me bald. In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruft ceased to from on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

PENNSYLVANIA HOSPITAL. [FROM OFFICIAL HOSPITAL REPORTS.]

[FROM]OFFIGIAL HOSPITAL REPORTS.]

MAY 10, 1860.—Riles S., set. 28, single, never was very strong. Two years ago she had an attack of acute rhoumatism, from which she was confined to her bod for two weeks and subsequently from a relapse for four more. She has been well since then till has Satur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had no decided chill. Two days later her ankles began so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and palnful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashlonably called, rheumatic fever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. Im an propylamine. Dr. Awenarius, of St. Petersburg, recommends to in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confess I am always moredulous as to the worth of new remedies, which are vaunted as specifies; but this comes to us recommended so highly, that we are bound to give it a trial.

SAME CASE FOUR DAYS LATER!

SAME CASE FOUR DAYS LATER!

MAY 23, 1880.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was then laboring under an attack of acute rheumatism. She has steadily taken it in dose of three grans every two hours (intermitting it at night.) The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fall to notice a marked change in the appearance of her Joints, which are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from a bronic rheumatism, and I found her at that time with an acute attack supervening upon her chronic affection. The wrists and knuckles were much swollen and tonse. She took the chloride of Propyismine in three grain doses every two hours, and you will perceive that the swolling of the joints has much diminished.

THREE DAYS LATER!!

THREE DAYS LATER!!

May 26, 1860.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very, satisfactory results. The second c-se to which your attention was called at our last lecture, has also continued to do well. I will now bring before you a very characteristic case of acute rheumatism, and if the result be satisatiory, I think, as good jurymen, we shall justly render our verdict in favor of propylamino.

He is a seaman, set 26, who was admitted a few days ago. Has had coassional rheumatic pains, but not so as to keep his bed, until olght days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremitles. These joints are all swollen, tense and tender. His tongue is furred; his akin, at present dry, though there has been much sweating. His puise is full and strong, and about 90.—He, has now used propylamine for twenty-four hours.

This gentleman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating, so generally attendant on acute rheumatism. I did not bring this patient before you with the I ntention of giving you a lecture on all the points connected with rheumatism, but to again give a trial to the new remedy we are testing, and to orabibit to you this typical case, as I have called it, than which there co uld not be a fairer opportunity for testing the medicine in question. We are, therefore, avoiding the use of all other mediciates, even anolynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

June 9, 1860.—The next of our convalescents is 5the case or souterheumatism before you at our clinic of May 20th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not besttate to say that I have neves seen as severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride o Propylamice, the patients have regained their health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condensed extract, see the Philadelphia Medical and Surgical -Reporter. It is the report after a fair trial by the best med ical authority in this country, and makes it unnecessary to give numerous certificates from astonished doctor and rejoicing patients.

AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD.

ND for the speedy cure of the sub-Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases. OAKLAND, Ind., 6th June, 1859.

OAKLAND, Ind., 6th June, 1859.

J. C. ATER & Co., Gents: I feel it my duty to acknowledge what your Earsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it m various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grow worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla,) for I knew from your reputation that any thing you made must be good. I sent to Chenman and got it, and used it till it cured me. I took it, as you savise, in small doses of a teappoofed over a month, and used almost three bottles. New and healthy eku soen began to form under the scab, which after a white fell off my skin is now clear, and I know by my feelings that the disease has gone from my system. You c.n well believe that I feel what I am saying when I tell you, that I hold you to be one of the apoedes of the age, and remain ever gratefully. Yours,

NEW CREAMS, 25th August, 1959.

Dr. J. C. Ayen: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects, I have coalized with your exaraparilis.

I have curred with it, in my practice, most of the complement for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercarial Diseases. One of my patients had dyphilitic ulcors in his throat, which were consuming his palate and the top of his mouth. Your Saraparilla, stoadily taken, cured him in tire week. Another was attacked by secondary symptoms in his norse, and the ulcoration had eaten away a considerable part of it, so that I believe the disorder would soon cean his brain and kill him. But it yielded to my administration of your Saraparius: the ulcors healed, and he is well again, not of course without some designation to his face. A woman who had been treated for the same disorder by mercury was suffering from this polson in her boucs. A woman who had been treated for the same disorder by mercury was suffering from this polson in her boucs. A woman who had been treated for the same disorder by mercury was suffering from this polson in her boucs. I have had years he suffered exercicating pain in her joines and boucs. She, too, was cured entirely by your Saraparita ta a few weeks. I knew from its formula, which you agent gave me, that this treparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with the polyments.

Rheumatism, Gout, Liver Complaint. IMPREMPENDENCE, Precton Co., Va., 6th July, 1859. DR. J. C. ATB*: Sir, I have been affliced with a painful curous Rheumausm for a long time, which bedfled
the sail of physicians, and stock to me in spite of all the
remedics I could fin , until I tried your Sarsaparilla.—
Use bottle curied mo in two weeks, and restored my general health so much that I am far better than before I
was attacked. I think it a wonderful medicine.

Jules Y. Getcheil, of St. Louis. writes: "I have been afflicted for years with an affection of the liver, which destroyed my health. I tried every thing, and every thing latted to relieve me; and I have been a broken down man for suice-years from no ther cause than devangment of the Liver. My beloved pastor, the Rev. Mr. kepy, advised me to try your Sarsaparrilla, because he said he knew you, and anything you made was worth trying. Hy the blessing of God it use said of you is not half good enough."

LIC BOILES.

A great Variety of cases have been reported to us where cures of these formidable complaints have result-form the use of this remedy, but one space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them. Dyspepsia, Heart Disease, Fits, Epilep-

sy, Melancholy, Neuralgia, Many remarkable cures of these affections have been made by the alternative power of this medicine. It stimulates the vital functions and vigorouse disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral

FOR THE RAPID CURE, OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages

of the Disease Of the Disease

This is a remedy so universally known to surpage any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth.—Few are the communities, of even families, among them with have not some personal experience of its effects.—some living trophy in their minds of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadtul fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
