A gentleman direct from the vicinity of Harper's Ferry, announces that the rebels again appeared on Londen and Bolivar Heights this morning, and renewed the attack on the Union forces, who are under the command of Major Gould and supported with artillery.

Major Gould fired upon them with cannister from the columbiad which was captured from the rebels on Tuesday, and drove them back but not until the vandals had burned the mill of Mr. A. G. Herr and took the miller prisoner who they charged with giving information to the Union troops of the 12,000 bushels of wheat being brought there to grind.

The firing was in progress when our inform ant left. The women and children were fleeing in great terror to the Maryland shore, in anticipation of the town being burned." Maj. Gould was throwing shot and shell from Maryland Heights after the rebels, and was confident tha he could keep them off until his reinforcements could reach him.

THE CAMPAIGN IN KENTUCKY.

Operations of the Rebell Forces.

The Louisville papers of Monday and Tuesday, received to-day, contain several items concerning the progress of the campaign in Kentucky. The Journal has the following news from the rebel headquarters:

Gamp Cartington guite a length of time, we became very much attached to you. Thinking your numerous readers would perhaps be interested in hearing from the 6th Reserve and the Buck Galls I pen the following. We have been "A gentleman direct from Bowling Green savs that when he left there John C. Breckin-He states also that Col. Hardee, lately in command in Arkansas and Missouri, had joined Buckner with his troops, and that Buckner's numbers were now from twenty-five to thirty thous and. Another gentleman just from Bowling Green estimates Buckner's force at twentyfive thousand.

"It is very difficult to decide what should be the level. It troops from Missouri are pouring into Kentucky, the fact would seem to indicate that the Confederates intend for the present to give Missouri up to Fremont. Supposing the statements we have received to be correct, the

statements we have received to be correct, the enemy has now nearly eighty thousand men on Kentucky soil, and the number will now, no doubt, be soon increased, unless Gen. Fremont shall speedily depart on his great expedition down the Mississippi.

"A Mississippi officer at Bowling Green says that the Confederates have at no time had any other thought than to make Kentucky the main theatre of the war. Wall, it shall go hard, but they find her the hottest theatre they ever set foot in—too hot, we trust, to hold them long." ZOLLICOPPER'S POSITION.

General Zollicoffer, though said to have re-treated, is yet at Cumberland Ford with his main force, while his advance is in Laurel county, at Loudon and in that vicinity, ravag-ing the country and driving the people from their homes. We are informed on good authority, says the Journae, that he has not more than from four to six thousand men.

BUOKNER DISAPPOINTED.

It is reported that General Buckner has found himself, in his invasion of Kentucky, deeply disappointed. His friends in Louisville and throughout the state, gave him the strongest assurances, that, if he would came to Louisville or even to Bowling Green at the head of a force pany I were two cigar boxes, one tin box, one capable of maintaining its position for a short soldiers cap and a pair, of Government shoes. Election day closed with a few brushes, caused by the mischief maker King Alcidol. The westber continued cold and damp. On Wednesday a.m. notice was given that the Sixth were to go on picket duty; accordingly arrangements

tion that these assurances would be verified, but he finds them all falsified. There is good reason to believe, that, at the utmost, not more than a thousand men have joined him since his his arrival in the state, and that scarcely any are joining him now. In a late speech to solto be ready to march. Thinking it would result as it had previous done the boys made but as it had previous done the boys made but appointed feelings in strong terms.
