DARLING'S LEVERREGULATOR,

LIFE BITTERS,

RE pure vegetable extracts. They care all billous disenders of the human system—
They regulate and invitorate the liver and kindeys,
they give tone to the digestive organs; they regulate the
secretions, excretions and exhalations, equalize the circulation, and parify the blood. Thus all billous complaints—
some of which are Torpid Liver, Sick Headache, Dysphysic Piles; Utills and Favers, Contiveness or Looseness—are entirely controled and cured by these remedies.

DARLING'S

LIVER REGULATOR Removes the morbid and billious deposits frem the stom-ach and bowels, regimtes the liver and kidneys, remov-ing every obstruction, restores a natural and healthy ac-tion in the vital organs. It is a superior

FAMILY MEDICINE, Much better than pills, and much easier to take.

DARLING'S LIRE BITTERS Is a superior toolo and diuretic; excellent in cases of loss of appetite, flatdiency, famale weakness, irregularities, pain, in the side and howels, blind, protrinting and bleeding piles, and general debility.

READ THE FOLLOWING TESTIMONY;

Jas. L. Brumley, merchant, 184 Falton street, New York, writes, August 18, 1860: "I have been afflicted with piles, accompanied with bleeding, the last three years; I used DARLING'S

LIVER INVIGORATOR

. Charles 4 to LIFE BITTERS,

And now consider myself ENTIRELY CURED. Hen. John A. Cross writes, "Brooklyn, March 16, 1860. In the apring of 1869 I took a severe cold, which induced a violant fover. I took two doses of

DARLING'S LIVER REGULATOR. It broke up my cold and fever at once. Previous to this attack, I had been troubled with dyspepsia several months; I have seit nothing of it since."

. WaterSaudiy, Esq., 128 East 28th Street, N. Y., writes:
"Apyagt 12, 1880—had a difficulty with Kidney Complaint three years with constant pain in the small of my
back. I had used most all kinds of medicines, but fo und
so permanent relief until I used

DARLING'S LIVER INVIGORATOR,

LIFE BITTERS. I passed clotted blood by the urethra. I am now en tirely cured, and take pleasure in recommending these remedies."

Hrs. C. Tebow, 11 Christopher Street, N. Y., writes:
"Feb '20, 1860.—I have been subject to attacks of Asth-mathe last twenty years. I have never found anything

Darling's Liver Regulator, n affording immediate relief. It is a thorough Liver and billious remedy."

Mrs. Young, of Brooklyn, writes, "February 28, 1860.

May last I nad a severe attack of Piles, which confining to the house. I took one bottle of DARLING'S LIFE BITTERS and was entirely cured. I have had no attack since."

: D. Westervelt, Esq., of South 5th, near 9th Street, Wil-kansburg, L. L. writes: "August 5, 1860.—Having beer troubled with a dilliquity in the Liver, and subject to bil-lous attacks, I was advised by a friend to try DARLING'S LIVER REGULATOR,

I did so, and found it to operate admirably, removing the bile and arousing the liver to activity. I have also used

FAMILY MEDICINE. When our children are out of sorts, we give them a few drops and it sets them all right. I find it meets the general wants of the stomach and bowels when disorder-ed."

[FROM OFFICIAL HOSPITAL REPORTS.]

MAY 19, 1860,—Ellen S., set. 28, single, naver was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks and subsequently from a relapse for four more. She has been well since then till last faster day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had no decided chill. Two days later her ankles began so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. In man group/sassise. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great bonefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confess I am always incredulous as to the worth of new remodeles, which are vaunted as specifies; but this comes to us recommended so highly, that we are bound to give it a trial.

SAME CASE FOUR DAYS LATER !

[FROM OFFICIAL HOSPITAL REPORTS.]

SAME CASE FOUR DAYS LATER!

SAME CASE FOUR DAYS LATER!

Max 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was then, laboring under an attack, of acute rheumatism. She has steadily taken it in doses of three grains every two hours (intermitting it at night.) The day after you saw her, I hound her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from a bronic rheumatism, and I found her at that time with an acute attack supervening upon berthronic affection. The wrists and knuckles were much swollen and tense. She took the chloride of Propylamine in three grain doses every two hours, and you will be preceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

MAY 26, 1860.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last cilinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very, satisfactory results. The second case to which your attention was called at our last lecture, has also continued to do well. I will now bring before you a very characteristic case of acute rheumatism, and if the result be satisfactory, I think, as good jurymen, we shall justly render our verdict in favor of propylamine.

He is a seeman, sat. 26, who was admitted a few days ago. Has had ocasional rheumatic pams, but not so as to keep his bed, until eight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all swollen, tense and tender. His tongue is furred; this skin, at present dry, though there has been much sweating. His pulse is full and strong, and about 90.—He has now used propylamine for twenty-four hours. This gentleman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating, so generally attlendant on acute rheumatism. I did not bring this patient before you with the intention of giving you a lecture on all the points connected with rheumatism, but to again give a trial to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there so tild not be a fairer opportunity for testing the medicine in question. We are, therefore, avoiding the use of all other medicines, even anotypes, that there may be no misgivings as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

June 9, 1860.—The next of our convalencents is (the case of acute rheumatism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have neves seen as severe a case of acute rheumatism as soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride o Propylamine, the patients have regained their health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condensed extract, see the Philadelphia Medical and Surgical Reporter. It is the report after a fair trial by the best med cal authority in this country, and makes it unnecessary to give numerous certificates from autonished doctors and rejoicing patients.

Blains, and all Skin Diseases.

Oaklam, Ind., 6th June, 1869.

J. C. Alks & Co., Gents: I teel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scroftolous infection. I have suffered from it in various ways for years. Sometimes it burst out in Uleers on my hands and arms; sometimes turned in ward and distressed me at the stomach. Two years ago it broke out on my head and covered my scale and ears with one sore, which was painful and losthsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the tiospel Measenger that you had prepared an alternative (Sarsaparilla,) for I knew from your reputation that any thing you made must be good. I sent to Concinnain and got it, and used it till it cured me. I took it, as you havise, in small doses of a leaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scale, which after a while fell off my skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and romain ever gratefully. Yours.

I have cared many investrate cases of Leucorricos by it, and some where the complaint was caused by siceration of the sterie. The ulceration itself was soon cured. Edward S. Marrow, of Newburr, Ala, writes, "A dangerous occarion tensor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your extract of Sarsaparilla. Our physician thought nothing but extipation could afford relief, but he attribed the trial of your carsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

NEW ORIGINAS, 25th August, 1959.

Dr. J. C. AYEE: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have coaled with your Sarsaparilla.

I have curied with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the curs of Veneral and Agracial Discass. One of my patients had sypmilition ulcers in his threat, which were consuming his palatic and the top of his mouth. Your Sarsaparilla, staadily taken, cured him in dre week. Another was amacked by secondary symptoms in his nose, and the discration had esten away a considerable part of it, so that I believe the disorder would soon resuch his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers heated, and he is well again, not of course without some disfiguration to his face. A woman woo had been treated for the same disorder by mercury was suffering from this poisso in her bouce. Iney had become so essuitive to the weather that on a damy day she suffered excrucianting pain in her joints and course. She, too, was coursed entirely by your Sarsaparilla is a few weeks. I know from its formula, which you agent gave me, that this freparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with the bare not surprised me.

Jules Y. Getchell, of St. Levis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every hing, and every thing lailed to relieve me; and I have been a Broken down man for some years from no ther cause than derangement of the Liver: hy beloved pastor; the Roy. Mr. Kepy, advised me to try your Sarsaparritis, because he said he knew you, and anyuning you made was worth trying. By the biesning of God it has cured me. I feel young again. The best that can be said of you is not half good enough."

LICE HOUSE. ...
A great variety of cases have been reported to us,
where cures of these formidable complaints have resultform the use of this requely, but one space here will not
admit them. Som: of them may be found in our Amer
can Almanac, which the agents below named are pleased
to furnian gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia. Many remarkable cures of these affections have been made by the alternative power of this medicine. It sumulates the vital functions into vigorous aution, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness. Group, Bronchitts, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease

This is a remedy so universally known to surpass any other for the ours of threat and lung complaints, that it is useless here to publish the evidence of its virtues. Its univalled excellence for coughs and colds, and its truly wonderful ourse of pulmonary disease; have made it known throughout the cuvilized nations of the earth.—Yew are the communities, or oven families, among them who have not some personal experience of its effects.—some living trophy in their must of its vitory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful family of these disorders, and as they know, too, the effects of this remedy, we need not as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the vir-tues that idid have when making the curse which have won so strongly upon the confidence of mankind.
