REAL THE FOLLOWING TESTIMONY;

[FROM OFFICIAL HOSTITAL REPORTS.]

MAY 19, 1860.—Kiles S., st. 28, single, never was very strong. Two years ago she had an attack of acute rhousing tism, from which has was confined to her bed for two weeks and subsequently from a relapse for four more. She has been well since then till hast Satur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had no deeded chill. Two days later her ankles began so swell, which was followed by swelling of the lance joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is moet so. This, then, is a case of scute rheumatism, or, as it is new fashionably called, rheumatic fever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attaction to do a remedy which has recently been. Jecommended in the treatment of rheumatism. Im han propriamize. Dr. Awenarism, of St. Petersburg, recommends it in the highest terms, having derived great conefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and i propose therefore to give it another trial I must confess I am always moredulous as to the worth of new remedies, which are vaunted as apscides; but this comes to us recommended so highly, that we see bound to give it a trial. Jas. L. Bruhjey, merchant, 184 Fulton street, New York, writes, Avgust 18, 1860: "I have been afflicted with piles, accompanied with bleeding, the last three years; I used

DARLINGE LIVER INVIGORATOR

LIFE BITTERS, and now consider myself surresty ourse. Hon, John A. Gross writes, "Brooklyn, March 16, 1860. in the spring of 1889 I took a severe cold, which induc-id a violent fever. I took two doses of DARLING'S LIVER REGULATOR.

s broke up my cold and fever at once. Previous to this stack, I had been troubled with dyspepsia several nonths; I have seit nothing of it since." Olis Studly, Esq., 128 East 28th Street, N. T., writes:
"August 12, 1860—I had a difficulty with Kidney Comvisint three years with constant pain in the small of my
back. I had used most all kinds of medicines, but found
ao permanent relief until I used

DARLING'S LIVER INVIGORATOR,

LIFE BITTERS. I passed clotted blood by the urethra. I am now en-tirely cured, and take pleasure in recommending these

MAY 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propytamine, and was then laboring under an attack of acute rheumatism. She has steadily taken it in doese of three grains every two hours (intermitting it at night.) The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attacts. (The patient now walked into the room.) The improvement has atcadily progressed, and you cannot fall to notice a marked change in the appearance of her joints, which are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemed, we must wat a little while before we can give a dedited opinion as to what is to be the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from a broule rhounding, and I found her at that time-with an acute attack supervening upon her chronic affection. The wrists and knuckles were much swollen and leese. She took the chloride of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished. Mrs C. Tobow, 11 Christopher Street, N. Y., writes 15eb 20, 1860.—I have been subject to attacks of Asthmat the last twenty years. I have never found anything

Darling's Liver Regulator, n affording immediate relief. It is a thorough Liver and illious remedy."

Mrs. Young, of Brooklyn, writes, "February 28, 1860. In May last i nad a sovere attack of Files, which confin-ed me to the house. I took one bottle of DARLING'S LIFE BITTERS

and was entirely cured. I have had no attack since. D. Westervelt, Ecq., of South 5th, near 9th Street, Williamsburg, L. I., writes: "August 5, 1850.—Raving been troubled with a difficulty in the Liver, and subject to billious attacks, I was advised by a friend to try DARLING'S LIVER REGULATOR,

did so, and found it to operate admirably, removing the bile and arousing the liver to activity. I have also used FAMILY MEDICINE.

When our children are out of sorts, we give them a few drops and it sets thom all right. I find it meets the general wants of the stomach and bowels when disorder-ed."

THREE DAYS LATER!!

MAY 28, 1860.—This is the case of acute rhoumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very satisfactory results. The second case to which your attention was called at our last lecture, has also continued to do welc. I will now bring before you a very characteristic case of acute rheumatism, and if the result be satfactory, I think, as good jurymen, we shall justly render our verdict in favor of propylamin.— He is a seaman, set, 26, who was admitted a few days ago. Has had ocasional rheumatic pans, but not so as to keep his bed, until cight days ago. The pains began in his right knee, subsequently affected she left knee, and later, the joints of the upper extremities. These joints are all swollen, tense and tender. His tongue is forred jis skin, at present dry, though there has been much sweating. His pulse is foll and strong, and about 90.—He has now used propylamine for twenty-four hours.

This gentleman is what may be called a strictly typical case of acute rhaumatism. There was exposure to cold and wel, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There is favor and the profuse sweating, so generally attendant on soute rheumatism.

I did set bring this patient before you with the intension of giving you a lecture on all the points connected with rheumatism, but to again give a trial, to the year for the strong and to exhibit to you this typical case, as I have called it, than which there co all other medicines, even anolynes, that there may be no emisglying as to which was the efficient remady. You shall see the case of a future clinic. PRIENNIAL APPEALS FOR 1862 THE under igned Commissioners of
