PENNSYLVANIA HOSPITAL.

[FROM OFFICIAL HOSPITAL REPORTS.] MAY 19, 1860.—Ellen S., set. 28, single, never was very trong. Two years ago she had an attack of acute rheuma-sm, from which she was confined to her bed for two weeks strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks and subsequently from a relapse fer four more. She has been well since then till last Satur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had so decided chill. Two days later her ankles began so weell, which was followed by swelling of the fines joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. Im an propylamine. Dr. Awenarius, of St. Petersburg, recommended in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journaks, and I propose therefore to give it another trial I must confess I am always incredulous as to the worth of new remedies, which are vaunted as specifies; but this comes to us recommended so highly, that we are bound to give it a trial.

SAME CASE FOUR DAYS LATER!

SAME CASE FOUR DAYS LATER!

MAY 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was then laboring under an attack of acute rheumatism. She has steadily taken it in does of three grains every two hours (intermitting it at night.) The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her Johns, which are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

Here is another patient who was placed on the use of

fore we can give a decided opinion as to what is to be the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from c bronk returnatism, and I found her at that time with an acute attack supervening upon her chroake affection. The wrists and knuckles were much awolien and tense. She took the chloride of Propylamine in three grain doses every two hours, and you will perceive that the swetting of the joints has much diminished.

THREE DAYS LATER!!

THREE DAYS LATER II

MAY 28, 1880.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last cliule. She is still very confortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very satisfactory results. The second case to which your attention was called at our last locture, has also continued to de well. I will now bring before you a very characteristic case of acute rheumatism, and if the result be satfactory, I think, as good jurymen, we snall justly render our verdict in lavor of propylamin

He is a seaman, set. 26, who was admitted a few days ago. Has had ocasional rheumatic pams, but not so as to keep his bed, until eight days ago. The palms began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all swellen, the joints of the upper extremities. These joints are all swellen, at precent dry, though there has been much his exiting. His pulse is full and strong, and about 90.—He has new used propylamine for twenty-four hours.

This gentieman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse speaking, so generally attendant on acute rheumatism. I did not bring this patient before you with the intention of giving you a lecture on all the points connected with rhoumatism but to again give a trist to the new remedy we are testing, and to exhibit to you this typical case, as I have called, it, than which there co uld not be a fairler opportunity for testing the medicine in question. We are, therefore, avoiding the use of all ether medicines, even anotynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

66 ▲ FAVORABLE VERDICT.

Juma 9, 1860 .- The next of our convalescents is the JUMP 1, 1860.—The next of our convalences is the case of souter pheumatism before you at our clinic of May 26th, which L then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. ent has got along very nicely, and is now abl out, as you see. I do not hesitate to say th The patient has got along very sicely, and is now able to walk about, as you see. I do not hesitate to say that I have neves seen as severes ease of acute rheu natism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the eases in which we have tried the Chloride of Prepylamine, the patients buve, recained their health much earlier than under he treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condensed extract, see the Philadelphia Medical and Surgical Re-It is the report after a fair trial by the best med ical authority in this country, and makes it unnecessary rous certificates from autonished doct and rejoicing patients.

Medicai

AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD.

A ND for the speedy cure of the sub-Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1869.

OAKLAND, Ind., 6th June, 1869.

J. C. Aver & Co., Gents: I teel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes turned inwarf and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medic nes and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an aiternative (Sarsaparilla,) for I knew from your reputation that any thing you made must be good. I seaspoonful took it, as you advise, in small doese of a teaspoonful over a month, and used almost three bottles. New and healthy skn soen began to form under the scab, which after a while fell off my skin is now clear, and I knuw by my feelings that the discase has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the a costles of the age, and remain ever gratefully. Yours,

ALFRED B, TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head Ringworm, Sore Eyes, Dropsy.

Dr. Rouert M. Proble writes irom Salem, N. Y., 12th Sep., 1859, that he nas cured an inveterate case of Dropsy, which threatened to terminate fatality, by the persevering use of our Sarsapardla, and also a dangerous at lack of Maliguant hrysipelas by large dose of the same says he cures the common Eruptions by it constantly. Bronchocele, Goitre or Swelled Neck. Zebulon Stoan of Prospect, Texas, writes: "Three bot-ties of your Sarsaparille cured me from a Gerrar—a hid-cous swelling on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumor

Uterine Ulceration, Female Diseases. Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channiag, of New York City, writes; "
most cheeffully comply with the respect of your agent
in agying I have found your sarsaparilis a most excellent
alternative in the numerous compliants for which we employ such a remedy, but especially in Female Diseases of
the Scrofulous diathesis. I have cured many inveter ate
cases of Leucorrhone by it, and some where the complaint was caused by siceration of the sicrus. The ulceration itself was suce cured. Nothing within my
knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ocarian tumor on one of the females in my tamily,
which had defied all the remedies we could employ, has
at length been conheltedly cured by your Extract of Sarsaparilla. Uur physician thought nothing but extirpatien could afford relief, but he advised the trial of your
Sarsaparilla as the last resort before cutting, and it
proved effectual. After taking your remedy eight weeks
no symptom of the disease remains."

Syphilis and Mercurial Disease.

r satisave it.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects it have resized with your Sarsaparilla.

I have coursed with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Discase. (ne of my patients had siyphilitic ulners in his throat, which were consuming his patient and the top of his mouth. Your Sarsaparilla, steadily taken, oured him in two week. Another was subsciked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the legers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered accrumating pain in her joints and bones. She, too, was oured entirely by your Sarsaparilla is a few weeks. I know from its formula, which you agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with it have net surprused me.

Fraternally yours, NEW ORLEANS, 25th August, 1959.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint. Interpretable, Crout, Liver Complicative Linegraphy Procton Co., Va., 6th July, 1859. IR. J. C. Aybe: Sir, I have been afficed with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and stunc to me in spike of all the remedies I could in , until I tried your Sarsaparilla.—

One bottle cured me in two weeks, and restored my general health so much that I am far cetter than before I was attacked. I think it a wonderful medicine.

J. FREAM.

Jules Y. Getchell, of St. Louis. writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing islied to relieve me; and I have been a broken down man for some years from no ther cause than derangment of the Liver. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparrilla, because he said he know you, and anything you made was worth trying. By the blessing of God it has cured me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formulable complaints have resultiorm the use of this remedy, but one space here will not admit them. Some of them may be found in our Amercan Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alternative power of this medicine. It stimulates the vital functions into vigorous action; and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the accessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral

FOR THE RAPIDICURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Con-sumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease

This is a remedy so universally known to surpage any other for the cure of throat and lung complaints, that it is useless ner to publish the evidence of its virtues. It univalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized battons of the earth. known throughout the civilized nations of the earth,— few are the communities, or even lamilies, among tham who have not some personal experience of its effects,— some living trophy in their mines of its victory over the subtle and daugerous disorders of the throat and large, As all know the dreadful faulity of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the vir-tues that it did have when making the curse which have won so strongly upon the confidence of makind. won so strongly upon the confidence of mankind.
