AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD.

A ND for the speedy cure of the sub-Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Bruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AXER & Co., Gents: I feel it my duty to acknowledge what your Saraaparille has done for me. Having inborited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Uleers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and leathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gespel Mensenger that you had prepared an alternative (Saraaparilla,) for I knew from your reputation that any thing you made must be good. I sent to Cheinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skn soen began to form under the scab, which after a while fell off my skin is now diear; and I knew by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the a callest of the see, and remain over gratefully. Yours; OAKLAND, Ind., 6th June, 1859.

I have cured many inveterate cases of Leucorrhosa, by it, and some where the complaint was caused by silvention of the silvent. The ulceration theil was soon cured: Nothing within, my knowledge equals it for those female derangements."

Our physician thought nothing but extippation could afford relief, but he advised the trial of your Sarsaparilla as the last resert before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have called with your sarsaparilla.

Une of my patients had Syphillito single in his threat, which were consuming his philate inglighted inglighted by the condary symptoms in his ness, and the ulceration had esten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcera healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poisson in her bones. They had become so sensitive to the weather that on a damp day she suffered accordanting call in the rights and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks! I know from its formula, which you agent gave me, that this Praparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with the weather three truly remarkeble results with the weather three truly remarkeble results with the weather three truly remarkeble results.
