LADIES' WINE.
PEER'S SAMBUCCI WINE
Of Cultivated Portugal Elder.

Excellent Wine for Females.

SAMBUCUS TREE OF PORTUGAL

Every Family Should Use.
PEER'S SAMBUCCI WINE
CELEBRATED for its medical and bene-
ficial qualities as a genuine Stimulant, Tonic, Dis-
cussing and Sedative, highly esteemed by eminent physi-
cians, and some of the first families in Europe and
America.

PEER'S SAMBUCCI WINE
is not a mixture or manufactured article, but is pure
from cultivated Portugal Elder, recommended by Chem-
ists and Physicians as possessing medical properties su-
perior to any other Wines in use, and an excellent re-
medy for all weak and debilitated persons, and the aged
and infirm, improving the appetite, and benefiting ladies
and children.

A LADIES' WINE,
because it will not intoxicate as other wines, as it con-
tains no mixture of spirits or other liquors, and is as-
sured for its rich peculiar flavor and nutritive properties
imparting a healthy tone to the digestive organs, and
restoring soft and healthy skin and complexion.

None genuine unless the signature of
ALFRED PEER, Passaic, N. J.,
is over the cork of each bottle.

Great Cure

DR. LELLAND'S
ANTI RHEUMATIC BAND
IS THE ONLY KNOWN REMEDY FOR
Rheumatism, Gout and Neuralgia
AND A SURE CURE FOR
All Mercurial Diseases.

is a conveniently arranged Band, containing a mas-
sive compound, to be worn around the Waist, without
necessity to the most delicate persons, no change in habits
of living is required, and it entirely removes the disease
from the system, without producing the injurious effects
arising from the use of powerful internal medicine
which weaken and destroy the constitution, and give
temporary relief only. By this treatment, the medical
properties contained in the Band, come in contact with
the blood and reach the disease, through the pores of
the skin, effecting in every instance a perfect cure, and
restore the parts afflicted to a healthy condition. This
Band is also a most powerful Anti-Mercurial agent, and
will entirely relieve the system from the pernicious ef-
fects of Mercury. Moderate cases are cured in a few
days, and we are constantly receiving testimonials of its
efficacy in aggravated cases of disease, attending the use
of it. Price \$2.00, to be had of Druggists generally, or can be
sent by mail or express, with full directions for use, to
any part of the country, direct from the Principal Office.

To all whom this may concern, and **concerns every**
body.

JOHNS & CROSLEY'S
IMPROVED GUTTA PERCHA
CEMENT ROOFING,
The Cheapest and most durable Roofing in use.
IT IS FIRE AND WATER PROOF.
It can be applied to NEW BUILDINGS or of all kinds,
Wood or Iron, and to Shingle Roofs without
removing the Shingles.

The Cost is only about One Third that of Tin
AND IT IS TWICE AS DURABLE.

This article has been thoroughly tested in New York
City and all other parts of the United States, Canada,
West India, Central and South America, on buildings of
all kinds, such as FACTORIES, FOUNDRIES, GARAGES, RAIL
ROAD DEPOTS, CARS, and other Public Buildings, generally
GOVERNMENT BUILDINGS, &c., by the principal Builders,
Architects and others, during the past four years, and
has proven to be the CHEAPEST and MOST DURABLE
ROOFING in use, it is in every respect A FIRE, WATER,
WEATHER and TIME PROOF covering for ROOFS OF
ALL KINDS

This is the ONLY material manufactured in the United
States which combines the very desirable properties of
Elasticity and Durability, which are mutually exclu-
sive, and which are not combined in any other material
known to be possessed by GUTTA PERCHA AND
INDIA RUBBER.

No Heat is required in making application.
The expense of applying it is trifling, as an ordinary roof
can be covered and finished the same day.

It can be applied by any one,
and when finished forms a perfectly firm PAVER surface
with an elastic body, which cannot be injured by HEAT,
COLD or STORM, and is proof of ROOF BOARDS, nor any ex-
ternal action whatever.

LIQUID
GUTTA PERCHA CEMENT,
For Coating Metals of all Kinds when exposed
to the Action of the Weather, and
FOR PRESERVING AND REPAIRING METAL
ROOFS OF ALL KINDS.

This is the only Composition known which will success-
fully resist extreme changes of all climates, for any
length of time, when applied to metals, to which it ad-
heres firmly, forming a body equal to coats of ordinary
paint, much more so, and LAST THREE TIMES AS
LONG; and from its elasticity is not injured by the
contraction and expansion of Tin and other Metal Roofs,
consequent upon sudden changes of the weather.

It will not CRACK IN COLD OR RIN IN WARM
WEATHER, and WILL NOT WASH OFF.

Leaky Tin and other Metal Roofs can be readily re-
paired with GUTTA PERCHA CEMENT, and protected from
further corrosion and leaking, thereby ensuring a per-
fectly tight roof for many years.

This Cement is peculiarly adapted for the preservation
of IRON RAILROADS, STEAM ENGINES, SAFES, AGRICUL-
TURAL IMPLEMENTS, &c., also, for general man-
ufacturers use.

GUTTA PERCHA CEMENT

For preserving and repainting Tin and other Metal Roofs of
every description, from its great elasticity, it is not injured
by the contraction and expansion of Metals, and will not
crack in cold or run in warm weather.

These materials are ADAPTED to ALL CLIMATES, and we
are prepared to supply them in any quantity, part of the coun-
try, at short notice, for GUTTA PERCHA ROOFING in
rolls, ready prepared for use, and GUTTA PERCHA CEMENT
in barrels, with full printed directions for appli-
cation.

AGENTS WANTED.
We will make liberal and satisfactory arrangements
with responsible parties who would like to establish them-
selves in a lucrative and permanent business.

OUR TERMS ARE CASH.
We can give abundant proof of all we claim in favor
of our Improved Roofing having applied them to several
Iron Railroad Roofs in New York City and vicinity.

PENNSYLVANIA HOSPITAL.
(FROM OFFICIAL HOSPITAL PAPERS.)

MAY 19, 1880.—Eliak S., 23, 2nd, single, was very strong. Two years ago he had an attack of acute rheumatism of the chest, which was confined to her bed for two weeks and subsequently from a relapse for four more. She has been well since then till last Saturday, when engaged in house cleaning, she took cold, paid in her back, felt cold, but had no other symptoms. On Sunday morning her ankles began to swell, which was followed by swelling of the knee joints and of the hands. She has now no pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It was remarkably typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now is to call attention to the remedy which has recently been recommended in the treatment of rheumatism. I am an propylamine. Dr. Avenarius, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 360 cases which came under his care. We have commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I will not bring before you a very characteristic case of acute rheumatism, as the cases are so numerous that the worth of new remedies, which are venerated as specifics, but this comes to us recommended so highly, that we are bound to give it a trial.

SAME CASE FOUR DAYS LATER !

MAY 23, 1880.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was the laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains every two hours, and is now sitting up at night. The day after you saw her, I found her much more comfortable, better, than she is yet to be for a week or more, judging from her other ailments. (The patient now walked into the room.) The improvement has been beyond a very considerable degree. I find no marked changes in the appearance of her joints, as you are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from a chronic rheumatism, and I found her at that time with an acute attack supervening upon her chronic affection. The wrist and hand knuckles were much swollen and tense. She took the chloride of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER !!

MAY 26, 1880.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last office. She is still very comfortable, and is now taking three grains thrice daily in water, and is now sitting up at night. The day after you saw her, I found her much more comfortable, better, than she is yet to be for a week or more, judging from her other ailments. (The patient now walked into the room.) The improvement has been beyond a very considerable degree. I find no marked changes in the appearance of her joints, as you are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

She took the chloride of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THE RESULT.

A FAVORABLE VERDICT.

JUNE 10, 1880.—The next of our convalescents is the case of acute rheumatism before you at our office of May 26th, which I then called a typical case, and which it was remarkable for its fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see, and do not hesitate to say that she has never seen so severe a case of acute rheumatism so soon restored to health as this man has been, and, in my view, as this testimony and I feel bound to say, that in the case of the remedy we have we meet with the best of the remedy in which we have tried the chloride of Propylamine, the patients have regained their health much earlier than we anticipated, and that there may be no misgivings as to which was the efficient remedy. You shall see the case at a future clinic.

Mutual

AYER'S SARSAPARILLA

FOR PURIFYING THE BLOOD.

AND for the speedy cure of the subjoined varieties of Disease:

Serofula and Serofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Fustules, Blotches, Boils, Itch, Scald Head, Ringworm, Scabies, Blains, and all skin Diseases.

OAKLAND, Ind., June, 1859.

J. C. AYER & Co., Gentl: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Serofulous infection, I have suffered from it various ways for years. Sometimes it burst out in Ulcers on my hands and arms, sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with scurf, and, after several months' treatment beyond description, I tried many medicines and several physicians, but without much relief from any thing. In fact the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent for it, took it, as you advise, and used it till it cured me. Now I am well, and call myself a new man. I know very well that the disease has gone from my system. You can't well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully,

ALFRED B. TALLEY.

St. Anthony's Fire, Roes or Krysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Scab Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sep., 1859, that he was afflicted an inveterate case of Dropsy, which terminated in fatal result, by the perscription of your Sarsaparilla, and that a dangerous attack of Malignant erysipelas, which nearly cost his life, says he curue the common Krupsion by its constantly.

Bronchitis, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Gertza—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhoea or Whites, Ovarian Tumors, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I met with a female suffering with a severe case of leucorrhoea. In saying I have found your Sarsaparilla a most excellent alternative in the numerous complaints for which we can employ as a remedy, but especially in Female Diseases of the Serofulous character." I have seen many other cases of Leucorrhoea by it, and some where the complaint was caused by ulceration of the uterus. The ulcers healed under its use. I have never known any more knowledge equals it for these female derangements."

Edward S. Morrow, of Newbury, Ala., writes: "A dangerous ovarian tumor on one of the females in my family was cured by the use of your Sarsaparilla. My patient, as long as been completely cured by your Sarsaparilla of Sarsaparilla. Our physician thought nothing but extirpation would afford relief. But he advised the use of your Sarsaparilla—the last resort before cutting—and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Orleans, 26th August, 1859.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects of your Sarsaparilla upon my patients.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found it effects truly wonderful in the cure of Venereal and Mercurial diseases. Some of my patients had syphilitic ulcers in their throat, which were consuming pit palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured them in five weeks. A syphilitic abscess attached to secondary symptoms in the nose, and the ulceration had set on away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But your Sarsaparilla effected a complete cure, and the abscess closed, and he is well again, not of course without some disfigurement to his face. A woman who had been treated for the same disorder by mercury was suffering from a violent inflammation of her breasts, becoming sensitive to the weather that in a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I have also known many of my patients find relief from this preparation from your laboratory must be a great remedy; consequently, these truly remarkable results win it high praise among all my patients.

Trinners years,

G. V. LARMER, M. D.

Rheumatism, Gout, Liver Complaint.

Indianapolis, Precious Ore, Va., 6th July, 1859.

Dr. J. C. AYER: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and stood to me in spite of all the remedies I could try. I used your Sarsaparilla—the best I have known—and in ten days I felt better, and my general health so much that I am far better than before I was attacked. I think it a wonderful medicine.

J. FREEMAN.

Julius Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the liver, which destroyed my health. I tried every thing, and every thing failed to relieve me, and I have become a broken-down invalid. I was told that your Sarsaparilla was a purgative of the Liver. My beloved pastor, the Rev. Mr. Shipley, advised me to try your Sarsaparilla, because he said he knew you, and anything you made was worth trying. By the use of your Sarsaparilla I have gained my former health. The best that can be said of you is: not half good enough."

Schirrhus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of your Sarsaparilla. Some of our virtuous countrymen, who are now suffering from cancer, can attest, and our agents below named are pleased to furnish gratis to all who call for it.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alternative power of this medicine. It stimulates the digestive apparatus of the stomach, and overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that they need.

Ayer's Cherry Pectoral

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Whooping Cough, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This fine remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is called the "King of Remedies," and is everywhere acknowledged an unrivaled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the whole range of the earth,—among the communities, or even families of nations, who have not some personal experience of its efficacy.—Some living trophies in their midst of its victory over the worst forms of pulmonary disease, the throat and lungs. And as we know the dreadful fatality of these diseases, and as we know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues of the cherry pectoral, and that those who have been so strongly upon the confidence of mankind.

IMPROVEMENT IN DISTINTORY

DR. P. H. ALLABACH, Surgeon Dentist, of New York City, writes: "The only method that obviates every objection to the application of teeth, embracing partial, half and whole sets of one piece only, of pure and indestructible mineral, there are no artificial teeth, and therefore, no offensive odor from the breath, as no metal is used in their construction, there can be no galvanic action between the teeth and the tongue. The individual is not troubled with sore throat, headache, &c. Office No. 25 North Second street, Harrisburg, Pa."
