## Great Cure.

DR. LELLAND'S ANTI RHEUMATIC BAND

" IS THE ONLY KNOWN REMEDY FOR Rheumatism, Gout and Neuralgia

AND A SURE CURE FOR

All Mercurial Diseases.

It is a conveniently arranged Band, containing a metal cated compound, to be worn around the Waist, without narry; to the most delicate persons, no change in habits of living is required, and it entirely removes the discase from the system, without producing the injurious effects arising from the use of powerful internal modicines which weaken and destroy the constitution, and give temporary relief only. By this treatment, the medical properties contained in the Band, come in contact with the blood and reaches the discase, through the pores of the skin, effecting in seery instance a perfect cure, and restore the parts afflicted to a healthy condition. This Band is also a most powerful arm-instance, are discussed factory in the previous effects of Marcury. Moderate cases are cured in a few days, and we are constantly receiving testimonials of its affects of Marcury. Moderate cases are oured in a few days, and we are constantly receiving testimonials of its affects of Marcury. AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD.

A ND for the speedy oure of the sub-joined varieties of Disease: Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OALLAND, Ind., 6th June, 1859.

J. C. ATER & Co., Gents: I feel it my duty to acknowledge what your 'Saraaparilla has done for me. Having inherited a Scrotulous infection, I have suffered from it warions ways for years. Sometimes it burst but in Ulcers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and leathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Saraaparilla,) for I knew from your reputation that any thing you made must be good. I sent to Choinnati and got it, and used it till it cured me. I took it, as you advise, in small dees of a teaspoonful over a month, and used almost three bottles. New and healthy skn seen began to form under the scale, which after a while fell off my skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Xours, ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Exysipelas, OARLAND, Ind., 6th June, 1859.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sep., 1859, that he has cured an investrate case of Dropay, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous attack of Mailgnant krysipelas by large doses of the same says he cures the common Kruptons by it constantly. Bronchocele, Goitre or Swelled Neck. Zebulon Sloau of Prospect, Texas, writes: "Three bot-ties of your Sarsaparilla cured me from a Gerrar—a hid-cous swelling on the neck, which I had suffered from over two years."

Leucorrhosa or Whites, Ovarian Tumor, Uterine Ulceration. Female Diseases. Uterine Ulceration, Kemale Diseases.
Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the respect of your agent in saying I have found your sarsapartile a most excellent alternative in the numerous complaints for which we employ such a remedy, but especially in Famale Diseases of the Scrofulous disthesis. I have cured many invoterate cases of Leucorrhosa by it, and some where the complaint was caused by ulceration of the ulcrus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous coordan tensor on one of the females in my tamily, which had defied all the remedies we could employ, has gerous occurs assets on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparida. Our physisian thought nothing but extirpation could afford relief, but he advised the trial of your Exraparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains." gerous overien ternor on one of which had defied all the remed

Syphilis and Mercurial Disease.

NEW ORLEARS, 25th August, 1959.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have callzed with your Sarsaparilla.

I have cared with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Diseases. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five week. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mescanry was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered exeruciating pain in her joints and tones. She, too, was oured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with it have net surprised me.

Rheumatism, Gout, Liver Complaint. New ORLEANS, 25th August, 1959.

Rheumatism, Gout, Liver Complaint. INDEPENDENCE, Precton Co., Va., 6th July; 1859. INDEXEMBERS, Freedom Co., va., our sury according to the self-ful chroule Rheumatism for a long time, which belifed the skill of physicians, and stock to me in spite of all the remedies I could fin , until I tried your Sarsaparilla.— One bottle oured me in two weeks, and restored my gen-eral health so much that I am far better than before I was attacked. I think it a wonderful medicine.

J. FRHAM.

Jules Y. Getchell, of St. Leuis. writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing falled to relieve me; and I have been a broken down man for some years, from no ther cause than derimment of the Liver." My believed pator, the Rev. Mr. Espy, advised me to try your Sarsaparrilla, because Mr. Espy, advised me to try your Sarsaparrilla, because I he said he knew you, and anything you made was worth trying. By the blessing of God it has oured me. I feel young again. The best that can be said of you is not half good enough."

irrus Concer Tumors Enl Ulceration, Caries and Exfoliation of

Many remarkable cures of these affections have been made by the alternative power of this medicitie. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral FOR THE RAPID CURE OF Coughs, Colds, Influence, Hoarseness, Group, Bronchitis, Incipient Con-sumption, and for the Relief of Consumptive Patients

in advanced Stages of the Disease

This is a remedy so universally known to surpass any other for the ours of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilised nations of the earth.—Few are the communities, or even families, among them who have not some personal experience of its effects,—some living trophy in their midst of its victory over the subtle and dangarous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

PENNSYLVANIA HOSPITAL

[From Ownical Hoarmal Reports.]

May 19, 1860.—Riles S., st. 28, single, never was very strong. Two years ago she had an attack of acoute rheumatism, from which she was counned to her hed for two weeks and subsequenty from a relapse fer four more. She has been well since then till last Satur day, while engaged in house cleaning, she took cold, had pain in her back, fels cold, hot had so decided chill. Two days later her arities began so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. Im an propyleasing. Dr. Awemarius, of St. Petersburg, recommends it in the highest terms, having derived great ceneft from its use in 250 cases which came under his care. Various commendatory bestimonials respecting it have appeared in our journals, and I propose theyefore to give it another trial. I must confess I am always norequious as to the worth of new remedies, which are vaunted as specifies; but this comes to us recommended so highly, that we are bound to give it a trial. [FROM OFFICIAL HOSPITAL REPORTS.]

SAME CASE FOUR DAYS LATER! SAME CASE FOUR DAYS LATER!

May 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was a then laboring under an attack of acute rheumatism. She has steedlily taken it in does of three grains every two hours (intermitting it at night.) The day after you saw her, I toud her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steedily progressed, and, you cannot fall to notice a marked thangs in the appearance of her joints, which are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what in to be the results.

fore we can give a decided opinion as to what is to be the result.

Here is another patient who was placed on the use of the same medicine on Sandsy last; the has long been suffering from o bronic rheumalism, and I found her at that time with an acute attack supervaning upon her chronic affection. The wrists and knuckles were much swollen and tense. She took the chiefde of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

THREE DAYS LATER!!

May 26, 1860.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and it now taking three grains thrice daily. In this case it has seemed to be followed by very, satisfactory results. The second case to which your attention was called at our last lecture, has also contanued to do well. I will now bring before you a very chiracteristic case of soute rheumatism, and if the result be satisfactory, I think, as good jurymen, we shall justly render our verdict in favor of propylamin.

He is a seaman, st. 26, who was admitted a few days ago. Has had coassional rheumatic pains, but not so as to keep his bed, until eight days ago. The pains began in his right knee, subsequently silected the left knee, and later, the joints of the upper extremities. These joints are all awollen, tense and tender. His tongue is furred; his kin, at present dry, though there has been much sweating. His pulse is full and strong, and about 90.—

He has now used propylamine for twenty-four hours. This gentleman is what may be called a strictly typical case of acute fluatmatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There was exposure to cold and wet, and this exposure to eating, and to exhibit to you this typical case, as I have called it, than which there do uld not being thing our testing, and to exhibit to, you this typical case, as I have called it, than which there do uld not be a fairer opportunity for testing the sues of all other medicians, even anolyace, that there may be no misgivings as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

A FAVORABLE VERDIOT.

June 9, 1860.—The next of our convalescents in 'the case of souterheumaism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hostsate to say that I have neves seen as severe a base of acute rhedmatism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride of Propylamine; the patients have regalated their besith much carlier than under the treatment ordinarily pursued. I was gentleman, you would yourselves try it, and report the results.

For a full report of which the above is a condens extract, see the Philadelphia Medical and Surgical Reporter. It is the report after a fair trial by the best med-
