## DR. LELLAND'S ANTI RHEUMATIC BAND IS THE ONLY KNOWN REMEDY FOR

Rheumatism. Gout and Neuralgias AND A SURE CURE FOR

All Mercurial Diseases.

It is a conveniently arranged Band, containing a met of chief domnound, to be worn around the Waist, without injury to the most delicate persons, no change in habits of fiving is required, and it entirely removes the disease of from the system, without producing the injurious effects arising from the use of powerful internal medicines which weaken and destroy the constitution, and give temporagy relief only. By this treatment, the medical properties contained in the Band, come in contact, with the blood said resolves the disease, through the pores of the skin, effecting in every instance a perfect cure, and will entirely releve the system from the perintious effects of Mercury. Moderate cases are cured in a few days, and we are constantly receiving testimonials of its efficacy in aggravated cases of long standing.

AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD: A ND for the speedy cure of the sub joined varieties of Disease:

Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

Blains, and all Skin Diseases.

Oakland, Ind., 6th June, 1859.

J. C. Ayer & Co., Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scale and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grow worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla.) for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a, teaspoonful over a month, and used almost three bottles. New and healthy sku soen began to form under the scab, which after a while fell off my skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Korrs,

Alfrikh B. Talley.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head Ringworm, Sore Eyes, Dropsy.

Dr. Rocert M. Preble writes irom Salem, N. Y., 12th Sep., 1859, that he has cured an invetrate case of Drop-sy, which threatened to terminate fatally, by the perse-vering use of our Sarsaparilla, and also a dangerous at-ack of Malignant Erysipelas by large doses of the same says he cures the common Eruptions by it constantly.

Bronchocele, Goitre or Swelled Neck. Zebulon Sloan of Prospect, Texas, writes: "Three bot-tles of your Sarsaparilla cured me from a Gerrar—a hid-cous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, "Uterine Ulceration, Female Diseases.
Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the respect of your agent in saying I have found your Sarsaparilla a most excellent alternative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous disthesis. I have cured many inveterate cases of Leucornhoa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these formale derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous courtain tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sursaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking you remedy eight weeks no symptom of the disease remains."

Syphillis and Mercurial Disease. .Uterine Ulceration, Female Diseases.

Syphilis and Mercurial Disease. Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of \*Feneral and Mercurial Discasse.\* One of my patients had syphilitic ulcers in his throat, which were cousming his plate and the top of his mouth. Your Sarsaparilla, she dily taken, oured him in five week. Another was attacked by secondary symptome in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excusulating main in her joints and bones. She, top, was cured entirely by your Sarsaparilla in a few weeks, i know from its formula, which you agent gave me, that this Proparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with it have not surprised me.

Rheumatism, Gout, Liver Complaint.

LEDSFENDENCE, Precton Co., Va., 6th July, 1859.
Dr. J. C. Ather: Sir, I have been salliced with a painful chronic Rheumatism for a long time, which battled he skill of physicians, and stock to me in spite of all tile remedies I could fin , until I tried your Sarsaparilla.—One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine.

J. FREAM.

Jules Y. Getcheil, of St. Louis. writes: "I havê been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing laided to relieve me; and I have been a broken down man for some years from no ther cause than devangment of the Liver. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparrilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement,

the Bones. A great variety of eases have been reported to us where cures of these formidable complaints have resultform the use of this remedy, but one space here will not admit them. Som: of them may be found in our Amer can Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia, Many remarkable cures of these affections have been made by the alternative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

## Ayer's Cherry Pectoral

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Con-sumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease

This is a remedy so universally known to surpass any other for the cure of threat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth.— Few are the communities, or even families, among them who have not some personal experience of its effects,—some living trophy in their migst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

PENNSYLVANIA HOSPITAL. [FROM OFFICIAL HOSPITAL REPORTS.]

[FROM OFFICIAL HOSPITAL REFORMS.]

MAY 19, 1860.—Ellea S., st. 23, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was centined to her bed for two weeks and subseqently from a relaigle for four more. She has been well since then till hast Satur day, while engaged in house cleaning, she took cold, had pain in her back, fells cold, hot had so decided chill. Two days later her ankles began so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. I mean propylamics. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great one eaft from its use in 250 cases which came under his care. Various, commendatory tectimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confess I am always incredulous as to the worth of new remedies, which are vanued as specifies; but this comes to us recommended so highly, that we are bound to give it a trial. are bound to give it a trial.

SAME CASE FOUR DAYS LATER! SAME CASE FOUR DAYS LATER!

May 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was then laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains every two hours (intermitting it at night). The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her of her attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly all of their natural size.—Thus far our experiment, would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the resuit.

Here is another patient who was placed on the use of

the result.

Here is another patient who was placed on the use of the same medicine on Suaday last; she has long been suffering from a front rheumatism, and I found her at that time with an acute attack supervening upon her chrodic affection. The wrists and knuckles were much swollen and tense. She took the chloride of Propylamine in three grain dozes every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

May 26, 1860.—This is the case of scute rheumatism

MAY 26, 1860.—This is the case of soute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. Sine is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very, satisfactory results. The second case to which your attention was called at our last jecture, has also continued to do well. I will now bring-before you a very characteristic case of acute rheumatism, and if the result be satisfactory, I think; as good jurymen, we shall justly render our verdict in favor of propylamine.

He is a seaman, set. 28, who was admitted a few days ago. Has had ocassional rheumatic pains, but not so as to keep his bed, until eight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremitles. These joints are all swollen, tense and tender. His tongue is furred; his skin, at present dry, though there has been much sweating. His pulse is full and strong, and about 90.—He has now used propylamine for twenty-four hours. This gentleman is what may be called a stricity typical case of soute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating, so generally attendant on acute rheumatism. I did net bring this patient before you with the interion of giving you a lecture on all the points connected with rheumatism, but to again give a trial to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there ou uld not be a fairer opportunity for testing the medicine in quesition. We are, therefore, avoiding the use of all other medicines, even anolynes; that there may be no misgivings as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

June 9, 1860.—The next of our convalescents is the case of acuterheumatism before you at our clinic of May 20th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore see all y given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have neves seen as severe a case of south rheoumatism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride of Propylamice, the patients have regained, their health Propylamine, the patients have regained their health much earlier than under the treatment ordinarily nurled. I wish gentlemen, you would yourselved and report the results.

For a full report of which the above is a cond extract, see the Philadelphia Medical and Surgical Reorter. It is the report after a fair trial by the best medical authority in this country, and makes it unnec to give numerous certificates from astonished doct and rejoicing patients.
