Blains, and all tkin Diseases.

Oakland, Ind., 6th June, 1859.

J. C. Ayrs & Co., Gents: I feel it my duty to ack: owlides a hat your Sarsaparilla has done for me. Having uberited a Scrolul us infection, I have suffered from it in various ways for years. Sometimes it burst out in warious ways for years. Sometimes it burst out in warious ways for years. Sometimes it burst out in warion and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and toathsome beyond description. I tried many medicines and several puysicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was reloked to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla,) for I knew from your reputation that any thing you made must be good. I sent to Cine must and got it, and used it till it cured me. I took it, as you advise, in smail doses of a teaspoonful over a month, and used almost three bottles. New and healthy skn soon began to form under the scab, which after a white fill off my skin is now clear, and I knew by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying withen I tell you, that I hold you to be one of the agostles of the age, and remain ever gratefully.

New Origans, 25th August, 1959.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its iffects truly wonderful in the cure of Veneral and Mercurial Discusz. (the of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five week. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I tell-ve the disorder would soon reach his brain and kill him. But it yield do my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman wan had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so securities to the weather that on a damp day she suffered excruciating min in her joints and ounces. She, too, was nucled enurely by y-day Sarsaparilia to a few weeks. I show from its formals, which you agont gave me, that this reparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with it have not surprised me.

This is a remedy so universally known to surpass any other for the cure of throat and ung complaints, that it is useless here to publish the evidence of its virtues. Its univalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth.—few are the communities, or even families, among teem who have not some personal experience of its effects.—some living tropby in their minst of its victory over the subtle and caugerous disorders or the throat and lungs. As all know the dreadily fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
