DR. JOHNSTON. DR. JOHNSTON.
Dr. Johnsou member of the Royal College of Surgeons, condon, graduate from one of the mest eminent Colleges of the United States, and the greatest part of whose life that beer sport in the Hospitals of London, Paris, Philadelphia and elsewhere, has sifented some of the most astenishing ourse that were ever known. Many troubled with ringing in the ears and head when saleop, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. ... addresses all those who having injured themselves by private and improper indugencies, that secret and solitary abit which rules both body and mind, unstiting them for either businesser society.

These are seme of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dunness of Sight, Loss of Muscular Power, Patpliation of the Heart, Dyzbepsia, Nervous Irritability, Derangement of the Digestive functions, Geheral Debility, Symptoms of plansumption, &c.

MENTALLY.

MENTALLY, the fearful effects on the mind are much to up dreaded:—Loss of Memory, Confusion of Ideas, Depression of Spirits, Svil Forebodings, Aversion to Society, Self-distrust, Love of Selitude, Timidity, &c., are some of the ovil effects.

Thousands of persons of all ages, can now judge what is the cause of their decline in health, losing their vigor, becoming weak, pale, nervous and emaciated, have a singular appearance about the eyes, cough, and sympmes of consumption.

YOUNG MEN

who have injured themselves by a certain practice, in dulyed in when alone—a habit frequently learned from svil companions, or at school, the effects of which are nightly felt, even when asleen, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.
What a pity that a young man, the hopes of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life by the consequences of deviating from the path of nature, and indulging in a cortain secret habit. Such persons must, before contemplating

Indeed without these, the journey through life becomes a weary pligrimage, the prospect heurly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes hlighted with our owa.

The many thousands cured at this Institution within the last twelve years, and the numerous important Surgica operations performed by Dr. J., witnessed by the reporters of the papers, and many other persons, notices of which have appeared again and again before the public, besides his standing as a jentleman of character and responsibility, is a sufficient guarantee to the afflicted.

sponsibility, is a sufficient guarantee to the afflicted.

DISEASES OF IMPRUDENCE.—When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed souse of shame or dread of discovery deters mim from applying to those who, from education and respectability can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, affecting the head, throat, nose, gkin, &c., progressing on with frightful rapidity, till death puts a period to his dreadful sufferings by sending him to "that bourne from whence so traveler returns." It is a melancholy fact that thousands fail victims to this terrible disease, owing to the unsighthness of ignorant pretenders, who, by the use of that deadly postem, servery, ruit the constitution and make the residue of life miserable.

The force of Jenkins, it is added, were cut to pieces

after they had killed the prisoners.

Exports of Cheese.—One of the remarkable over. features of the large exports of provisions now making from New York, is the immense quantity of cheese exported to England. There has already been exported the first ten months of this year the enormous quantity of twenty-six millions of pounds. Two millions of pounds of this morning at Du Pont's mills, destroying butter were exported in 1859. The first ten three of the mills and killing three men named months of this year fifteen millions of pounds Charles Muhleim, John Vizier and Samuel Rushama ham awarded. have been exported.

OPENING A COTTON PORT.—The establishment of an open port for the shipment of cotton is likely to be put into practical operation a Beau-DIVIDEN fort very soon, for we learn that Senator Sim-mons, of Rhode Island, actually started the schooner Charity from Providence on Friday for that port laden with salt, shoes and other necessaries, which he expects to exchange for Sea Island cotton, to be immediately transferred to England.—N. The furniture of his house alone is valued at \$15,000, and that, together with the entire estate, will, no doubt, be confiscated.

MARRIAGE OF ELLA ZOYARA.—The long contested points as to the sex of Ella Zoyara has now been definitely settled, and the question as often promulgated, "What is it?" can now be answered satisfactorily. Mr. Ella Zoyara, otherwise called Yale, was united in the holy bonds of matrimony last week to Miss Sallie Stickney, daughter of the appropriate the Rev.
