ACCIDENTAL SHOOTING .-- John Ellinger, an adopted son of Colonel William Ellinger, proprietor of a hotel in Baltimore, was accidentally shot by a soldier, on Friday night last. Young Ellinger and the soldier were engaged in conversation, when the pistol of the latter was accidentally discharged-the bullet entering Ellinger's breast. The unfortunate youth was still alive at last accounts, bat was in great agony. The Ellingers formerly resided in Middletown, this county.

We, the undersigned, soldiers of the "Roberts diers, that we will not touch, taste or handle intoxicating liquors of any kind while we are in the service.

> APPLICATION FOR A CHARTER. -- The "Salem's Church of the Evangelical Association of Har risburg" have made application to the court of common pleas of this county for a charter, which will be granted at the next regular term of said court unless cause be shown to the con trary. The congregation has recently purchased a lot of ground in North street, near the reservoir, upon which they contemplate erecting a neat and substantial edifice for church purposes. They at present worship in the first story of the Sons of Temperance Hall in Second street, and are said to be in a very flourishing condition.

SCHOOLS SHOULD BE ATTRACTIVE. --- It is the duty of teachers, as well as of parents and school committees, to see that the circumstances under which their children study, are such as shall leave a happy impression upon their minds; for whatever is brought under observation of the young must have power over their susceptible natures for good or for evil. Shabby school rooms induce slovenly habits. Ill conthe structed benches may not only distort the body, the Northern Central railway, guarding but, reflex influence, the mind as well. Wintry blasts, sweeping in through open floors or sypes, were on Wednesday broken windows, not only injure the health, instruct poisoned by drinking some whisky but chill the warm glow of youthful enthusiasm Conditions like these seldom fail to dislight quarks at Lutherville. > POLICE.-There was a "full house" in the city manner. Lock-up, and the tenants, in the absence of his Honor the Mayor, were heard before Justice Beader. The "vags" and drunken soldiers were discharged, the former enjoined to leave the city, and the latter to mend their wavs.

Among the arrests were two females-Mary whom were arrested at the lager-beer saloon this seminary, is deemed by those who know near the reservoir at half-past 8 o'clock yesterday by officer Campbell. They were disoharged.

Ont or Town.-Gov. Curtin and his aids left muscle. A high-heel piece, moreover, renders the position of the foot upon the ground oblique of the shoe. The high heel of a boot, therefore, tends to aggravate the evils which are

caused by the insufficient and ill adjusted space which is allowed to the toes. A good foot is not only charasteric of man

and his intellectual faculties, but in each individual the foot receives an impress from the mind. To walk well, we must will well. There is little difficulty in recognizing three chief classes among pedestrians. First, there are those who pay too much attention to the movements, who walk with a pompous strut, or

mincing gait, or affect some style or other. We A GOOD EXAMPLE.-The members of the are naturally very little inclined in favor of an effort not to be decidedly prejudicial against them. Secondly, there are those who pay too little attention to their movements, who do not seem to be sufficiently alive to the responsibility attaching to the possessors of so noble a structure as the human frame, and who do not give themselves the trouble to exert the powers of the glorious mechanism with which they are

> charged. They slouch, or dawdle along in a listless lazy manner. Instinct tells us, and tells us rightly, to beware how we trust such persons with the conduct of our affairs, or with any office of responsibility. We feel that the lack of energy manifested in the guidance of their limbs is too probably, a feature of character, which unfits them for the active duties of life; and we know that such men are not usually successful in their calling. Thirdly, there are those who show, by the firmness and precission of their step, and in the regularity of the succession of the movements by which it is made,

that they are conscious of the dignity of their species, of the responsibility attendant on that dignity, and of the respect due to themselves. Such men, we feel, are likely to pursue their avocations energetically and methodically, as well as with punctuality.

Many points of character peep in the way men walk. Our poet tells us that in one way we may read -

----rascal in the motions of his back, And scoundrel in his supple sliding knee.

Another has a halting, shuffling, undecided gait ; while a third walks in a bold, determined, straight forward, erect, and independent manner. One has a cautious, parsimonious step, as if sparing of shoe-leather, or afraid to trust the ground ; he has, however, probably trusted the funds with considerable investments. Some walk with long, pretentions, measured strides; other make short, quick, insignificant steps. Some, again, are hurried fussy, noisy ; while others glide along in a quiet, shrinking, unpretending, it may be timid,

GEDAR HILL SEMINARY .- Mr. Editor : In looking over your alvertising columns we noticed a card from the old and long established seminary at Cedar. Hill, near Mount Joy, and thought you might not object to insert a few well writ-ten remarks in regard to that institution from one of its former patrons. The Rev. N. Dodge, who founded and still continues at the head of this seminary, is deemed by those who know im best, to be one of the most successful edu-cators in our country.
