me baid.

In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruft cased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.

For this, among the many obligations I owe to her sex, strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting baid

DR. LELLAND'S ANTI RHEUMATIC BAND. IS THE ONLY KNOWN REMEDY FOR

Rheumatism, Gout and Neuralgias

AND A SURE CURE FOR All Mercurial Diseases.

All Mercurial Diseases.

i is a conveniently arranged Band, containing a mericated compound, to be worn around the Waist, without nawy to the most delicate persons, no change in habits of living is required, and it entirely removes the disease from the system, without producing the injurious effects arising from the use of powerful internal medic ines which weaken and destroy the constitution, and give temporary relief only. By this treatment, the medical properties contained in the Band, come in contact with the blood and reaches the disease, through the pores of the skin, effecting in every instance a perfect cure, and restore the parts afflicted to a healthy condition. This Band is also a most powerful Anti-Marquital agent, and will entirely relieve the system from the permicious effects of Mercury. Moderate cases are sured in a few days, and we are constantly receiving testimonials of its efficacy in aggravated eases of long standing.

PENNSYLVANIA HOSPITAL.

MAY 19, 1860.—Ellen S., zet. 28, single, never was very strong. Two years ago she had an attack of acute rhoumatism, from which she was conlined to her bed for two weeks and subsequenty from a relapse fer four more. She has been well since then till last Satur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had so decided chill. Two days later her ankles began so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic iever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various own symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. In man propylamine. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confess I am always uncredulous as to the worth of new remedies, which are vaunted as specifies; but this comes to us recommended so highly, that we are bound to give it a trial. [FROM OFFICIAL HOSPITAL REPORTS.] are bound to give it a trial.

SAME CASE FOUR DAYS LATER! MAY 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was then laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains every two hours (intermitting it at night.) The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

fore we can give a decided opinion as to what is to be the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from a propie rheumatism, and I found her at that time with an acute attack supervening upon her chronic affection. The wrists and knuckles were much swollen and tense, She took the chloride of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

THREE DAYS LATER!!

MAY 26, 1860.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very, satisfactory results. The second case to which your attention was called at our last lecture, has also continued to do well. I will now bring before you a very characteristic case of acute rheumatism, and if the result be satifactory, I think, as goodjurymen, we shall justly render our verdict in fayor of propylamine.

He is a seaman, set 26, who was admitted a few days ago. Has had ocassional rheumatic pams, but not so as to keep his bed, until eight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all swollen, tense and tender. His tongue is furred; his skin, at present dry, though there has been much sweating. His pulse is full and strong, and about 90.—He has now used propylamine for twenty-four hours. This gentleman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating, so generally attendant on acute rheumatism. I did not bring this patient before you with the 1 nention of giving you a lecture on all the points connected with rheumatism, but to again give a trial to the new remedy we are testing, and to exhibit to you this typical cuse, as I have called it, than which there co uld not be a fairer opportunity for testing the medicine, in question. We are, therefore, avoiding the use of all other medicines, even anotynes; that there may be no misgivings as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

JUNE 9, 1860.—The next of our convalescents is the case of acute rheumatism before you at our clinic of May 28th, which I then called a typical case, and which, it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to any that I have nevea seen as severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positive up as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Choride o Propylamine, the patients have regained their health. Propriamine, the patients have tried the Chloride o Propriamine, the patients have regained their health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condense xtract, see the Philadelphia Medical and Surgical Reporter. It is the report after a fair trial by the best med ical authority to this country, and makes it unnecessary to give numerous certificates from astonished docto and rejoicing patients...

OALAND, ind., 8th June, 1859.

J. C. AYER & Co., Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofubus infection, I have suffered from it in various ways for years. Sometimes it burst out in Uicers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla,) for I knew from your reputation that any toing you made must be good. I sent to Chemnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scale, which after a white fell off my skin is now clear, and I know by my it sings that the discase has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the a ostles of the age, and remain ever gratefully. Yours,

Alf-RED B. Tailley.

After taking your remedy eight weeks no symptom of the disease remains." Uterine Ulceration, Female Diseases.

Syphilis and Mercurial Disease. New Orleans, 25th August, 1959.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients and symmetric ideas in its throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five week. Another was attacked by secondary symptoms in his nose, and the diceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparina: the ulcers heated, and he is well again, not of course without some distinguration to his lace. A woman who had been ulcers neated, and he is well again, not of course without some dissignration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and somes. She, too, was cured entirely by your sarsapartila in a few weeks, I know from its formula, which you agent gave me, that this freparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours,

DR. J. C. ATHE: Sir, I have been afflicted with a painful curious theumatism for a long time, which bailted the skill of physicians, and stuck to me in spite of all the remedies I could fin, until I tried your Sarsaparills.—One bottle cured me in two weeks, and restored my general least to much that I am far better time before I was attacked. I think it a wonderful medicine.

Jules Y. Getcheil, of St. Louis, writes: "I have been afflicted for years with an affection of the liver, which destroyed my health. I tried every hing, and every thing tailed to relieve me; and I have been a broken down man for some years from no ther cause than derangment of the Liver. My beloved pastor, the Kov. Mr. Espy, advised me to try your Sarsaparritia, because he said he knew you, and anything you made was worth trying. By the blessing of God thas carred me. I feel young again. The best that can be said of you is not half god enough."

A great variety of cases have been reporte a great variety of eases have been reported to its where cures of these formulable compinates have result-form the use of this remedy, but one space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them. Dyspensia, Heart Disease, Fits, Epilensy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the atternative power of this medicine. It atimulates the vital functions into vigorous action, and thus overcomes disorners which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral FOR THE RAPAD CURE OF Coughs, Colds, Influenza, Hoarseness Croup, Bronchitis, incipient Con-

sumption, and for the Kelief of Consumptive Patients in advanced stages of the Disease This is a remedy so universally known to surpass any other for the cure of throat and inng complaints, that it is useless here to publish the evidence of its virtues. Its unrivailed excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth.—
Few are the communities, or even families, among them who have not some personal experience of its effects,—some living trophy in their minst of its victory over the subtile and charge rough in the control of the throat and inner
