HARRISBURG, PA.

Friday Afternoon, November 22, 1861.

"THE LIGHT FANTASTIC TOE."-Our readers should not forget the grand sorrie of the Harrisburg Sociables which comes off at Exchange Hall this evening. Tickets fifty cents—to be had at the door.

HANDSOME SERENADE.—The band formerly attached to Col. Seigle's and latterly to Colonel White's regiment, favored our office with a handsome serenade last night, for which we are under many obligations.

IN Town.-Wm. H. Armstrong, Esq., the popular member of the last, and member elect of the next House of Representatives from the Lycoming district, was in town this morning, looking remarkably well. Mr. Armstrong is prominently spoken of as a candidate for the Speakership of the next House.

RECRUITS FOR THE CALIFORNIA BRIGADE.-Quartermaster Sergeant W. F. Fackler was to have arrived in town to-day to hunt up recruits for the California Brigade. He is authorized to make arrangements for the transportation of recruits to Washington Quartermaster Fackler is the son of the late Joshua Fackler, formerly superintendent of the water-house in this city.

POLICE -Before the Mayor. -Ellen Sharpe-s white female-was arraigned for keeping bad hours. Remanded to the Lock-up.

John O. Jones—a soldier—was up for drunkenness and disorderly conduct. Discharged with a reprimand.

Bryant Clark, was arraigned for vagrancy and discharged with an injunction to leave the

AMUSEMENT TO NIGHT.—Sanford—the gay and incomparable—resumes his levees at Brant's Hall this evening, and of course a "full house" will be on hand. The programme is overflowing with rich things, which will be served out in that recherche style for which the troupe are famous. Sanford is the Napoleon of Ethiopian Opera Managers, and never does things by halves. What he does is done well; at least such are the sentiments of his friend-the universal public.

THE Fifty-Seventh Pennsylvania Regiment, commanded by Colonel William Maxwell, of Mercer county, now at Camp Curtin, near this city, were to have moved to-day for Annapolis, Maryland, and go thence with other regiments, to Port Royal, South Carolina. The regiment is filled to the proper standard. The ten companies are commanded by Captains J. B. Moore, of this city; Chase, of Titusville; Symington, Strawhecker, Maxwell and Hogland, of Mercer county: Griffin and Caulking, of Tioga; Peck, of Bradford, and Hord.

DAHLGREN GUNS .- A large number of Dahlgren guns have recently passed through our city over the Pennsylvania Railroad from Pittsburg to the Navy Yard at Philadelphia. A new proving ground will soon be used, near Wall's Station, on the Pennsylvania Railroad. Heavy guns will be proved there now constructing at the Fort Pitt Works, and the necessity of unshipping them will thus be avoided: The guns are proved by ten rounds of service charges; the firing, therefore, requires a longer time of news from the York Republican: On Friday than the Rodman guns, and a heavy cast iron carriage has been constructed for them.

to meet in our city next Tuesday, promises to be very largely attended by the friends of education throughout the State. The object of the Convention, as we have already stated, is to promote harmony of feeling and unity of purpromote harmony of feeling and unity of purpose amongst the educationists of every class and department of operation in the State; and, learn the origin of the fire, but it was most procondition of the inmates is as comfortable as under the circumstances they can be; but there and department of operation in the State; and, so far as expedient and possible, to combine the whole into one united system, sustained by common effort. Arrangements have been made with the Railroads to facilitate the attendance of persons who contemplate participating in the Convention.

"Kappa Mu" Literary Society.--We learn that a literary association with the above name few were present at the depot. has been formed in this city by young men who are desirous of improving themselves in literature, composition, ethics, &c. Their motto is the Greek words "Kamnomen Manthem," or "we strive to learn." They meet every Wednesday evening, in the Cadets of Temperance Hall, North Second street. At the first regular meeting, held last Wednesday evening, they organized by electing the following officers to serve the ensuing term: President, William T. Bishop, Jr.; Vice President, Oliver B. Yoder; Ediaor, G. Washington Fenn; Treasurer, Luther Straup; Recording Secretary, Thomas J. Finney; Corresponding Secretary, Irvin S. Boas. The society is a good institution; and now that the long winter evenings are upon us, we hope to see it well sustained.

ALTERED BILLS.—There are altered bills of the denominations of \$5, \$10 and \$20, on the Alentown Bank in circulation.

A PATRIOTIC LADY.-The Union Guards. Capt. Diller of Hanover, York county, now staappreciate her generosity to the fullest extent.

DESTRUCTIVE FIRE.—A few nights since the dwelling house of Mr. Henry Rungey, on the line of the Northern Central Railroad near Wolf's Station, was totally destroyed by fire, communicated to the roof of the building by sparks from the locomotive attached to one of the freight trains. So rapid was the progress of the flames, that very few of the articles in the house were saved. The loss will be from \$800 to \$900, which is, we are informed, partially covered by insurance.

A MAN DROWNED AT SAFE HARBOR. - On Saturday George Ottinger started from Safe Harbor on a duck hunt. He was seen to load his gun with a charge unressonably heavy before he left the bank of the river; in the evening the report of a gun was heard on the river, and on Sunday morning the boat on which the unfortunate man had gone out was found below the dam upside down. It is supposed that either his gun exploded and killed him, or that owing to the heavy charge the recoil threw him from mourn his loss.

A BIG SHAKE .- The editor of the Lancaster Express has received several communications relative to a shock or series of shocks felt in Lancaster county last Wednesday, shortly before noon. At the Bird-in-Hand, two distinct shocks were felt, and in Bart three windows were sensibly shook and houses jarred. His correspondents offer various surmises as to the cause of the phenomenon, but the editor seems to think that the true explanation is furnished by the telegraph dispatch announcing the explosion of three of Dupont's powder mills at Wilmington last Wednesday. This may possible be the case, but if so it was a big shake.

THEIR NAMES AND CONDITION.—The names of the two soldiers, noticed in last Wednesday's TELEGRAPH as having been badly injured by colliding with a covered bridge on the Northern Central Railroad, while riding on the top of a car, were Corporal David Smith and private Wm. M. Tate of Company C. Capt. Hicks, Seventy-sixth Pennsylvania Regiment. It was during the passage of the regiment in the train from this city to Baltimore that the accident occurred. Corporal Smith had his right cheek badly cut to the bone, the wound being several inches in length and extending to the eye. He also received several contusions on his forehead. Private Tate was more seriously injured, receiving a cut over the right eye and on the nose, and was also internally injured. On the arrival of the train at Baltimore, a carriage was obtained by Captain Hicks and they were conveyed to the Adams House Hospital, where they were placed in one of the wards and are now receiving the necessary attentions of Assistant Surgeons Drs. Charles Page and George Taylor, and the Medical Assistants, Drs. William Longshaw garded as somewhat critical, but Smith will recover in a few days.

YORK AFFAIRS.—We clip the following items last, the officers and inmates of the York last, the officers and inmates of the York County Hospital were somewhat alarmed by the discovery that a bed in one of the rooms had caught fire, and was burning quite furiously.— THE STATE EDUCATIONAL CONVENTION, called caught fire, and was burning quite furiously.— The proper steps were at once taken to prevent The proper steps were at once taken to prevent vice and crime could be prevented if the individuals having the charge of the various camps tinguished by a copious application of water from buckets. The excitement in the building is said to have been very great for a time, but bably accidental.

On Sunday morning at an early hour a detachment of U.S. Marines numbering about 800 men passed through this place on a train from Baltimore bound to the west. Their appearance elicited considerable interest among those who saw them, but owing to the unseasonableness of the hour at which they passed, but

Information having been received at Wash ington that a certain individual who has been acting as a spy and secret agent of the Confederate Government, was engaged in enlisting recruits in York county for the Federal army, an officer was sent hither to arrest him if he could be found. We have not yet ascertained whether he has been successful in his mission.

THE WOUNDED. The York Republican says that Mr. Robert Irwin, who was injured about three weeks since by falling from the cars at Conewago siding on the Northern Central Railroad, and suffered the amputation of his left leg is, we are happy to say, rapidly recovering under the professional services of Dr. E. H. Pentz, assisted by Dr. Kerr. He still remains at the York County Hospital, were he receives every attention that can conduce to his comfort

and recovery. The young man, whose leg was broken at the time of the accident near Howard tunnel, on the same Railroad, is now so far recovered that he is able to leave his bed though he is examine into alleged frauds in army contracts, compelled to resort to the use of crutches .-He has been staying during his illness at King's Railroad Hotel, in York.

Mr. Thomas Platz, who was injured last summer by the running off the track of a locomotive on the N. C. R. R.. by which his foot was painfully crushed, has also, after a protracted and tedious confinement, been enabled to get ont again. He is also compelled to use crutch- here for several days; but of course their seses, as his injury is far from being entirely well sions will not be open to the public, nor their again. He has been attended by Dr. E H.

Pentz, of York. Mr. Daniel Platz, who was also injured on the railroad is still confined to his bed in York, and though his recovery is expected it will necessarily be a considerable time before he will be able to get about again.

"Mits" for the Soldiers.

[Correspondence of the Telegraph.]

November 21, 1861, MR. EDITOR:—As I saw a communication in your paper from a lady, desiring information about mittens with thumb and finger. I think can furnish her with the desired information. A pair of these mittens are at the Pennsylvania House, in possession of Mrs. Captain Samuel

DIRECTIONS. Crochet a chain of 46 stitches and unite the chain, then crochet three rows plain; 4th row widen two stitches where the chain unites; the boat. Deceased leaves a wife and child to omit and widen alternate rows until the 11th row—always widening where the chain unites. Then omit widening for three rows; 14th row commence widening again alternate rows until the 18th row; after widening on the 18th row, make a chain of 4 stitches for the thumb, making the thumb about 22 stiches around. Croche 11 rows for the thumb and narrow it rapidly; return to the inside of the hand, and crochet rows; then commence the finger, which is to be 20 stitches round. Crochet twelve or thirteen rows for the finger. Finish the mitten a row or two longer than the finger and narrow rapidly. This mitten is to be knit out of stock-

ng yarn.
These mittens are much liked by the soldiers,

These mittens are much liked by the soldiers, as they are very warm and they have the free use of their hand. If you can obtain the Philadelphia Inquirer of November 11th, you will see the directions for knitting three different kinds of soldiers mittens.

Yours,

UNION,

Mitten Knitter.

A "New England lady" also responds to the call for information in this matter by furnishing the following directions:

"Cast twenty-six stitches on each needle. Rib two inches two and two. Commence the thumb by taking two stitches between these two seam stitches. Knit three rounds between each, widening until you have twenty; take these twenty off for the thumb, make twelve stitches, then decrease every other round at the beginning and end of the twelve until only three of the increased stitches remain. Knit a little more than an inch plain. Now for the finger: take off twenty stitches, make twelve, and knit the same as at the thumb; knit about an inch and a half plain, then narrow every sixth stitch; knit six rounds, then every fifth, and five rounds, and so on. Then take up the finger; a little shorter than the mitten; now the thumb, reducing the stitches to thirty."

The Grand Jury of Dauphin county of November session, respectfully report—That the large number of bills submitted to them seems to in-But in the judgment of the Grand Jury, much would exercise their authority to put a stop to

the frequent and unnecessary visiting of the city on the part of the soldiers. They visited the Poor House, and are happy is one exception to this; it consists in the large room appropriated exclusively to those who are afflicted with sores, lacerated limbs, &c. The beds and bedding in this apartment are not of the kind in respect to quantity and cleanliness that they should be. They trust that this will be remedied.

They are of the opinion that it would be economical for the county to erect a suitable building for the sick and insane. There is no place now to put these afflicted creatures, and it is due them that proper provision be made for their wants and necessities.

They are not prepared to recommend any in crease of the Prison. The space between the main building and the wall would not admit of the erection of any structure that would answer the purpose, but they think that it would be wise and expedient to send the convicts sentenced to labor to the Penitentiary at Philadelphia. careful inquiry they cannot discover any satisactory reason to recommend a change in the kind of labor at present in operation at the

They would call attention to the danger ou citizens are subjected to by the Cumberland Valley and Pennsylvania Railroads. In consequence of no watchman being by either of these orporations at their respective lines of track where they cross populous thoroughfares, many are subjected to great risk to their lives. W hope some measure may be adopted by which these corporations shall be compelled to adopt precautions to prevent accidents.
