AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD:

A ND for the speedy cure of the sub-Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Kruptions, Pimples, Pustules, Blotches, Boils, Blains, and all 8kin Diseases.

OALLING, Ind., 6th June, 1859.

J. C. AYER & Co., Gents: I feel it my duty to acknowladge what your Sarsaparilla has done for me. Having tabertied a Scrottlius infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my toalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was respicted to read in the Gospel Messenger that you had prepared an atternative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Chaninati and got it, and used it till it cured me. I took it, as yon advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin som began to form under the scab, which after a while fell off my skin is now clear, and I know by my feelings that the disease has gone from my system. You on well believe that I feel what I am saying when I tell yon, that I hold you to be one of the acostics of the ago, and remain ever gratefully. Yours.

NEW ORLEARS, 25th August, 1959.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have course with your sarsaparilla.

I have coursed with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercarial Diseases. One of my patients had syphilic ulcars in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five week. Another was attacked by secondary symptoms in his nose, and the olderation had eaten away a-considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilia: the ulcers heated, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering rom this poison in her boucs. They had become so sensitive to the weather that on a damp day she suffered excrutating wain to her joints and bones. She, too, was cured suttrely by your Sarsaparilia in a few weeks. I know from its furnulla, which you agent gave me, that this I reparation from your laboratory must be a great remedy; consequently, these truly remarkedle results with it have not sufprised me.
