PENNSYLVANIA HOSPITAL.

[FROM OFFICIAL HOSPITAL REPORTS.] [FROM OFFICIAL HOSPITAL REPORTS.]

MAY 19, 1860.—Eilen S., set. 28, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks and subsequently from a relapse fer four more. She has been well since then till hast fastur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had no, deelded chill. Two days later her ankles begat so swell, which was followed by swelling of the time of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashlonably called, rheumatic fever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. In mean propylance. ramedy which has recently been recommended in the treatment of rheumatism. I mean propyldrains. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great beacht from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confess I am always incredulous as to the worth of new remedies, which are vanted as specifies; but this comes to us recommended so highly, that we are hound to give it a trial.

SAME CASE FOUR DAYS LATER!

SAME CASE FOUR DAYS LATER!

MAY 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was then laboring under an attack of aquie rheumatism. She has steadily taken it in doses of three grains every two hours (intermiting it at night.) The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from chronic rheumatism, and I found her at that time with an acute attack supervening upon her chronic affection. The wrists and knuckles were much swollen and teuse. She took the chloride of Propyianine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

MAY 26, 1860.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very satisfactory results. The second case to which your attention was called at our last lecture, has also continued to do wel? I will now bring before you a very characteristic case of acute rheumatism, and if the result be satfactory, I think, as good jurymen, we shall justly render four verdict in favor of propylamin

istic case of acute rheumatism, and if the result be sathactory, it hink, as good jurymen, we shall justly render four verdict in favor of propylamin

He is a seaman, set. 25, who was admitted a few days ago. Has had ocassional rheumatic pains, but not so as to keep his bed, until cight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all swollen, tenue and tender. His tongue is furred; his skin, at present dry, though there has been much sweating. His pulse is full and strong, and about 90.—He has now used propylamine for twenty-four hours.

This gentleman is what may be called, strictly typical case of acute rheumatism. There was deposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating, so generally attiendant on acute rheumatism. I did not bring this patient before you with the intention of giving you a lockure on all the points connected with rheumatism, but to again give a trial to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there co uld not be a fairer opportunity for testing the medicine in question. We are, therefore, avoiding the use of all other medicines, even anolynes, that there may be no mingivings as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

June 9, 1860.—The next of our convalescents is the case of acute rheumatism before you at our clinic of May 36th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have neves seen as severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used. I feel bound to state that in the cases in which we have tried the Chloride o Propylamine, the patients in two regatived their health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condens extract, see the Philadelphia Medical and Surgical Reporter. It is the report after a fair trial by the best medical authority in this country, and makes it unnecessary to give numerous certificates from astonished doctors and rejoicing patients.

During that time I have been under the treatment of ten of the best Bootors in Harrisburg, Baltimore and Cumberland county; but all could not effect a cure. A little over a year past, going into my blacksmith shop after dark, I hurt my right leg also, below the sines. It is present all around the leg, and became a running sore. Several Dectors told me I most have my leg taken off, mortification having taken place. Fortunately I got a bottle of your Golden Electric Oil for my child's sore mouth. It cured so soon that I thought I would try it on my legs. I have been using it about six weeks, and my legs are now hoaled up—sound and well.

AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD. A ND for the speedy cure of the sub poined varieties of Disease :

Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLEND, Ind., 6th June, 1859.

J. C. ATER & Co., Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes to turned inwarf and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grow worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla.) for I know irom your reputation that any thing-you made must be good. I sent to Chaninasti and got it, and used it till it cured me. I took it, as yon advise, in small doese of a teaspoonful over a month, and used almost three bottles. New and healthy skin seen began to form under the scab, which after a while fell off my skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the sge, and remain ever graiefully. Yours, ALFRED B, TAILLEY.

I have cured many inveter atecases of Leucorrhesa by it, and some where the complaint was caused by siceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangeous coargas tessor on one of the females in my lamily, which had delied all the remedies we could employ, has at length been completely oured by your extract of Sarsaparitia. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains." Uterine Ulceration, Female Diseases.

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1959. NEW ORLEASS, 25th August, 1969.

Dr. J. C. Ayes: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects. I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercarial Disease. One of my patients had syphilitic ulcer in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured tim in three week. Another was attacked by secondary symptoms in his nose, and the ulceration had extended any considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again; not of course without some designarition to his face. A woman who had been treated for the same disorder by mercury was suffering from this poisson in her bones. reasted for the same disorder by mercury was suffering from this poisoo in her bones. Shey had become so sensitive to the weather that on a damp day she suffered exercicating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with it have not surprised me.

I think it a wonderful medicine.

Jules Y. Getchell, of St. Leuis. writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken down man for some years from no ther cause than derangment of the Liver. My beloved pastor, the Rev.
