Friday Afternoon, October 25, 1861.

THE FIRST ICE .- An intelligent farmer from South Hanover township, this county, informs us that the water in that section was covered this morning with a thin sheet of ice, the first of the season.

A LARGE number of volunteer companies, and parts of companies, from different sections of the States, have arrived at Camp Curtin within the last few days, There is material enough at that camp now to form several regiments.

COL. WYNKOOP'S REGIMENT.-We understand that Col. Wynkoop's cavalry regiment, at Camp Cameron, has been thoroughly uniformed and supplied with nearly the requisite number of horses. They expect to receive their arms and marching orders some time next week .--Capt C. C. Davis' company is attached to this regiment.

TIMID PEOPLE who apprehended danger from the existence of a large quantity of powder in the State Arsenal, may now have their minds relieved in knowing that the "vilianous compound," consisting of some twenty odd tons, has recently been removed to the State Magazine, detached from the Arsenal, and perfectly secure from accident.

WILD GEESE -During the past week, large flocks of wild geese have been observed wending their way southward. A number of flocks were noticed day before yesterday, and last night their discordant cries were frequently heard, they apparently flying quite low. The appearance of wild geese is said by the knowing ones, to indicate the early appearance of cold weather. And if signs do not fail, we may look out for a speedy approach of the reign of the Ice King.

FASTEN YOUR VAULT COVERS .- Very few people take the trouble to fasten down securely the covers of the vault openings in the sidewalks, and children in playing frequently lift out the covers and do not replace them properly, leaving a trap into which the next pedestrian passonly by proper parties.

POLICE. -- Mayor's Office. -- Eugene Marsellies was arraigned for violating one of the Market ordinances, and fined \$1 and costs.

Agnes Steward - a broad faced Millesian lady, with a shock of unkempt hair as red as the tip of her pug nose-was arraigned for drunkenness and "lying around loose." Discharged with an injunction to leave the city forthwith.

Jack Jones, John Wright and Bill Watkinsthe negroes arrested for card playing in Shell's lumber yard a day or two ago-were again brought up for hearing, and remanded back to the lock-up.

THE RAILROAD REGIMENT. - We still continue to receive favorable accounts of this regiment. both in regard to the health and spirits of the men. The first detachment which left York is still on guard along the line of the road, and the balance of the regiment is in camp at Cockeysville. Last Monday evening a party of some returned by the pickets, which alarmed the and was afterwards recovered. Bully for Al-

CAPTAIN ABRAHAM V. MILLER passed our office this morning at the head of a splendid body of men recruited from among the very best citizens of Centre county, which he designs attaching to one of the Cavalry Regiments about being organized by the state authorities. Captain Miller was in the three months service, and spring from a family of fighting Quakers who are as devotedly attached to the cause of the union as any class of men in the county. He will distinguish himself when the opportunity offers.

RAILBOAD ACCIDENT .-- About 2 o'clock yesterday morning, the locomotive of the Express Freight Train (No. 198) met with an accident which resulted in a severe scalding of the engineer, Mr. Kimes. The accident occurred near Landis' Crossing, three miles below Lancaster, and was caused by the "wagon top" being blown off-which, though not dangerously injuring any one, detained the train sometime. The injuries of the engineer, though not dancerous, are of course very servere. He was immediately taken to a house in the neighborhood and his wounds attended to. These accidents ings on the farm, being in a cluster, were for will occur, even on the best managed roads, and t is fortunate the injury done is no worse .-Mr. Kimes, we understand, is doing well.

How DO SOME PROPLE LIVE?-Perhaps this aint any body's business, but it is certainly astonishing how a class of beings can get along so swimmingly without any apparent business

To labor is the duty of all men, but especially those who are dependent upon their labor for class the most indolent men living. Now the wealth and prosperity of any community

must be a perfect Paradise for hunters. The last number of the Tribune, published at that place, says that recently a gentleman and companion were gathering blackberries in a field where there were a great number of pheasants. Every few minutes one would rise up

ly around. THE ART OF JUMPING OFF RAILWAY CARS .- It has been said there is art in everything. There is certainly some art in jumping from a car when in motion. Most persons imagine that they must jump forward, in the direction the car is moving. It is a mistaken notion. The proper way is to look forward, that is, the vay the car is going, and step off backward; and if the car is moving very rapidly, give a spring backward just as you let go the rail. In this way, by springing against or opposite the motion of the car, you overcome the impetus carrying you forward, and are left standing perfectly still; whereas when you jump with the car, you are plunged forward by its motion.

FIRE NEAR CAMP CURTIN.-About 11 o'clock this morning, flames were discovered issuing from a small outhouse belonging to the farm, immediately above Camp Curtin. The alarm was quickly given, when a large number of soldiers proceeded from the camp to the scene of conflagration, and after some difficulty succeeded in arresting the progress of the fire before it had entirely consumed the structure. The mansion house, barn, and other outbuildsome time in imminent danger, and would undoubtedly have been destroyed had it not been for the timely aid rendered by the soldiers .---The fire is supposed to have originated by a heated stove pipe passing thought a wood partition in the building.

The Pennsylvania Railroad Company has iust added 200 eight-wheeled cars to its rolling stock, intended to accommodate the tonnage of their daily bread. Yet there are some of this the Westmoreland coal company. The tonnage of the Pennsylvania Railroad Company is steadily on the increase, and from present ining may be precipitated, to the danger of his depends upon the industry of its inhabi- dications, coal will soon be one of the important life. Vault covers should be so weighted or tants. Show us a locality where all are items of its trade. Its passenger and miscelfastened down as to be immovable, except when producing something, and we will show you a laneous freight business is now very heavy, necessary to put down coal, and then moved thrifty community-the reverse where indolence probably equal to that of any other road prevails. In this country a man must labor, of like capital in the country, the receipts for and nowhere does labor pay better. As it was passing he made a stroke at it with his hand, intending only to frighten it, but, singularly enough, he caught it fairly by the south east corner of Front and Market streets, low its body to stop there, consequently the head tion and uniforming the Guards for the fall

whole camp. The troops were ordered under arms and preparations made for an assault, but the perpetrators of the outrage had fled. The Colder Fencibles, of this city, are attached to this regiment, and were on picket duty at the time of the attack last Monday night.

THE "WILD CAT" BOYS AT WORK .--- Gen. McCall made a reconnoisance from Drainesville to Camp Pierpont on Monday. No rebels were found except to the Southward, where four or five hundred were reported at Hampton Station on the Leesburg Railroad. The rebel pickets were also found three miles west of Drainesville. Sunday evening, five of Kane's Wild Cat Regiment, Pennsylvania Reserve Corps, were on picket duty southward, when fifteen rebel cavalry came up and fired on them. They returned the fire, and four out of the fifteen fell from their saddles. Three of the bodies were taken away, but the fourth was secured, and proved to be private Watts, of the "Louisiana Tigers." His shot-gun, loaded with buckshot, sword and equipments were brought in by them. The ball went in at his eye, and tore away his head killing him instantly.

A DAUGHTER OF THE REGIMENT .- The Philadelphia Fire Zouaves have attached to their corps a young lady named Virginia Hall, as hair cut short like a lad's, and parted on the well formed, and when she converses, even dentists might go mad at the display of so fine a Zouave shirt, trimmed with same colored braid, a Zouave jacket of the same color, and similarly ornamented, a tunic shirt, dark pants, Zouave light leather gaiters, extending from the knee down, a liberty cap with a red band, a blue top, a green sash and hospital steward's chevron. She wears a short sword and small revolver attached to her belt. Decidedly her appearance is prepossessing. Miss Hall is a Bostonian by birth; she received a fine education at one of serve, Ohio, and by her intelligence, fine confavorably. She makes herself generally nseful about the hospital, and renders whatever service she can to make the camp more comfortable. The Fire Zouaves take great pride in her. and quickly resent any imputations made against their vivandiere.

toona. SUICIDE OF A VOLUNTEER.-A young man named John Greer, residing in North Huntingdon township, Westmoreland county, committed suicide the other day under the following

circumstances; It appears that he had volunteered in some company in the vicinity, and on Friday last was to have joined it. The accommodation train, on which he wished to leave, being due at Carpenter's station, he went to his bedroom in the house of Alexander Duff, where he had been stopping for some time, to make preparations for his departure. Mrs. Duff being up stairs, he ordered her down. In a few minto death. He had, it appears, taken off one of prices. his boots, and seating himself on the bed, discharged the rifle with his foot, the contents en-

toring his body, and producing injuries from which four hours afterwards he died. -----TIME FOR ECONOMY .- The necessities of the

war have created a demand for labor in nearly all our manufacturies and Government establishments, and skilled workmen have no difficulty at finding employment at fair wages .-This work however, is not like the regular emvivandiere of the regiment. In person Miss Hall ployments of industry, certain of its duration, is above the medium height. She is a bright and depending upon the regular wants of the blonde, having a clear blue eye, and her light population of the country. It may last as long as the war, and it may cease in a few side. Her nose is slightly retrousse, her mouth months, ending just as suddenly as the demand for it has been created. It is the part of prudence then, in those who are set of teeth. Her uniform consists of a blue now in a situation to save a portion of their wages to exercise the closest economy, so that any sudden cessation of employment will not leave them, in the middle of winter, without the means of subsistence. It is usual in the time of public distress, to rely upon the mer-chants for contributions to help the unemploy-ed to support themselves, but it must be re-membered that this resource is no longer avail-able, for the stoppage of the ordinary channels of trade has prostrated the merchants, and they have now as much as they can attend to pro-viding for their own wants. The only sensible and sure plan is for each laborer to be provident now while he has employment, husband every cent, expend nothing in idle pleasures or amusements, use his wages to the best advan-ture cannot set as the removing in idle pleasures or amusements, use his wages to the best advan-ture cannot resist id. wages to exercise the closest economy, so that the academic institutions on the Western Re- have now as much as they can attend to proversational powers, and pleasing manners, she and sure plan is for each laborer to be provident impresses those who form her acquaintance very now while he has employment, husband every amusements, use his wages to the best advantage in providing for his present wants, and secure for winter most of the articles he will need to make him and his family comfortable. # GENERAL ORDER NO. 10.

HARRISBURG, PA., Oct. 22, 1861. It is with great pain that the Governor and commander-in-Chief has learned the death of Col. Edward D. Baker upon the field of battle. Although not a citizen of Pennsylvania, he had been selected by many of her sons as their com nander, and he met his death while gallantly leading them into action. The same feeling which inspired his soldiers to regard no state lines, when our common country is in danger, induced the Commander-in-Chief to recognize him, while living, as a Pennsylvania soldier, and impels him, now that he is dead, to be this public testimony to his gallantry and worth. By command of A. G. CURTIN.
