HARRISBURG, PA.

Thursday Morning, February 6, 1862.

THE KEYSIONE NAVAL EXPEDITION. Unofficial information received in this city to day, from parties in Washington who have large access to a knowledge of the plans of the government, lead us to believe that the proposition of Gov. Curtin to organize a naval expedition with the troops now in this state, is most favorably considered by the President and Cabinet. Judging from this favor, and the high repute in which the military energy of Pennsylvania is now regarded by the country, we have a right to look for a speedy order on the subject, and the fitting out of an expedition at the wharves of Philadelphia in every respect commensurate with the power and the resources of Pennsylvania.

THE LOCOFOCO SYMPATHISERS WITH REBELLION when they desire to conceal their hatred to the armed effort to crush the traitors, indulge in lamentations over the weakness of the federal administration, and deplore its inability to resist the arrogance and increachments of foreign power. The class of men who indulge in these misgivings on this subject are the same creatures who, during the settlement of the northwestern boundary question, bellowed so lustily for "fifty-four forty or fight." Then the country was united. Then its power was incalculable and invincible. Then prosperity and wealth abounded in every locality, and the nation had the resources at its command successfully to cope with any foreign power, either in a war of cope with any foreign power, either in a war of cope with any foreign power, either in a war of cope with any foreign power, either in a war of cope with any foreign power, either in a war of cope with any foreign power, either in a war of cope with any foreign power, either in a war of cope with any foreign power, either in a war of cope with any foreign power, either in a war of cope with any foreign power, either in a war of cope with any foreign power, either in a war of cope with any foreign power, either in a war of cope with any foreign power, either in a war of that refusing to yield we shall be instantly by the certain triumph of the federal arms; shot, yielding we shall be branded as paffled cowards! Are there not many mean, high cowards! Are there not many governments codinarily rule and confusion they would be able to escape fight' claim without even an argument or an apology for its weakness and mendacity. They the resources at its command successfully to apology for its weakness and mendacity. They surrendered thousands of acres of land to Great Britain, because the slave power was then at work to prevent the organization of any new free states, and this humiliating surrender was ene of the means adopted to cripple the free states, diminish the power of the federal government, and render slavery stronger for the rebellion which is now ravaging the fairest portion of the republic.

The surrender of Mason and Slidell was in conformity with a long established policy of the national government. By giving up the rebel renegades we lost no right, surrendered no territory, or yielded a single loyal principle. ously, but not discreetly desiring to discharge his duty. When the result of his action was brought before the national administration, it was disclaimed and disapproved; not, however, without asknowledging the honesty of the man-stealing, child-selling. In that case, the administration had taken no in his desire to render an honorable service to his country. But, when the north-west ern boundary question was discussed in a diplomatic correspondence, a Democratic administration assumed as a right of the most majestic and sacred character, dominion over certain territory, which was claimed as belonging to the government of the United States. Up been and to lend a helping hand to the chamulation of the United States. Up bloss of the iniquity which she most deeply loathes. They would have us stain with efter a Democratic administration, inflated with all half intamy the flag beneath whose shadow the the egottem and vanity of modern Democratic gasconade; but the line was drawn down as low as forty-nine degrees, when the British of kiddsppers and bondmen. This is the hope-government assumed a less belligerent resist. ance than was made in the case of the Trent. The territory was surrendered to Great Britain, and as we have established in this article, at least half dozen free commonwealths, geographically as large as Pennsylvania, prevented from being brought into the Union.

Such is the historical parallel to the Trent affair, which a few old dough-faces seek to use for the disparagement of the vigor and daring of the national administration. When Mason and Slidell were given up as useless booty and unworthy trophics of war, we were not surrendering to British arrogance, as did the administration of James K. Polk, through the advice of James Buchanan, some of the most are promulgated in England than those which valuable possessions of the nation.

GMM. HALLBOK has issued an order to the effect that all unpaid telegrams to his head-quarters, on business not requiring immediate answer, and which could have been transmitted through the mails in time for all needful purposes, will be charged on the pay rolls of the officers thus telegraphing and the amount collected out of their pay. The same order would apply to other departments of the army. and be productive of a like economy. In the matter of telegraphing, it will some day be poorer and the oredit of all damaged with developed, existed an enormous expense to the government, which could have been avoid. the event of Congress refusing to legalize the localthe part of the Patrick and it is a maxim with ed by the exercise of the simplest discretion.

THE ENGLISH PRESS.

It would indeed be a sorry condition of the legration of the English press, if there was no exception to the malignancy and falsehood with which American affairs and interests are treated in Great Britain. As a class, the journalists of England are bitterly prejudiced against rewhich American affairs and interests are treated publican men and measures. They hate freedom because they have not the cenergy to achieve it, while they affect to despise the principles of republican government because they have not the intelligence to inderetand or the wit to appreciate its excellence. The exception Another week has passed and nothing has been to this class of journalists in England, who have thus bitterly devoted themselves to ma- taxes and means of defence. The hesitancy of ligning the people and the cause of the federal government, is confined to a small band of honest men, who, while they boldly defend and tion manifested by England and France, has taken to Crancy island by the Bancocas.

Maintain the just neutrality of the British go had a tendency during the week to diminish. No news in relation to the Burnside expedivernment, are eliciting for themselves the entipublic confidence in the future. Every body venomed anathemse of the press to which we know that the suppression of the rebellion is allude, and the curses and rage of the rabble led on and controlled by that class of jour

The London Times is the only British newspaper extensively known beyond the British islands, but notwithstanding this fact, it is also a fact that there are journals published in Engislands, but notwithstanding this fact, it is also
a fact that there are journals published in England possessing an equal influence and wielding
an equal power over the English masses.

Among these, The Morning Star and Dial is perhaps the most ably edited and extensively cit;

The results the passing of the passing of the passing of the number of the reading of the number of the number

passion and a religion. Placed in a position of the uttermost danger, it has not lost contrage or composure; tried by the strongest tempta-tions it has not awayved from the right. In surrendering the Confederate Commissioners on the ground that the "government cannot deny the justice of England's claim," the President of America has done an act of true courage that itation, and business enterprise in continued would, if such an addition were possible, have suspension. added new dignity; even to the career of a Washington. If this be the act of a mob government, then mobs must sometimes reach a nebleness and a spirit of justice sadly uncommon in the history of governments by princes and peers. The federal government was subjected to one of the severest trials possible for the ruling power of a brave and sensitive peo ple to undergo. The statesmen of the Wash-ington Cabinet were at once summoned to sur-render on pain of instant war, and taunted with cowardice in the event of their compliance. How hard it is to see the justice of a demand would become incapable of recognizing the in The loyal reader may well shudder justice of any claim sustained in such a manner? while perusing such advice. It was dictated by It impossible to deny that it was in this tone | the spirit which first aroused the masses of the the utterances of that which too many believe Konthern people to rebell a spirit at once fien to be English public opinion edited across the Atlantic into the ears of the federal govern-Atlantic into the ears of the federal government. That government that taugiff the spirit. The foot of the oppressor is on the soil of

Until that bill is matured we may expect the money market to be in a constant state of agi-

> THE DESPREATION OF THE TRAITORS IS DOTTENED in the following extract from an address lately issued to the people of Georgia by a committee of rebels, at the head of whom stands the thief, Howell Cobb. It will be observed that these conspirators recommend a course of self-treat ment to the rebels, which the legal anthorities of the nation would scorn to inflict on innocen wonien and children—but the recommendation need not surprise any sane man, simply because deserve. The loyal reader may well shudder ish, brutal and inhuman:

comes a robber and a murgerer. How shall you meet him? With the sword at the threshold! With death, for him or for yourself! But more than this—let every woman have a torch, levery obtid's firebrand—let the loved hours of youth be made ashes, and the fields of our pertage be made desolate. Let blackness and the fields of our pertage be made desolate. Let blackness and ruin mark your departing steps, if depart you must, and let a desert more terrible than Salara welcome the vandals. Let every city be levelled by the flames, and every village be lost in ashes. Let your faithful slaves share your forfune and your crust. Trust wife and children to the sure refuge and protection of God.

blockade is ruinous and barbarous, an incubus on trade, an impediment to commerce, and an of British producers and manufacturers, who depend on American cotton to keep their mills in operation. There is semething, however very inconsistent in these different cries and accusations. If the blocksde is inefficient, it cannot be barbarous—and if it is barbarous and cient. The fact is that the blockade is doing more to crush rebellion and change public sentiment in Europe, than any other feature of our operations against the rebels. While it is starying the actual traitor at the south, it is also land, who is willing to renounce his ancient sentiments on the subject of slavery for his modern love of pound, shifting and pence. Old bulks and stone fleets are irresistable arguments on the subject of sputhern domination. They teach a destruction and a retaliation which never entered the brain of the traitor. And what is the more deplorable for the traitors.

One of the dirtiest tricks played by small by the British aristocracy and their toadies of political editors is that of taking a paragraph the London Times Pile Zois Fatori

opposed was the issue of paper currency. He was opposed to any union with the Government and the banks, and was not willing that the Government should be depended on the banks. If the Government depended on an irredee mable paper issue, financial ruin must follow. He advocates the passage of his resolution as affording a safe and sound basis for specie currency. The resolution was referred to the Committee on Finance.

Mr. Freezendan, (Me,) from the Committee on Finance reported back the bill making an appropriation for the support of the military

academy at West Point without amendment.
The bill was passed.
Mr. Summer, (Mass.) offered a resolution calling on the President to furnish the Senate with the recent correspondence relative to the presentation of American citizens at the Court

on saturated in the same of th the next fiscal year were \$ 550,000,000 and we know that this will be increased by various bills. This is five times the amoun of the currency of the country, and more than the expenses of Great Britian during the war

> The morning hour having expired the bill was laid over, and the Bright case taken up. HOUSE OF REPRESENTATIVES.

with Napoleon.

The House went into Committee of the Whole on the State of the Union, and proceeded to the consideration of the treasury note bill.
Mr. Causiusto, (Md.,) said he acted with that broad, National Catholic party which includes he whole Union within its embrace, and looks to the maintenance of the Confederacy and restoration of the Constitution as our fathers made power without his agency, and some things had been done by this administration; of which he did not approve, but believing him to be an honest and patriotic, he conceived it to be the duty of every patriotic citizen to sustain him. Therefore he should give to the administration in the great work before them a candid, honest, and unreserved support, especially as to its financial policy, because that of all others is most important, for on the supplyiof money depends the existence of the army and as a consequence the life of the nation The committee on ways and means had com-

the bill if it designs to give paper the equal value of gold. Should trat clause to Europe under Smitcut States on the retained public credit could not be sustained by its it was a system of repudiation.
