HARRISBURG, PA. Thursday Afternoon, October 31, 1861.

THE WEATHER is beginning to feel decidedly winterish. Closed doors, coal fires and woolen clothing are coming in fashion again. Yesterday morning we had a heavy white frost, which lay upon the roofs of the houses on the shady side of the way for two hours or more after sunrise, and looked as though it was snow.

SANFORD'S OPERA TROUPE will give their first entertainment at Brant's Hall, in this city, togreeted with a full house. The troupe is composed of some of the best Ethiopian performers in the country, led by the "incomparable Sam" make it a point to be on hand.

LIEUT. COL. STEPHEN MILLER, of the First Minnesota regiment, has been confined to his homestead. room in the Jones' House in this city for several weeks, seriously ill with the Camp Fever. We are glad to learn, however, that within the last tain the strongest hopes of his speedy recovery, and restoration to his regiment, now gallantly engaged defending their country's flag on the banks of the Potomac.

GIRL MISSING.-William Cloud, of Bernville, his daughter Sarah, who left her home in February last, and resided for sometime with Mr. Amos Huber, in Roseville, Lancaster county, under a fictitious name. She left Mr. Huber on the 2d of September last, with an old calico frock on, but without shoes or bonnet. Nothwill be thankful for any information by which they may discover where she is.

PARTRIDGE SHOOTING.-The season for this most exhilerating of all sports, is here, and the disciples of Nimrod are beginning to improve every hour in the day, crack! crack! goes some rusty "fusees" in the hands of sportsmen. Parties of sportsmen with their trained "Pointers," which is an indispensable requisite to the hunter, who wants either sport or game, leave the city every morning and return in the evening with their game-bags well filled with those delicate little birds, plump and fat as butter.

THE NEW BISHOP .- The Protestant Episcopal Convention of the Diocese of Pennsylvania, on Thursday, elected Rev. William Bacon Stevens, the Rector of St. Andrew's church, Philadelphia, to the office of Assistant Bishop, made vacant by the leath of the lamented Bishop Bowman. Although the choice is regarded as a triumph of the Evangelical or Low Church party, Dr. Stevens is known to be no active partizan, and his piety and qualifications are acknowledged even by those opposed to his election.

KNIT MITTENS FOR THE SOLDIERS .- An officer from West Point, who commands one of the needed when the cold weather begins. Will not all who can employ themselves in this way help to furnish five hundred thousand pairs .rimean war from frost bitten fingers than from

The Governor is looking remarkably well; and throughout the day was visited by a large number of his old personal friends in this city, who warmly welcomed him back to the scene of his early trials and triumphs, and congratulated him upon his recent re-election to the gubernatorial chair of his adopted State.

HANDROME SERENADE.—The fine band attached to Col. Brook's regiment at Camp Curtin visited the city last night and favored a number of our citizens with a handsome serenade. Among the places visited was the residence of Mr. John Killow, in Pine street, where they discoursed delightful music, and were sumpteously entertained. From here the serenaders repaired to out on the stillness of night, had a remarkably fine regiment, but by their excellent performances, inspire the men composing it to deeds Union, in which they are soon to participate.

REV. DR. THE LATE ACCIDENT ON THE NORTHERN CENTRAL RAILROAD.—The fact of an accident having octheir opportunities. In the country now almost | curred on the Northern Central railway, eight miles south of York, on Tuesday afternoon, by which two persons were instantly killed, was noticed in the TELEGRAPH vesterday afternoon. We have been able to gather the following additional particulars :

It appears from the report of the conductor of the unfortunate train, John J. Maglaughlin, of this city, that the train was going at a moderate rate of speed, when a cow suddenly ran on the track, and was caught by the pilot, badly breaking the engine and baggage car, and two passengers cars. Mr. John Valentine, of Baltimore, was one of those killed. It was asserted by some of the passengers that he was on the platform of the first passenger car at the time the accident occurred, and by other passengers that he was inside the car, but the conductor reports that he saw him on the platform, told him it was dangerous to ride there, and advised him not to run any such risk. The other party killed was a stranger, who got on the train at York, and nothing was found on his person to lead to his identity. He had on his person a finest regiments in the service, suggests that silver watch and a purse containing some money; woolen mittens for the soldiers will be greatly which were delivered to the coroner at York, whither the bodies were sent.

> FARMERS and other wise people in the rural districts predict an early winter, a long one, and a strong one. > BREAK DOWN AND SMASH UP.—The cattle train on the Pennsylvania Railroad had a small smash up, on Friday night last, somewhere in the Narrows, between Lewistown and Patterson. The breaking of an axle was the first act; the breaking of a rail, and a general heaping up of cars the consequence. Two head of cattle were were otherwise injured. Fortunately no human

> HEAVY CASTING .- An immense piece of ironone of the "chunks" from which the new model Dahlgren guns are turned—arrived here this morning from Pittsburg en route for the navy yard at Washington. The Pittsburg Dispatch, describing the mass of iron, says that the piece in its present condition bears very little resemblance to a cannon, and unless previously informed, few would guess the fact. It is merely cylindrical mass of iron, resembling the "butt cut" of a tree, slightly rounded at the lower end. The mass is thirty-one and a half inches in diameter at the breech, twenty-four at the muzzle end, and fifteen feet long. Its estimated weight is 26,000 pounds. From this mass will be turned a rifled eighty-pounder Dahlgren gun, of seven and one-half inches bore. At the Fort Pitt Works, where it was cast, work was commenced some months since on these "chunks," those first made being much smaller-rifled thirty-pounders, of 4.04 bore. These were tested and having been found successful, were followed by rifled fifty-pounders, of about five inches bore. The fifties were followed in their turn by eighties, but whether a larger size will be ventured on is not yet known.

> The rough mould is taken to Washington city and finished under the supervision of Capt. Dahlgren. The body of the gun is turned out of the mass, having no projections of any kind on its surface. It is then fitted in a wrought
