of warfare is kept back from our own hearth-sides and homes. Some one lady should be appointed to receive these gifts from our citizens. Every one should contribute liberally as God has blessed him or her, and as He gives him opportunity.

SPLENDID PENNSYLVANIA BODY GUARD FOR GENERAL SHERMAN.—A splendid body guard is in course of formation for General Sherman, Commander of the Department of Kentucky. It was originally intended for General Robert Anderson, and the suggestion, coupled with an urgent request to raise it, came from that officer to Mr. Palmer, Secretary of the Pennsylvania Railroad Company; but as General Anderson's failing health was not sufficient to enable him to discharge the rigorous duties of the Kentucky service, and caused his resignation, the guard will be assigned to his successor, General Sherman. This corps is being filled by a stated number from every county in Pennsylvania, who are selected for their education and respectability. Letters have been sent by Mr. Palmer to gentlemen in the several districts, on whom the duty devolves of choosing the honored recruits. The company is to rendezvous at Carlisle barracks, and were to meet to-day. They will be drilled at that place in the movements of foot soldiers, and in the use of the sabre and pistol, and when prepared to move will be sent to Kentucky, where some of the best horses that famous country produces will be procured them. The duties of the corps will be hazardous and important—it is not intended simply to be a body guard—and we expect to chronicle some of their exploits. With Pennsylvania's brain and muscle, and Kentucky's fleet and fiery chargers, great things will be expected of these chosen warriors. We have not been able to ascertain who have been appointed to select the recruits from this county.

CONVERSATION BETWEEN MRS. JONES, MRS. BROWN AND MRS. SMITH.—Meeting Mrs. Jones on the street, I was at a loss to account for her improved personal appearance, and indeed was in doubt of its being her, until she said "how are you Mrs. Brown, when she continued to say that she had just met Mrs. Smith, who said that she, Mrs. Smith, had never seen Mrs. Jones look so well. I then said to Mrs. Jones that I cheerfully indorsed what Mrs. Smith had said, and just at that time noticed the beautiful water-proof cloth circular. Mrs. Jones had bought at the cheap store corner Front and Market streets, Hatch & Bowman, and Mrs. Brown went on to say—

DR. DUPONCO'S GOLDEN PILLS FOR FEMALES.  
These pills have been used by the doctors for many years, both in France and America, with unparalleled success in every case; and he is urged by many thousands of ladies who used them, to make the Pills public for the alleviation of the sufferings from irregularities of the "flow," to well as to prevent an increase of family where health will not permit it.—Females particularly situated, or those appearing themselves so, are cautioned against these Pills while in that condition, as they are liable to produce miscarriages, and the proprietor assumes no responsibility after the administration, although their address would prevent any miscarriage or irregularities of the "flow," by well as to prevent an increase of family where health will not permit it.—Females particularly
