## Great Cure. DR. LELLAND'S

ANTI RHEUMATIC BAND, IS THE ONLY KNOWN REMEDY FOR

Rheumatism. Gout and Neuralgias AND A SURE CURE FOR

All Mercurial Diseases.

It is a conveniently arranged Band, containing a merity cated compound, to be worn around the Waist, without injury to the most delicate persons, no change in habits of living is required, and it entirely removes the disease from the system, without producing the injurious effects arising from the use of powerful internal medicines which weaken and destroy the constitution, and give temporary relief only. By this treatment, the medical properties contained in the Band, come in contact with the blood and reaches the disease, through the pores of the skin, effecting in seery instance a perfect cure, and restore the parts afflicted to a healthy condition. This Band is also a most powerful Arm-Mescouskal agent, and will entirely relieve the system from the persistions of the facts of Mercury. Moderate cases are cured in a lew they are constantly receiving testimonials of its and or mercury. Moderate cases are cured in a lead days, and we are constantly receiving testimonials of its efficacy in aggravated cases of long standing.

Price \$1.00, to be had of Druggists generally, or can be eat by mail or express, with full directions for use, it any part of the country, direct from the Principal Office.

AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD. A ND for the speedy cure of the sub-joined varieties of Disease:

Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all skin Diseases.

Blains, and all Skin Diseases.

OARLAND, Ind., 6th June, 1859.

J. C. Arez & Co., Genta: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Uters on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Chemnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soen began to form under the scab, which after a while fell off my skin is now clear, and I knew by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Yours,

St. Anthony's Fire, Rose or Erysipelas. Tetter and Salt Rheum, Scald Head kingworm, Sore Eyes, Dropsy. Dr. Rooert M. Preble writes from Salem, N. Y., 12th Sop., 1859, that he has cured an inveterate case of Drop-sy, which threatened to terminate fatally, by the perse-vering use of our Sarssparilla, and also a dangerous at-ack of Malignant trysipelas by large doses of the same ays he cures the common Eruptuous by it constantly.

Bronchocele, Goitre or Swelled Neck. Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me frem a Gerran—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, .Uterine Ulceration, Female Diseases. Letrine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the respect of your agent in saying I have found your sarsaparitia a most excellent alternative in the numerous complaints for which we employ such a remedy, but especially in Fandle Diseases of the Scrofulous disthesis. I have cured many inveserate cases of Leucorrhoad by it, and some where the complaint was caused by selection of the steries. The ulceration itself was soon cured. Nothing within my nonwiedge equals in far these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous couran tames on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your extract of Nersaparitia. Our physician thought nothing but critipalien could afford relief, but he advised the trial of your sarsaparilla as the last resort before cuting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease. NEW ORLEANS, 25th August, 1959.

Dr. J. C. AYEE: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your sarsaparilia.

The realized with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercanical Diseases. One of my patients had sypphilic cheers in his throat, which were consuming his palate and the top of his mouth. Your Sagasparilia, steadily taken, oured him in five week. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sagasparilia: the ulcera healed, and he is well again, not of course without some disagnaration to his face. A wuman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered exercusting rain in her junts and bones. She, too, was oured entirely by your Sarsaparilia in a few weeks. I know from its formula, which you agent gave met that this rreparation from your laboratory must be a 3great remedy; consequently, these truly remarkeble results with it have not surprised me.

Rheumatism, Gout, Liveer Complaint.

Rheumatism, Gout, Liver Complaint. Independence, Precton Co., Va., 6th July, 1859.

Dr. J. C. Aybe: Sr., I have been afflicted with a painful chronic Rheumatism for a long time, which bailled the skill of physicians, and stock to me in spite of all the remedies I could fin , until I tried your Sarsaparilla.—

One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine.

Travelers should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon change of climate and water.

As it prevents occurrences, strengthens the digestive corgans, it should be in the hands of all persods of sedentary habits,
Landies not accustomed to much out-door exercise should away use it.

Mothers should use it, for it is a perfect relief, taken a month or two before the final trial, she will pass the dreadful period with perfect case and safety.

THERE IS NO MISTAKE ABOUT IT.

Schirrus, Cancer Tumors, Enlargement. Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to My front variety of cases have been reported to us where curse of these formulable complaints have resultiorm the use of this remedy, but one space here will not act them. Som of them may be found un our Amer can Almanac, which the agents below named are pleased to furnish graits to all who call for them. Dyspepsia, Heart Disease, Fits, Epilep-

sy, Melancholy, Neuralgia, Many remarkable cures of these affections have been

many remarkable cures of these affections have been made by the alternative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral

FOR THE RAPID CURE OF Goughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease

Of the Disease

This is a remedy so universally known to surpass any other for the cure of threat and lung complaints, that it is useless here to publish the evidence of its virtues. Its univalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth.—

Few are the communities, or even familied, among them who have not some personal experience of its effects,—some living trophy in their minut of its victory over the subtle and dangerous disorders of the threat and lungs. As all know the dreadful fatality of these disorders, and as they know, to, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

PENNSYLVANIA HOSPITAL.

May 19, 1860,—Biles S., æt. 28, single, never was very string. Two years ago she had an attack of acute theomatical, from which she was coofined to her bed for two weeks and subsequent, y from a relapse for four more. She has been well since then till last Satur day, white engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had no decided chill. Two days later her ankles began so swell, which was followed by swelling of the snee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is meet so. This, then, is a case of acute rheumatism, or, as it is new fashionably called, rheumatic lever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object its bringing her before you now, is to call attention to a remedy which has recently been recom mended in the treatment of rheumatism. Im an propyl ansize. Dr. awendrius, of St. Petersburg, recommends it in the highest terms, having derived great counds from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journaits, and I propose therefore to give it another trial. I must confess I am always moredulous as to the worth of new remedies, which are vaunted as specifies; out this comes to us recommended so highly, that we are bound to give it a trial. [FROM OFFICIAL HOSPITAL REPORTS ]

SAME CASE FOUR DAYS LATER!

SAME CASE FOUR DAYS LATER!

May 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was then laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains every two hours (intermitting it at night.) The day after you saw her, I bound her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (the patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly all of their natural size.—
Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; sha has long been suffering from a fronte rheamatism, and I found her at that time with an acute attack supervening upon her chrocic affection. The wrists and knuckles were much swollen and tease. She took the chloride of Propytamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

May 26, 1860. - This is the case of soute rheumatism MAY 25, 1880.—This is the case of acute renormation treated with propylamine, the first of those to which i called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrico daily. In this case it has seemed to be followed by very, satisfactory results. The second case to which your attention was called at our last fecture, has also continued to do welt. I will now bring before you a very characteristic case of acute phenomenants, and if the result be satisfactory. It high as good inverse, we shall justice rendered.

do weit. I will now bring before you a very characteristic case of anute rhaumatism, and if the result be satisatory, I think, as good jurymen, we snail justly render our verdict in favor of propylamine.

He is a seaman, set. 26, who was admitted a few days ago. Has had occasional rhaumatic pame, but not so as to keep his bed, until tight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all swollen, tense and tender. His tungue is furred in his skin, at present dry, though there has been much sweating. His pulse is fall and strong, and about 90.—He has now used propylamine for twenty-four-hours.

This gentlemnn is what may be called a strictly typical case of scutte rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeting of coldness, severs articular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating, so generally attlendant on acute rheumatism. I did not bring this patient before you with the intention of giving you a lecture on all the points connected with rheumatism, but to again give a trial to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there on uld not be a fairer opportunity for testing the use of all other medicines; even ano lynes, that there may be no minglyings as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

Juwa9, 1880.—The next of our convalescents is the case of acuterheumanism before you at our clinic of May 28th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our now remedy. It was therefore steadily given in three grain doses every two hours for four days, the patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have neves seen as severe a case of acute rhoumanism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride of Propylamice, the patients have regained their health much callier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condense extract, see the Philadelphia Medical and Surgical Reporter. It is the report after a fair trial by the best med ical authority in this country, and makes it unnecessar to give numerous c crificates from astonished doctor and rejoicing patients.
