BALL OF THE GOOD WILL FIRE COMPANY .-The second annual grand dress ball of the Good Will Wire company will take place at Brant's City Hall on the 18th of next month. Extenive arrangements are now being made to have the affair pass off with proper elact, and from the well known tact of the gentlemen charged with the management, we have no doubt it will be one of the most brilliant soirce dansants of the plied to the payment of an instalment due to the manufacturers of the new Button engine, recently purchased by the company. The Good Will "boys" are an efficient branch of our fire department, and richly deserve encouragement from our citizens.

Meneys Furnaces -- One of the furnaces of Messrs. Meiley & Co., in Middletown, is now in full blast-employing thirty-five hands-and turns out more iron per week than ever before It averages 125 tons per week, but as high as 147 tons per week have been made, since it came into the hands of the present enterprising company. The second furnace is now being reaired, and it is thought they will be able to out it into operation about the 1st of February ext, when a great many additional hands will be needed. The Messrs, Meiley, deserve a great deal of credit for keeping their works in operation at this time, when there is an almost universal stagnation in all kinds of business. Those who give employment to the laboring community, now, become public benefactors thereby, and as such we look upon this firm. We wish them abundant success.

of the knitting needle, to forthwith form one pany. Let us have a Ladies Hose Company forthwith, and here we may say that it is absolutely necessary to have some heavy blankets. for our Government cannot obtain them. Any wishing to help the national cause, can do so effectually by forwarding to Quartermaster General Hale a blanket or two from their private stock. They should be heavy ones, but two light ones sent together will answer. The Govrnment has ordered a supply from Europe, but

COFFEE, SUGAR AND TEA. -Our citizens are expose. The New York correspondent of the land whether the eggs be all placed in the vessel at once or at different times; and they can be says: A very active speculative movement ir coffee, sugar and tea has been in progress for some time past, the effect of which has been to run up the prices of these almost necessaries of life to a figure which places them beyond the reach of those who have the most need of themthe poor. In anticipation of the increased duty to which these commodities will soon be subject, the speculators have bought, or are buying up and placing in store, the surplus stock on own prices for them. Even now, the commonest qualities of brown sugar cannot be purchased at retail for less than 121 cents per pound, which is an increase of one hundred per cent. upon prices current for the same quality a him. month ago. The advance on coffee and tea is not so enormous, but it is sufficient to limit hath growing business and full coffers? Who the burdens of the public, for the purpose of ticularly by printens."

RETURNED.-His Excellency, Gov. Curtin, reurned to town yesterday from Pittsburg, having gone there to present State flags to the celebrities of our city with a handsome sere regiments composing Gen. Negley's brigade.

FOOT SMASHED .- An employee of the Pennsyl vania Railroad, named John Wise, had one of oumpers. He was taken to his residence in attendence, and is now doing as well as can be expected under the circumstances.

KILLED ON THE RAILBOAD.-Last Wednesday TROOFS FROM THE WEST -A body of four as a train filled with soldiers was coming east TROOFS FROM THE WARD Cavalry, under ward, when near McVeytown one of the soldiers named Bower, from Iowa, by some accident fell, the command of the city, Utah territory, passed and a portion of the train passed over both his from care passed over both ms through here yesterday, en route to Wash- legs. He was taken to McVeytown for medical aid, but died the same evening. His remains were interred in the Methodist cemetery. RECRUITING FOR THE REGULAR SERVICE. - Capt. Jacob M. Eyster, whose return to town we noticed yesterday, intends remaining here for some time, having been detailed in the recruitry) regiment, the arrival of a detachment of ing service. The Captain has already recruited two full companies in Ohio, and has secured some eight or ten recruits for another company in this city. Young men who desire to serve body of men, and with the exception of arms, their country cannot march under a better or braver officer than Captain Eyster. His headquarters is at the Exchange, Walnut street.

> NEW LOCOMOTIVE -- A new and beautiful locomotive arrived on Thursday from the Lan caster Locomotive Works, where it, was built under the superintency of Mr. Frederick Curie, for the Northern Central Railway. It is a freight engine, combining all the imprevements which gained such an extended reputation for the engines heretofore turned out from these shops. The cylinders are 161 inches in diameter, 22 inch stroke, the waist of boiler 46 inches, and the driving wheels 5 feet in diameter.

"GEN. LYON'S FUNERAL MARCH" - soft and sweet as an angel's whisper---"Gen. Seigle's March"—like the advancing tread of a victorious army-"Lord Save our Native Land," and a collection of German songs, full of poetry, rich and sparkling as genuine "Johannisberg." are among the latest gems of music received at Knoche's Music Store, No. 93 Market street. Knoche has also received a choice variety of handsome mirrors, richly mounted with carved season. The proceeds of the ball are to be apgilt frames, together with a variety of other fancy articles, which adds wonderfully to the fine effect of his establishment.

> IMPORTANT TO RECRITS AND RECRUITING OFFIcers.—The are numerous instances where men, have signed their names on enlistment rolls, and afterwards failed to go into the service of the several companies they had pledged themselves to. It appears that these recusants could have been held according to a recent military decision. It has been decided by Generals Butler and Schouler, after a very carefgl investigation, that a soldier is holden from the time of signing his name to the enlistment the service without a proper discharge, are to be "sworn in" or not.

PRESENTATION OF A HORSE TO GEN. SCOTT.-A few days ago Colonel P. Kerr, of Clarion county, Pennsylvania, presented, in person, to Gen. Winfield Scott, a most splendid sorrel horse, five years old, weighing fifteen hundred pounds, and measuring seventeen hands high. The horse the General has been using is rather Hose Companies.—In Philadelphia the ladies broken down with age, having carried his disave organized a society for knitting woolen tinguished owner, who is no light weight, for stockings for the volunteers, under the name of many years; so the generous present came to the Columbia Hose Company. The horse is a noble specimen of his but we suggest to the ladies skilled in the use race, and was raised in Clarion county by Mr. Shoup. The General was very much pleased, under the title of the State Capital Hose Com- and although he cannot now mount him very well, he can use him in his carriage. Clarion county is doing very well furnishing horses for military heroes. Napoleon III. is now riding a horse raised in that county.

How to KEEP Edgs.—Here is a recipe, which is itself worth the price of subscription to any housekeeper, and we give it to our readers gratis. It is at once simple and infallible. A GANDER FOR THE TIMES. -Mr. Lyman Chase, who lives near the mouth of Chebaco his feet smashed on Thusrday between two car Pond, Essex, Massachusetts, owns a gander which chases every one who enters on his pre Washington avenue, where he received medical mises, and treats them with the utmost con tempt. A few days since he gave chase to Mr Chase's cow, and caught her by the nose and threw to the ground. Mr. Chase's dog then gave chase to the gander, and it proved to be a wild goose chase, for the gander turned and gave chase to the dog, and caught him by the nape of the neck and carried him some distance before he could free himself. Mr. Chase thinks of sending him to Washington, in case of an attack by the rebels on the Capital. Who knows but he would save the country?

LIQUOR SELLING TO SOLDIERS PROBIBITED. Much trouble having been experienced at Camp Carlisle, Wheeling, by the indiscriminate selling of liquors to soldiers, the State authorities requested the City Council of that place to pass an ordinance prohibiting the keepers of coffee houses and ordinaries from such sale. Council met on Tuesday evening, and adopted an ordinance embracing provisions similar to an act of Congress passed at the last session, prohibiting the sale of liquor to soldiers in Washington City. The ordinance provides that all

AN HEIRLOOM FOR THE SOLDIERS. The scroll that is to be distributed to the soldiers of the present campaign will soon be ready for distribution. One will be given to each of the soldiers, whether in the regular service; or volunteers, either for the war or the three months. The one adopted by Secretary Seward is now being prepared in Albany. It is about twenty inches by thirty; a handsome lithograph of an eagle with outstretched wings, over which is, in a circular line, the sentence, "Legion of Honor," beneath it, "E Pluribus Unum," and Washington. In the centre of the eagle is the Goddess of Liberty and the Goddess of Justice, with joined hands, seated upon a fiery dragon, with their heels upon its head, the Goddess of Liberty waving an American flag; by the side of the Goddess of Justice lies a scimetar. and in her left hand is a bundle of fagots, from the centre of which one is projecting, on the end of which is a tomahawk. In a semi-circle from one side to the other of the eagle, are the mottoes of all the States. The right foot of the eagle clasps an olive branch, and the left a bundle of arrows.

SMALLEST SOLDIER IN THE ARMY.—Eddy Black, son of George H. Black, of Indianapolis, is supposed to be the smallest and youngest, if not the bravest soldier in the service of the United States of the Indiana troops. When he enlisted roll, just as truly as though he were "sworn he was but eight years of age, but he exhibited in;" and persons who have enlisted and left such a spirit of patriotism, and so strong a desire to serve his country, that he over perconsidered deserters, whether they have been suaded his parents to let him go. He enlisted in the twenty-first regiment. Col. He forwarded his two months' pay, and what he accumulated from those who voluntarily gave him in admiration of his character, amounting in all to notes. An army of such Lilliputs would soon overcome even the fiery ardor of the chivalry He is a drummer boy. Just as he was leaving with the regiment, an elderly gentleman spoke to the little fellow and said, "My lad, do you know what you are going to do?" "Yes, sir," was his prompt reply, "I am going to beat the drum while the soldiers are fighting for their country." The man shed tears, and said to him, "If you return alive, come to my house and I will give you a horse. I have plenty of them." Eddy intends to hold him to his offer
