AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD: A ND for the speedy cure of the sub-joined varieties of Disease:

Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Kruptions, Pimples, Pustules, Biotches, Boils, Blains, and all Skin Diseases.

Blains, and all skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. Ayer & Co., Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it invarious ways for years. Sometimes it burst out in Wears on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla,) for I knew from your reputation that any thing you made must be good. I sent took it, as you advise, in small does of a teaspoonful over a month, and used almost three bottles. New and healthy-skn soen began to form under the scab, which after a while fell off my skin is now clear, and I knew by my feelings that the disease has gone-from my system. You can well believe that I feel what I am saying when I (ell you, that I hold you to be one of the apostles of the sage, and remain ever gratefully. Yours, ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas,

St. Anthony's Fire, Rose or Krysipelas, Tetter and Salt Rheum, Scald Head Ringworm, Sore Eyes, Dropsy.

Dr. Rovert M. Preble writes from Salem, N. Y., Sp., 1859, that he has cured an inveterate case of y, which threatened to terminate fatally, by the perse-vering use of our Sarsaparilla, and also a dangerous at sack of Malignant krysipelar by large dose, of the same sys he curse the common Eroptions by it constantly. Bronchocele, Goitre or Swelled Neck. Zebulon Sioan of Prospect, Texas, writes: "Three bot-ties of your Sarsaparilla cured me frema Gerrai—a hid-eous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the respect of your agent in saying I have found your Sarsaparilia a most excellent afternative in the numerous complaints for which we employ such a remedy, but especially in \*female Diseases of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhosa by it, and some where the complaint was caused by ulceration of the ulcrus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements." ! Rdward S. Marrow, of. Newbury, Als., writes, "A dangerous ovarian sumor ga one of the females in my family, which had defied all the remedies we could employ, has all length been complainly cured by your extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting; and it proved effectual. After taking your remedy eight weeks in symptom of the disease remains." Uterine Ulceration, Female Diseases.

Syphilis and Mercurial Disease.

Syphilis and Mercurial Disease.

New Orleans, 25th August, 1950.

Dr. J. C. Ayes: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its facus truly wonderful in the cure of Feneral and Mercurial Diseases. Use of my patients had syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, ourself him in five week. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill film. But it yielded to they administration of your Sarsaparilla: the ulcers heated, and he is well again, not of course without some disdiguration to his Loc. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. How had become so sensitive to the weather that on a damp-layishe suffered excruciating cain to her joithus and tonies. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with it have net surprised me.

Fraternally yours,

G. V. Larimer, M. D.

Rheumatism, Gout, Liver Complaint.

cared entirely by your strapartita in a few weeks. I falling off the top of my head and threatening to make me baid.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my heaf, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sessibility to the scalp, and dandruft ceased to form on my head, very much to the gratification of my wite, at whose solicitation i was induced to try it.

For this, among the many obligations I owe to her sex, strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting baid.

For Dyen, O. J. Wood & Co., 444 Broadway, New York.

Myfanility are absent from the city, and I am no longer at No. Il Carrol place.

Slamaston, Ala, July 20th, 1859.

To Pene, O. J. Wood: Dear Sir: Your "Hair Restorative" has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC its effects on the hair, which are great. A man or wo man may be nearly deprived of hair, and by a resort to your "Hair Restorative," the hair will return more beautiful than ever; at leat this is my experience.—Believe it all!

IMPROVED GUTTA PERCHA CEMENT ROOFING, The Cheapest and most durable Roofing in use

IT IS FIRE AND WATER PROOF. It can be applied to new and our roots of all kinds, steep or flat, and to Sunner Roots without removing the Shingles.

The Cost is only about One Third that of Tin AND IT IS TWICE AS DUKABLE. This article has been thoroughly tested in New York Oty and all other parts of the United States, Canada, West Indies Central and South America, on buildings of all kinds, such as Factories, Fourthers, General, Raif Road Derors, Cars, and on Public Buildings, of Government Buildings of the principal Building of Covernment Buildings. So., by the principal Building Architects and others, during the past four years, and has proved to be the CHEAP HET and MOST DURABLE ROOFING in use; it is in every respect A FIRE, WALEN, WEATHER and TIME PROOF covering for ROOFS OF ALL KINDS.

This is the ONLY material manufactured in the United States which combines the very desirable properties of Elasticity and Durability, which are universally seknowledged to be possessed by GUTLA PERCHA AND INDIA RUBBER.

No Heat is required in making application. The expense of applying it is trifling, as an ordinary roof can be covered and finished the same day.

It can be applied by any one, and when finished forms a perfectly Firs Proof surface with an elastic body, which cannot be injured by Hear, COLD or Froms, Shrimeind of Roof Boards, nor any ex-ternal sotion whitever.

LIQUID GUTTA PERCHA CEMENT,

For Coating Metals of all Kinds when exposed to the Action of the Weather, and

FOR PRESERVING AND REPEARING METAL BOOFS OF ALL KINDS

This is the only Composition known which will successfully realest extreme changes of all olimates, for any length of time, when applied to metals, to which it adheres firmly, formaling a nody equal to coats of ordinary paint, costs much less and will LAST THREE TIMES AS LONG; and from its elasticity is: not injured by the contraction and expansion of Tin and other Metal Rooms, consequent upon swiden changes drithe weather.

Hwill not CRACK IN COLD OR RUN IN WARM WEATHER, AND WILL NUT WASH OFF. Leaty Tin and other Metal Roofs can be readily repaired with GUTTA PERUHA CEMENT, and prevented from further corrosion and leaking, thereby ensuring a perfectly tight roof for many years.

This Cement is peculiarly adapted for the preservation of IRON-RA-LINGS, STOVES, RANGES, BAFES, ACRECULTRAL LINELEMENTS, Sci., also, for general manufacturers use.

GUTTA PERCHA CEMENT For preserving and repaing Tin and other Metal Rock of every description, from its great elasticity; is no. injured by the contraction and expansion of Metals, and will not crack in cold or run in warm weather.

These malerials are adapted to all GIMATES, and we are prepared to supply orders from any part of the country, at short notice, for GUTTA PERCHA ROOFING in rolls, ready prepared for use, and GUTTA PERCHA OR MENT in barrels, with full printed directions for appli-

AGENTS WANTED We will make liberal and satisfactory arrangaments with responsible parties who would like to establish themselves in a lucrative and permanent business. OUR TERMS ARE GASH.

We can give abundant proof of all we claim in favor of our improved Roofing having applied them to several thousand Roofs in New York City and vicinity. JOHNS & CROSLEY, SOLE MANUFACTURERS,

[FROM CYMCIAL HOSTIAL REPORTS]

MAY 19, 1860.—Ellen S., so: 28, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bod for two weeks and subseqently from a relapse fer four more. She has been well since then till hast Satur day, while engaged in hours cleaning, she took cold, had pain in her back, felt cold, hot had no decided chill. Two days later her ankles began so swell, which was followed by swelling of the is knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is new fashionably called, rheumatic lever. It is a well-remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. Im an propydamics. Dr. alwenting, of St. Petersburg, recommended in the highest terms, having derived great cenefit from its use in 250 cases which came under his care. Various commendatory teetimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confess I am always moredulous as to the worth of new remedies, which are vaunted as specifics; but this comes to us recommended so highly, that we are bound to give it a trial. [FROM OFFICIAL HOSPITAL REPORTS ]

SAME CASE FOUR DAYS LATER!

MAY 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was than laboring under an attack, of soute rheumatum. She has steadily taken it in dose of three grains every two hour, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (the patient now walked into the room.) The larprovement has steadily progressed, and you cament tail to notice a marked change in the appearance of her joints, which are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result. SAME CASE FOUR DAYS LATER!

he result.

Here is another patient who was placed on the use of Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from a tronto rneumatism, and i found her at that time with an acute attack supervening upon her otheroits affection. The wrists and knuckles were much swollen and tooks. She took the chloride of Propylamine in three grain does every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

THREE DAYS LATER!!

May 28, 1880.—This is the case of acute rheumatism treate; with propylamine, the first of those to which it called your attention at our last clinic. She is still very comfortable, and is now 1 king three grains thrice daily. In this case it has seemed to be followed by very satistatory results. The second to set to winch your attention was called at our last lecture, has also continued to do well. I willings, bring before you a very character side case of acute rheumation, and if the result be satfactory, I think, as good jurymen, we scall justly render our verdict in fayor of propylamine.

He is a seaman, set 26, who was admitted a few days ago. Has has occassional rheumatic pains, but not so as be keep his bed, until olght days ago. The pains began in his right knee, subsequently affected the left knee, and lare, the joints of the upper extremities. These joints are all awollen, tense and tender. His tangue is forred its skin, at present day, though there has been much sweating. His putse is full and strong, and about 90.—He has now used propylamine for twenty-four hours. This genuteman is what may be called a strictly typical case of scale rheumatism. There was exposure 10 cold and wet, and this exposure 1s; spilowed by a feeling of coldness, severe articular pain, beginning, as it usually dee, in the lower joints. There is fever and the profuse is westing, so generally attendant of soute rheumatism. I did not bring this patient between with the intended with rheumatism, but to again give a tria to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there or all other medicines, eyen and tynes, this, there may be no misstying his to which was the efficient remedy. You shall see the case of a future officie.

THE RESULT.

A FAVORABLE VERDICT.

June 9, 1860.—The next of our convalescents is (the John M. 1800.—The next of our convalenceme is the case of acute rheumatism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for besting the worth of our new remedy. It was therefore aleadily given in three grain dozes every two hours for four days. gives in three grain doses every two hours for four days. The patient has got along very mostly, and is now able to walk about, as you see. I do not hesitate to say that I have neves seen as severe a case of acute rhoumatism so soon residing to healthing his man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that he he cased in which we have used. Propylamine, the patients have regained their health much earlier than under the treatment ordinarily pur-sued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condense extract, see the Philadelphia Medical and Surgical Re porter. . It is the report after a fair trial by the best med cal authority in this country, and makes it unnecessary to sive numerous certificates from astonished doctor and rejoicing patients.

IN EVERY CASE.

WHENEVER TRIED WHENEVER TRIED

IT WILL DO AGAIN Bullock & Crenshaw, a firm well known to most medi cal men, by whom the Etixir Propylamine has been in troduced, have sold to us the exclusive right to manufac ture it according to the original recipe, and we have made arrangements of such magnitude as to enable u to scatter it broadcast amongst suffering humanity.
