THE UNION-THE CONSTITUTION-AND THE ENFORCEMENT OF THE LAW.

HARRISBURG, PA.

Saturday Morning, November 2, 1861.

NOTWITHSTANDING the increased duties and daily accumulating responsibilities of the Commissariat of Camp Curtin, Commissary General abused this power, by arrogant assumptions and W. H. Irwin has so regulated his department as to give satisfaction to the soldier and maintain a just economy in the expenditure of the money of the state. We have yet to hear any from these other charges arose, until the declarman who has an acknowledged claim to the title ation became unmistakable that General Freof a soldier or gentleman, complain of the management of the Commissariat-and we honestly believe that of all the officers connected with our m litary organizations, General Irwin deserves a pre-eminent credit as well for his indefatigable devotion to the interests of the state as for his impartial determination to benefit and promote the comfort of the soldier. This is public sentiment in the camps and the capital of Pennsylvania.

CARRS OF HIGHWAY ROBBERY and murder increase rapidly of late in the Federal Capital. Within a day or two there have been several cases of open robbery and two or three murders. The town is filling up with thieves, pickpockets gamblers, and other desperate characters, attracted there by the great influx of visitors and the constant presence of army officers at the hotels. It is estimated that there are from ten to twenty thousand additional persons now in Washington, not in the army, who go there to see their friends and to make money in varlous ways out of the soldiers congregated in the vicinity.

THE LEBANON COURIER complains that we credited an article to the Tioga Agitator, which appeared originally in the editorial columns of the Courier. So much really able matter is printed editorially by Worth, that he must not complain if the hebdomidal press of the state occasionally use his brains. It is plagiarized for a good purpose by our cotemporaries, though we are always consciencious in giving credit to our friends, and in this instance, so far as we are to blame we make the amende honorable to the Courier. The Agitator, hereafter, must be more just to the Courier.

A HAPPY evidence of the good offices of the press to the army has just been developed in Western Virginia. The troops were badly fed and clothed. For weeks requisitions had been made in vain. The press took hold of the matter, and in two weeks' time the change was wonderful. It is said that a more pleasant, agreeable and industrious set of fellows can no agreeable and industrious set of fellows can no where be found than the Quarterm asters of cion under which he now rests. We trust that up by General Sickles and General Hooker. Sometimes the shot pass inland half a mile. Western Virginia are at this time. They are just piling the camps with clothing and other

THE BEBELS continue active, as far as firing shots from their batteries is concerned; along the Virginia shore of the Lower Potomac. It appears that the rebels at Shipping Point had been reinforced by several regiments of their troops. Reconnoisances continue to be made

The party accused and the power it is thought, have been sent down to strengthen these batteries. They, no doubt, are in dread of an attack by land and water.

A new battery was discovered in the neighborhood of Quantico creek.

THE BEREIS have an enemy in their midst which will soon prove more formidable and tend more certainly to inaugurate terror among them than General McClellan's army or the secret naval expedition. It is the deplorable condition of their finances, and the great want of the "sinews of war." There is a reckoning day approaching on which shinplasters will be forced te show their value.

Gra. Scorr will go to New York on Saturday morning accompanied by his staff. The New York Tribune says it is understood that next week, while in that city, he will retire from his high rank, and immediately thereafter sail for Europe with his son-in-law, of his staff.

If IS BELIEVED that there will be news from the fleet by way of Richmond to morrow or next day, Probably Jeff. Davis will hear from two points on the coast almost simultaneously -both between Beaufort and Cape Sable.

E. H. RAUGH has retired from the editorial control of the Mauch Chunk Gazette, for the purpose of entering the volunteer service as the captain of a company. Ned is a brave man, and will certainly distinguish himself if the opportunity is afforded.

GEN. JAMES H. LANE of Kansas, has made a regular army. Add also, 300 men, enlisted requisition upon the War Department for a early, in the southern tier regiments of the GEN. JAMES H. ADJUTANT GENERAL THOMAS' REPORT IN turbulent counties. THE FREMONT CASE.

Communication from E. M. Davis, Assistant Quartermaster.

PHILADELPHIA, Nov. 1. E. M. Davis, Assistant Quartermaster under Fremont, writes a letter to Adjutant General Thomas, under date Philadelphia yesterday, correcting some errors in reference to himself, published in the latter's report to Gen. Cameron. He says Fremont did not give him any contest for himself, and the latter's report to Gen. tract for blankets or anything else. He pur-chased blankets in his official capacity and de-

nies they were condemned as rotten and worth-less. When the report of the Board reached Fremont he expressed great displeasure and required the blankets to be returned.— The only fault that could be found with his purchase was the economy practiced in making it—the average price being one dollar and forty cents for each blanket. They were part ottom.

He can only account for the misstatements from the fact that when they make the they were that they were part of the misstatements from the fact that when the the fact that when Thomas was in St. Louis Davis was confined to his bed and that Thomas presumed from the reports that he heard that he had the whole truth before him in reference THE TRIAL OF THE SAVANNAH PIRATES, at New to these affairs.
