AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD: ND for the speedy cure of the sub-

Scrofula and Scrofulous Affection such as Tumors, Vicers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all skin Diseases.

J. C. AYER & Co., Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scroful bus infectiou, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla,) for I knew from your reputation that any thing you made must be good. I sent to Cincinnati andgot it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soen began to form under the scab, which after a while fell off my skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the a sosiles of the age, and remain ever gratefully. Yours,

ALFRED B. TALLEY.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the respect of your agent in saying I have found your sursapprilla a most excellent alternative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrotinous nathesis. I have cured many invoterate cases of Leucorrhead by it, and some waters the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my anowiedge equals it for these lemale derangements."

EAWART S. Marrow, of Newburry, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defled all the remedies we could employ, has at length beau completely cured by your extract of Sarsaparilla. Our physician thought nothing but extipated could affed defled, but he advised the trial of your sataparilla is the last resort of fore cutting, and it roved effectual. After taking you remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease. NEW OLLEANS, 25th august, 1959.

Dr. J. C. AYBR: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your sarsaparilla.

I have cured with u, in my practice, most of the complaints for which it is recommended, and have found its feets ruly wone-rul in the cure of 'Feirera and Mercurial Diseases. "The of my patients and sypunitic uters at mis throat, which were consuming his plates and the top of his mouth. Your Sarsaparilla, steadily taken, cared him in five week. Another was attacked by secondary symptoms in his mose, and the observation had eaten away a considerable part of it, so that I relieve the disorder would soon reach his brain and kill him. But it yields dt or my administration of your Sarsaparila: the alcres healed, and he is well again, not of course without some distiguration to his face. A woman who had been treat, do the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a dump day she suffered exercibating main in her joints and bones. She, too, was cured entirely by your Sarsaparitia in a few weeks." It know from its formula, which you agent gave me, that this freparation from your laboratory must be a great remedy; coasequently, those tenty was accorded by reacting yours,

A great variety of cases have been reported to us where cures of these formidable complaints have result-form the use of this remedy, but one space here will not admit them. Som of them may be found in our Amer can Almanac, which the agents below named are pleased to furnish gratts to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia. May remarkable curs of these affections have been made by the alternative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

of the Disease

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth.—Few are the communities, or even tamilies, among them who have not some personal experience of its effects.—some living trophy in their minst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreamin fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the centidence of mankind. THREE DAYS LATER!!

MAY 26, 1860.--This is the case of acute rheumatism

MAY 26, 1860.—This is the case of acute rheumatism trea e. with propylamine, the first of those to which i called your attenuou at our last cliule. She is stil very comfortable, and is now tiking three grains three daily. In this case it has seem, do be followed by very, satistactory results. The second case to which your attention was called at our last led ure, has also continued to do well. I will now bring before you a very characteristic case of acute themmatism, and if the result be satisfactory if think, as good jury enen, we small justly render our verdict in fivor of propylamine.

He is a seaman, set. 26, who was admitted a few days ago. Has had ocassional rheumatic pains, but not so as to keep his bed, until cight days ago. The palos began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are different to the palos where the left sheep. The second is the palos began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are different and the propylamine for twenty-four hours.

This gentleman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There is lever and the profuse sweating, so generally attendant on acute rheumatism. I did not bring this patient before you with the intention of giving you a lecture on all the points connected with rheumatism, but to again give a trial to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there on uid not be a fairer opportunity for testing the medicine in question. We are, therefore, avoiding the use of all other medicines, even ano lynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

JUNE9, 1860.—The next of our convalescents is the case of acuterheumatism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very needy, and is now able to walk about, as you see. I do not hesitate to say that I have neves seen as severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride of Propylamine, the patients have recained their health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a g extract, see the Philadelphia Medical and Spring. E. porter. It is the report after a fair trial by porter. It is the report sucressian authority in this country, and makes it entered to give numerous certificates from astonia. entered on each box.
