JOHNS & CROSLEY'S IMPROVED GUTTA PERCHA CEMENT BOOFING,

The Cheapest and most durable Boofing in use IT IS FIRE AND WATER PROOF.

It can be applied to saw and one moors of all kinds, steep or flat, and to Samagas Roors without removing the Shingles. The Cost is only about One. Third that of Tin AND IT IS TWICE AS DURABLE.

This article has been thoroughly tested in New York City and all other parts of the United States, Canada, West Indies Central and South America, on buildings of all kinds, such as Tacorous, Powering, Churches, Rah, Road Derors, Cars, and on Public Buildings of generally Government Bullings, &c., by the principal Builders, Architects and others, during the past four years, and use proved to be the CHEAPEST and MOST DURABLE ROOFING in use; it is in every respect A FIRE, WATER, WRATERR and TIME PROOF covering for ROOFS OF ALL KINDS.

This is the ONLY material manufactured in the United States which combines the very desirable properties of Elasticity and Durability, which are universally acknowledged to be possessed by GUTLA PERCHA AND INDIA RUBBER. No Heat is required in making application.

The expense of applying it is trifling, as an ordinary roof can be covered and finished the same day. It can be applied by any one.

and when fluished forms a perfectly Firs Proof surface with an elastic body, which cannot be injured by Hear, Cold or Storms, Seringuad of Boor Boars, nor any external action whatever.

LIQUID GUTTA PERCHA CEMENT, For Coating Metals of all Kinds when exposed to the Action of the Weather, and FOR PRESERVING AND REPEARING METAL

BOOKS OF ALL KINDS. This is the only Composition known which will successfully resis; extreme changes of all chimates, for any length of time, when applied to metals, to which it adheres fruly, forming a body equal to costs of ordinary paint, costs much less and will LAST THREE TIMES AS LONG; and from its classicity is not injured by the contraction and expansion of Tin and other. Metal Roofs, consequent udon sudden changes of the weather.

It will not CRACK IN COLD OR RUN IN WARM WRAIHER, AND WILL NOT WASH OFF. Leaky Tin and other Metal Rock can be readily repaired with GUTTA PERUHA OF MENT and prevented from irriber correction and leaking, thereby ensuring a percept tight roof for many years.

This Cement is peculiarly adapted for the preservation of IRON Eatlines, STOVES, RANGES, BAFES, AGRI-CULTURAL IMPLEMENTS, &c., also for general manu-cuturer use. GUTTA PERCHA CEMENT For preserving and repaing Tiu and other Metal Boofs of every description, from its great elasticity; is not injured by the contraction and expansion of Metals, and will not erack in cold or run in warm weather.

brack in cold or run in warm weather.

These materials are anapted to all climates, and we are prepared to supply orders from any part of the country, at short notice, for GUTTA PERCHA ROOFING in rolls, ready prepared for use, and GUTTA PERCHA CEMENT in barrels, with fall printed directions for appli-AGENTS WANTED.

We will make liberal and satisfactory arrangement with responsible parties who would like to establish them selves in a fucrative and permanent business. OUR TERMS ARE CASH. We can give abundant proof of all we claim in favor of our Improved Roofing having applied them to several thousand Roofs in New York City and vicinity.

PENNSYLVANIA HOSPITAL. [FROM OFFICIAL HOSPITAL REPORTS.]

[From Official Hostital Reforms.]

May 19, 1860,—Ellen S., sci. 23, single, never was very strong. Two years ago she ind an attack of acute rheumatism, from which she was confined to her bed for two weeks and subsequently from a relapse for four more. She has been well since then till last Satur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had no decided chill. Two days later her ankles began so swell, which was followed by swelling of the knee joints and of the hands. She has now dall pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case we will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. In man propylamins. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared, in our journaks, and I propose therefore to give it another trial. I must confess I am always unredulous as to the worth of new remedies, which are vaunted as specifies; but this comes to us recommended so highly, that we are bound to give it a trial.

SAME CASE FOUR DAYS LATER!

SAME CASE FOUR DAYS LATER!

MAY 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propyismine, and was then laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains every two hours (intermitting it at night.) The day after you saw her, I dound her much more combrable, better than she expected to be for a week or more, judging from her of the attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now marry all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little white before we can give a decided opinion as to what is to be the result.

the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from a front breamatism, and I found her at that time with an acute attack supervening upon her chronic affection. The wrists and knuckles were much swollen and tense. She took the chloride of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

THREE DAYS LATER!!

MAY 26, 1860.—This is the case of soute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case is has seemed to be followed by very; satisfactory, results. The second case to which your attention was called at our last lecture, has also continued to do well. I will now bring before you a very characteristic case of soute rheumatism, and if the result be satisfactory, I think, as good jurymen, we shall justly render our verdict in favor of propylamine.

He is a seaman, set, 26, who was admitted a few days sgo. Has had consational rheumatic pause, but not so as to keep his bed, until eight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all swollen, tense and fonder. His tougue is furred, ihis skin, at present dry, though there has been much sweating. His pulse, is full and strong, and about *80.—He has now used propylamine for twenty-four hours.

This gentleman is what may be called a strictly typicall case of acute theumatism. There was exposure to coldent with an anomalism, is what may be called a strictly typicall case of acute theumatism. There was exposure to coldents, severe articular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating, so generally attendant on acute rheumatism. I did not bring this patient before you with the intention of giving you a lecture en all the points connected with a houmatism, but to again give a trial to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there on uid other medicines, even anodynes, that there may be no misgiving as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

June 9, 1860.—The next of our convalescents is the case of acute rheumatism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore, stoadily given in three grain doses every two hours fur four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have noves seen as severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the rigneyly we have used, I feel bound to wake that in the cases in which we have tried the Chloride o Propylstaino, the patients nave regained incir health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condensed extract, see the Philadelphia Medical and Surgical Recorter. It is the report after a fair trial by the best med cal authority in this country, and makes it unnecessary to give numerous certificates from astonished doctors and rejoicing patients.

AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD. A ND for the speedy cure of the sub-joined varieties of Disease :

Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

J. C. ATER & Co., Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrotulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and leathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla) for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy akn soen began to form under the scab, which after a while fell off my akin is now clear, and I know by my fealings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the ago, and remain ever gratefully. Yours,

Alfred B. Talley. OAKLAND, Ind., 6th June, 1859.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sep., 1859, that he has cured an inveterate case of Drop sy, which threatened to terminate fatality, by the persevering use of our Sarsaparilla, and also a dangerous at tack of Malignant Erysipelas by large does of the same says he cures the common Eruptions by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sion of Prospect, Texas, writes: Three bottles of your Sasanjarilla cured me from a Gerran—a hideous swelling on the neck, which I had suffered from over two years." Leucorthæa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the respect of your agent in saying I have found your Exessparities a most care allest alternative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrofulous disthesis. I have cured many inveterate cases of Leucorrhosa by it, and some where the complaint was caused by signature. Nothing within my knowledge equals it for these tennic deringements."

Edward S. Marrow, of Newbury, Ala:, writes, "A dangerous courant know on one of the females in my tamily, which had defied all the remedies, we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but exist patien could afford relief, but he advised the trial of your sexaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains." Uterine Ulceration, Female Diseases.

Syphilis and Mercurial Disease. NEW ORIZANS, 25th August, 1960

NEW GRIZZES, 25th August, 1989.

Dr. J. G. Ayes: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sargaparilla.

I have cored with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the ours of Vesieval said Mercapital Dispass. One of my patients had Syphil the olders in his throat, which were consuming his palate and the top of his mouth. Your Sargaparilla, steadily taken, cured him in the week!—Another was attacked by secondary symptoms in his nose, and the olderation had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sargaparilla: the ulbers heated, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become no sensitive to the weather that on a damp day she suffered extractating pain in her joints and bones. She, too, was cured onlyingly your Sargaparilla is a few weeks. I know from its formula, which you agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with it have not surprised me.

Praternally yours,

Rheumatism, Gout, Liver Complaint. Independent, Proton Co., Va., 6th July, 1859.

Dr. J. C. Avas; Sr., Phave been affleted with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedics I could fin, until I tried your Sarsaparilla.—One bottle cured me in two weeks, and restored my general health so much that I am: far-better their before I was attacked. I think it a wonderful medicine.

Jules Y. Getchell, of St. Louis. writes: "I, have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing; and every thing islied to relieve me; and I have been a broken down man for some years from no ther cause than derangment of the Liver. My beloved pastor, the Bey, Mr. Enpy, advised me to try your Sarsaparrilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has eured mee! I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have result form the use of this remedy, but one space here will not admit them. Some of them may be found in our Amer can Almanao, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia,

Many remarkable cures of these affections have been made by the alternative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remody has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do. Ayer's Cherry Pectoral

FOR THE RAPID CURE OF Coughs, Colds, Influence, Hoarseness, Croup, Bronchitis, Incipient Con-sumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease

of the Disease

This is a remedy so universally known to surpage any other for the cure of throat and tung complaints, that it is useless here to publish, the cridence of its virtues. Its nurrivalled excellence for coughs and tolds, and its truly wenderful cures of pulmontry disease, have made it known throughout the civilized nations of the earth.—

Fow are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their minest of its victory over the subits and dangerous disorders of the throat and lungs. As all know the dreadul fatality of these disorders, and as they know; soo, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of imankind.
