RESTORATIVE CORDIAL

BLOOD RENOVATOR.

Is precisely what its name indicates, for while pleasant to the taste, it is revivitying, exhibarating and strengthening to the vital powers. It also reviviles, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease it is the only preparation ever offered to the world in a popular form so us to be within the reach of all.

So chemically and skillfully combined, as to the most powerful lonic, and yet so perfectly adapted so as to act in preparation and yet so perfectly adapted so as to act in preparation and yet is never followed by lassitide or depression of spirits. It is also perfectly exhibitant in its effects, and yet it is never followed by lassitide or depression of spirits. It is compined to the control of the properties, and consequently can never injure. it is conveniently arranged Band, containing a medicated compound, to be worn around the Waist, without indury to the most delicate persons, no change in habits of living is required, and it entirely removes the disease from the system, without producing the injurious effects arising from the use of powerful internal medicines which weaken and destroy the constitution, and give temporary relief only. By this treatment, the medical properties contained in the Band, come in contact with the blood and reaches the disease, through the pores of the skin, effecting in every instance a perfect cure, and restore the parts afflicted to a healthy condition. This Band is also a most powerful Anti-Margural agent, and will entirely relieve the system from the permicious effects of Mercury. Moderate cases are cured in a lew days, and we are constantly receiving testimonials of its afficacy in aggravated cases of long standing.

AYER'S SARSAPARILLA

FOR PURIFYING THE BLOOD. ND for the speedy cure of the sub-

Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co., Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it narious ways for years. Sometimes it burst out in Ulces son my hands and arms; sometimes turned invariant diltrassed may the stometh. Two years and in various ways for years. Sometimes it burst out in Ulee's on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla,) for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skn soen began to form under the scab, which after a while fell off my skin is now clear, and I knew by my feelings that the disease has gone from my system. You con well believe that I feel what I am saying when I tell you, that I hold you to be one of the al-oaties of the age, and remain ever gratefully. Yours, AlFRED B, TALLEY.

Uterine Ulceration, Female Diseases.
Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the respect of your agent in saying I have found your Sarsaparilla a most excellent alternative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrofulous disthesis. I have oured many inveterate cases of Lencornhosa by it, and some where the complaint was caused by ulceration of the ulcrass. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tempor on one of the females in my family, which had delied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparila. Our physician thought nothing but extipation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before outing, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEAMS, 25th August, 1959.

Dr. J. C. Aybr: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Diseases. One of my patients had syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five week. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffered exercitating pain in her bones. They had become so sensitive to the weather that on a damp day she suffered exercitating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with it have not surprised me.

Fraternally yours,

PENNSYLVANIA HOSPITAL. [FROM OFFICIAL HOSPITAL REPORTS.]

[FROM OFFICIAL HOSPITAL REPORTS.]

MAY 19, 1860.—Eller S., st. 28, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was cenfined to her bed for two weeks and subseqent, y from a relapse fer four more. She has been well since then till last Satur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had so decided chill. Two days later her ankles began ao swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and palnfui; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic tever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptomas which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. Im not propylamine. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derives great cenefit from its use in 250 cases which came under his care. Various commendatory lestimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confess I am always moredulous as to the worth of new remedies, which are vanued as specifies; but this comes to us recommended so highly, that we are bound to give it a trial. are bound to give it a trial.

SAME CASE FOUR DAYS LATER!

May 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was teen laboring under an attack of acute rheumatism. She has steadily taken it in doses of three granes every two hours (intermitting it at night.) The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her of their stace. (The patient now walken into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little will be fore we can give a decided opinion as to what is to be the result. SAME CASE FOUR DAYS LATER!

the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has loog been suffering from a hronic rheumatism, and I found her at that time with an acute attack supervening upon her chronic affection. The wrists and knuckles were much swollen and tense. She took the chioride of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

May 26, 1860.—This is the case of acute rheumatism treate1 with propylamine, the first of those to wolch I called your attention at our last clinio. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very, satisfactory results. The second c.se to winch your attention was called at our last lecture, has also continued to do well. I will now bring before you a very characteristic case of acute rheumatism, and if the result be satfactory, I think, as good jurymen, we shall justly render our verdict in favor of propylamine.

He is a seaman, set. 26, who was a dimitted a few days ago. Has had ocassional rheumatic pains, but not so as to keep his bed, until eight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all swollon, tense and tender. His tongue is forred; his skin, at present dry, though there has been much sweating. His puise is full and strong, and about 90.—He has now used propylamine for twenty-four hours.

This gentleman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually doca, in the lower joints. THE RESULT.

A FAVORABLE VERDICT.

June 9, 1860.—The next of our convalescents is the case of acuterheumatism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain coses every two hours for four days. The patient has got along very neely, and is now able to walk about, as you see. I do not hesitate to say that I have neves seen as severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride of Propylamine, the patients have regained their health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condense extract, see the Philadelphia Medical and Surgical Reporter. It is the report after a fair trial by the best medical authority in this country, and makes it unnecessary to give numerous certificates from astonished doctors and rejoicing patients.
