Dr. W. Barr—Drar Sir. — As I have learned that you have purchased the right to manufacture and sell M'Connell's Golden Electric Oil, for the benefit of the afflicted, I send the following: —I have been afflicted with a running sore on my left leg for ten years. During that time I have been under the treatment of ten of the best Doctors in Harrisburg, Baltimore and Cumberland county; but all could not effect a cure. A little over a year past, going into my blacksmith shop after dark, I hurt my right leg also, below the snee. It spread all around the leg, and became a running sore. Several Doctors told me I must have my leg taken off, mortification having taken place. Fortunately I got a bottle of your Golden Electric Oil for my child's sore mouth. It cured so soon that I thought I would try it on my legs. I have been using it about six weeks, and my legs are now healed up—gound and weil.

PENNSYLVANIA HOSPITAL. [FROM OFFICIAL HOSPITAL REPORTS.]

[FROM OFFICIAL HOSPITAL REPORTS.]

MAY 19, 1860,—Ellea S., æt. 28, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks and subsequently from a relapse for four more. She has been well since then till last Satur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had so decided chill. Two days later her ankles beds an so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and pialotel; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a ramedy which has recently been recommended in the iteratment of rheumatism. In man propydawske. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confess I am always incredulous as to the surface of the commended of the commended and highly, that we are bound to give it a trial.

SAME CASE FOUR DAYS LATER!

the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from a hronic rheumatism, and I found her at that time with an acute attack supervening upon her chronic affection. The wrists and knuckles were much swellen and tense. She took the chloride of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.,

THREE DAYS LATER!!

THREE DAYS LATER!!

MAY 26, 1850.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very, satisfactory results. The second o de to which your attention was called at our last lecture, has also continued to de well. I will now bring before you a very characteristic case of acute rheumatism, and if the result be satfactory, I think, as good jurymen, we shall justly render our verdict in favor of propylamine.

He is a seaman, set 26, who was admitted a few days ago! Has had ccassional rheumatic pains, but not so as to keep his bed, until eight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all swollen, tense and tender. His tongue is furred, his skin, at present dry, though there has been much sweating. His pulse is find and strong, and about 90.—He has now used propylamine for twenty-four hours. This gentleman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating, so generally stitendant on a cate or heumatism. I fild het bring this patient before you with the intention of giving you a lecture on all the points connected with rheumatism, but to again give a trial to the new remady we are testing, and to exhibit to you this typical case, as I have called it, than which there co uld not be a fairer opportunity for testing the medicine in question. We are, therefore, avolding the use of all other medicines, even anodynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case of a fluture clinic.

THE RESULT.

A FAVORABLE VERDICT.

June 9, 1860.—The next of our convalencents is the case of acute rheumatism before you at our clints or May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the work of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have, neves seen as severe a case of acute rheumatism so shon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy, we have used, I feel bound to state that in the cases in which we have tried the Ohloride or Propylamine, the patients have regained their health much earlier than under the treatment ordinarily pursued. I what genilemen, you would yourselves try it, sued. I wish gentlemen, you would yourselves try it and report the results.

For a full report of which the above is a condensed extract, see the Philadelphia Medical and Surgical Reporter. It is the report after a fair trial by the best medcal authority in this country, and makes it unnecessar to give numerous certificates from astonished doctors and rejoicing patients.

OAKLAND, Ind., 6th June, 1859.

J. C. ATER & Co., Gents: I feel it my duty to acknowledge what your Saraaparilla has done for me. Having inherited a Scrothlus infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulears on my hands and arms; sometimes turned inward and distressed me at the stomach. I we years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and ioathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an atternative (Sarsaparilla,) for I knew from your repusation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used simost three bottles. New and healthy skn soen began to form under the scab, which after a while fall off my akin is n. clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the acosties of the age, and remain ever gratefully.

Syphilis and Mercurial Disease.

NEW OBLEARS, 25th August, 1969.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have consized with your Sarsaparilia.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mircurial Diseases. One of my patients had syphilitio ulcers in his threat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, slead dily taken, oured him in the week. Another was attacked by secondary symptoms in his mose, and the ulceration had saten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by marcury was suffered irom this poison in her bones. They had become so sensitive to the weather that one a damp day she suffered excrucating pain is her joints and bones. She, too, was coured entirely by your Sarsaparilla is a few weeks. I know from its formula, which you agent gave mo, that this treparation from your laboratory must be a great ramedy; consequently, these truly remarkeble results with it have not surprised me.

Rheumatism, Gout, Liver Complaint. INDEPENDENCE, Procton Co., Va., 6th July, 1869. DR. J. C. Ather. Sir, I have been affliced with a painful chronic Rheumatism for a long time, which baffled the still of physicians, and stuck to me in spice of all the remedies I could fin , until I tried your sursaparilla.—One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine.

where cures of these formidable complaints have resultive in the use of this remedy, but one space here will not admit them. Some of them may be found in our American Alimanac, which the agents below named are pleased to furnish gratis to all who call for them. Dyspepsia, Heart Disease, Fits, Epilep-

sy, Melancholy, Neuralgia, Many remarkable cures of these affections have been made by the alternative power of this medicine. It stimulates the vital functions into vigorous action, and thus over-comes disorders which would be supposed, beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for their all that medicine can do.

Ayer's Cherry Pectoral FOR THE KAPID OURE OF Coughs. Colds, Influenza, Hoarseness Croup, Bronchitis, Incipient Consumption, and for the Relief

of Consumptive Patients in advanced Stages of the Disease This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its universalled excellence for coughs and colds, and its unity wonderful cures of pulmonary alsease, have made it known throughout the civilized nations of the earth.—Few are the communities, or even familials, unforg them with have not some personal experience of its effects,—some living trophy in their midst of its victory over the subtle and dangerous disorders of the threat and lungs. As all know the dreadful fathlity of, those disorders, and as they know, too, the effects of this remedy, we issed not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of markind.
