PENNSYLVANIA HOSPITAL.

[From Official Hospital Exporse.]

May 19, 1860.—Rilem S., set. 23, single, never was very strong. Two years ago she had an attack of soute rheumatism, from which she was confined to her bed for two weeks and subsequently from a relapse for four more, She has been well since then till last Satur day, while engaged in house cleaning, she took cold, had pain in her back, left cold, hot had so decided chill. Two days later her ankles began so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of soute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a yell remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. Im an propylassine. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. In must confess I am always moredulous as to the worth of new remedies, which are vaunted as psecifies; but this comes to us recommended so highly, that we are bound to give it a trial. [FROM OFFICIAL HOSPITAL KAPORIS.]

SAME CASE FOUR DAYS LATER!

MAY 23, 1860.—I will now exhibit to you the patient for hom I prescribed Propylamine, and was then labor-ing under an attack of soute rheumatism. She has ing under an attack of soute rheumatism. She has steadily taken it in doses of three grains every two hours (intermitting it at night.) The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

Here is another patient who was placed on the use o Here is another patient wine was placed on the inge of the same medicine on Sunday last; she has long been suffering from a bronic rheumatism, and I found her at that time with an acute attack supervaning upon her obronic affection. The wrists and knuckles were much swollen and lease. She took the chloride of Propyla-mine in three grain doses every two hours, and you will perceive that the swelling of the joints has much dimin-ished.

THREE DAYS LATER!!

THREE DAYS LATER!

May 28, 1860.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very satisfactory results. The second case to which your attention as called at our last lecture, has also continued to do weir. I will now bring before you a very characteristic case of acute rheumatism, and if the result be satfactory, I think, as good jurymen, we shall justly render our verdict in favor of propylamins.

He is a seaman, set. 28, who was admitted a few days ago. Has had coastonal rheumatic pains, but bot so as to keep his bed, until cight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all swollen, tense and tender. His tongue is furred, his kin, at present dry, though there has been much sweating. His puties is full and strong, and about 90.—He has now used propylamine for twenty-four hours.

This gentleman is what may be called a strictly typloal case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular poin, beginning, as it usually does, in the low-r joines. There is fever and the profuse sweating, so generally attiendant on acute rheumatism. I did not bring this patient before you with the intention of giving you a lecture on all the points congected with rheumatism, but to again give a trial to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there or all other medicines, even anodynes, that there may be no misgiving as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

ceipt of the money for one or more or more dozen, the medicine, with cerificates and orders, will be forwarded by express, free of charge. In all cases the medicine is warranted to oure or give relief, or no charge. See certificates.

DR: W. BARK—DRAS IN:—As I have learned that you have purchased the right to manufacture and sell M'Connell's Golden Electric Oil, for the benefit of the afflicted with a running sore on my left leg for ten years, Buring that time I have been under the treatment of ten of the best bottors in Harrisburg, Baltimore and Cumberland county; but all could not effect a cure. A little over a year past, going into my blacksmith shop after dark, I hurt my right leg also, below the knee. It spread all around the leg, and became a running sore. Several Dectors to the control of the past bott of the running sore on my legt also, per lower of the past bott of the past bott of the past bott of the past bott of the past of the or propylamine, the patients have rezained their health musing it about six weeks, and my legs are now hasled up—sound and well.

AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD. A ND for the speedy cure of the sub-joined varieties of Discose:

Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions Pimples, Pustules, Blotches, Boils Blains, and all Skin Diseases.

Blains, and all Skin Discases.

Oakland, Ind., 6th June, 1859.

J. C. Arre & Co., Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scroiulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broxe out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grow worse. At length I was rejoced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla,) for I knew from your reputation that any thing you made must be good. I sent to Chamnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skn soon began to form under the scab, which after a while fell off my skin is now clear, and I knew by my feelings that the discase has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Yours,

Alfrigh B. Talley.

St. Anthony's Fire, Rose or Erysipelas Tetter and Salt Rheum, Scald Head Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble Writes from Salem, N. Y., 12th Sep., 1869, that he has cured an invotente case of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous at lack of Malignant krysipelas by large does of the same says he cures the common Eruptions by it constantly. Bronchocele, Goitre or Swelled Neck.

Zebulon Stoan of Prospect, Texas, writes: "Three bot-ties of your Sarsaparilla cured me from a Gerran—a hid-eous swelling on the neck, which I had suffered from over two years." Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channiag, of New York City, writes; "most cheerfully comply with the respect of your agent in saying I have found your sarsaparilla a most excellent alternative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrofulous disthesis. I have cured many inveter at cases of Leucorrhoes by it, and some where the complaint was caused by wiceration of the sterns. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous contain tissue" on one of the females in my tamily, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cuting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEASS, 25th August, 1959.

Dr. J. C. Ayes: Sir, I cheerfully comply with the request of your sgant, and report to you some of the effects I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the curs of Veneral and Mercurial Discuss. One of my patients and hyphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five week. Another was attacked by secondary symptoms in his nose, and the ulceration had eather a way a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so mensitive to the weather that on a damp day she suffered accruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla is a few weeks. I know from its formula, which you agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkebly results with it have net surprised me.

Fraierinkly years,

Rhenmatism, Gout, Liver Complaint. Dr. J. C. Atrac: Sir, I have been affilioned with a painful chronic Rheumatism for a long time, which baffied the skill of physicians, and stuck to me in spite of all the remedies I could in , until I tried your Sarsaparilla.—One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine.

J. PREAM. J. FREAM.

Jules Y. Getchell, of St. Louis. writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every: thing, and every thing lailed to relieve me; and I have been a broken down man for some years from no ther cause than decrangments the Liver. My beloved pastor, the Rev. Mr. Egpy, advised me to try your Sarsaparrills, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cared me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where curs of these formidable complaints have resultorm the use of this remedy, but one space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia. Many remarkable ourse of these affections have been made by the alternative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness Group, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients . in advanced Stages of the Disease

A This is a remedy so universally known to surpage any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderinl cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their minst of its victory over the subtle and dangerous disorders of the throat and lungs. some away from in their mosts of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
