AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD.

A ND for the speedy cure of the sub-joined varieties of Disease:

Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. Ayer & Co., Gents: I feel it my duty to acknowlodge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the disspel Messenger that you had prepared an alternative (Sarsaparilla,) for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as yon advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skn soon began to form under the scab, which after a while fell off my skin is now clear, and I knew by my feelings that the disease has gone from my system. You c.n well believe that I feel what I am saying when I tell you, that I hold you to be one of the a ostles of the ago, and remain ever gratefully. Yours,

Alfright B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, QARLAND, Ind., 6th June, 1859.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head Ringworm, Sore Eyes, Dropsy.

Dr. Rouert M. Preble writes from Salem, N. Y., 12th Sep., 1859, that he has cured an inveterate case of Dropsy, which threatened to terminate fatalty, by the persevering use of our Sursaparilla, and also a dangerous attack of Malignant Erysipelas by large doses of the same says he cures the common Eruptions by it constantly.

Bronchocele, Goitre or Swelled Neck. Zebuion Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goirks—a hideous swelling on the neck, which I had suffered from your two years." Leucorrhœa or Whites, Ovarian Tumor,

Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the respect of your agent is saying I have found your sarsaparilla a most excellent alternative in the numerous complaints for which we employ such a remedy, but especially in temale Diseases of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhoad by it, and some where the complaint was caused by alceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous contrain tempron on one of the females in my lamily, which had defied all the remedies we could employ, has at length bean completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains." Uterine Ulceration, Female Diseases.

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1959. New Orleans, 25th August, 1959.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is pecommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Diseases. One of my patients had Syphilitic vicers in his throat, which were consuming his plate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five week. Another was attacked by secondary symptoms in his nose, and the viceration had eaten away a considerable part of it, so that 1 believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the visided to my administration of your Sarsaparilla: the cleers healed, and he is well again, not of course without some disfiguration to his face. A woman who had ocen restated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered account to the poison when the poison were sensitive to the weather that on a damp day she suffered account to the course of the cours sensitive to the weather that on a damp day she studered excruciating pain in her joints and bones. She, too, was oured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you agont gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with it have not surprised me.

Fraternally yours,
G. V. LARIMER, M. D. Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Precton Co., Va., 6th July, 1659.

Dr. J. C. Athe: Sir, I have been affliced with a painful chronic Rheumatism for a long time, which builted the skill of physicians, and stack to mo in spite of all the remedies I could fin , until I tried your Sarsaparilla.—One bottle cured me in two weeks, and restored my general health so much that I am far netter than between twas attacked. I think it a wonderful medicine,

J. FREAM.

Jules Y. Getchell, of St. Leuis. Writes: "I have been afflicted for years with an affection of the liver, which destroyed my health. I tried every thing, and every thing islied to relieve me; and I have been a broken down man for some years from no ther cause than derangment of the Liver. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparrilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me. I feel young again. The best that can be said of you is not half good enough."

Schirrus. Cancer Tumors, Enlargement Ulceration, Caries and Exfoliation of

A great variety of cases have been reported to us where cures of these formidable complaints have result-form the use of this remedy, but one space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratts to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia,

Many remarkable cures of these affections have been made by the alternative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the carth.—Few are the communities, or even families, among them who have not some personal experience of its effects.—some living trophy in their minds of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

do well. I will now bring before you a very churacterlatic case of acute rheumatism, and if the result he gat
factory, I think, as good jurymen, we snall justly renderour verdict in favor ef propylamine

He is a seaman, æt. 26, who was admitted a few days
ago. Has had ocassional rheumatic pains, but not so as
to keep his bed, until eight days ago. The paine began
in his right knee, subsequently affected the left knee, and
later, the joints of the upper extremities. These joints
are all swollen, tense and tender. His tongue is furred,
his skin, at present dry, though there has been much
sweating. His pulse is full and strong, and about 90.—
He has now used propylamine for twenty-four hours.
This gentleman is what may be called a strictly typical
case of acute rheumatism. There was exposure to cold
and wet, and this exposure is followed by a feeling of
coldness, severe articular pain, beginning, as it usually
dees, in the lower joints. There is fever and the profuse
sweating, so generally attendant on acute rheumatism.
I did not bring this patient before you with the intention of giving you a lecture on all the points connected
with rheumatism, but to again give a trial to the
now remedy we are lesting, and to exhibit to you this
typical case, as I have called it, than which there could
not be a fairer opportunity for testing the medicine in
question. We are, therefore, avoiding the use of, all
other medicines, even anotynes, that there may be no
misgivings as to which was the efficient remedy. You
shall see the case of a future clinic. By the use of these Pills the periodic attacks of Ner

pain and sfekness may be obtained. They seldom fail in removing Names and Headache to which females are so subject.

The CKPHALIC PILLS are the result of long investi gation and carefully conducted experiments, having been in use in many years, during which time they have pre rented and relieved a vast amount of pain and suffering from Headache, whether originating in the mercous sys tem or from a deranged state of the stomach.

[FROW OFFICIAL HOSPITAL REPORTS.]

MAY 19, 1860,—Ellea S., zt. 28, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks and subsequenty from a relapse for four more. She has been well since then till last Satur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had so decided chill. Two days later her ankles began so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My ohief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. I man propylamine. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must couless I am always incredulous as to the worth of new remedies, which are vaunted as specifies; but this comes to us recommended so highly, that we are bound to give it a trial.

SAME CASE FOUR DAYS LATER!

MAY 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was then laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains every two hours (intermitting it at night.) The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now usarly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result. at the Druggists and Dealers in Medicines.

It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have never a severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride of Propylamine, the patients have regained their health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.
