[FROM OFFICIAL HOSPITAL REPORTS.]

MAY 19, 1860.—Ellea S., æt. 28, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks and subsequenty from a relapse for four more. She has been well since then till last Satur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had ao decided chill. Two days later her ankies began so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. Im an propylamins. Dr. Awenarius, of St. Petersburg, recommends it in the highest torms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journars, and I propose therefore to give it another trial. I must confess I am always incredulous as to the worth of new remedies, which are vaunted as specifies; but this comes to us recommended so highly, that we are bound to give it a trial. (FROM OFFICIAL HOSPITAL REPORTS.)

SAME CASE FOUR DAYS LATER!

SAME CASE FOUR DAYS LATER!

May 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propytamine, and was then laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains every two hours (intermitting it at night.) The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from c bronic rheumatism, and I found her at that time with an acute attack supervening upon her chronic affection. The wrists and knuckles were much swollen and tense. She took the chloride of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

THREE DAYS LATER!!

MAY 26, 1860.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very satisfactory results. The second case to which your attention was called at our last lecture, has also continued to do well. I will now bring before you a very characteristic case of acute rheumatism, and if the result be satisatory, I think, as good jurymen, we shall justly render our verdict in favor of propylamin. He is a seaman, set. 26, who was admitted a few days ago. Has has ocassional rheumatic pains, but not so as to keep his bod, until eight days ago. The pains began in his right knes, subsequently affected the left knee, and later, the joints of the upper extremities. Those joints are all swollen, tense and tender. His tongue is furred; his skin, at present dry, though there has been much sweating. His pulse is full and strong, and about 90.—He has now used propylamine for twenty-four hours.

This gentleman is what may be called a strictly typical case, of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. THE RESULT.

A FAVORABLE VERDICT.

JUNES, 1860.—The next of our convalescents is the case of acute rheumatism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very cicely, and is now able to walk about, as you see. I do not hesitate to say that I have neves seen as severe a case of acute rhaumatism bave neves seen as severe a case of acute rheumatism so soon restored to health as this man has been, an without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride o Propylamine, the patients have regained their health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it,

DR. W. BARR—DRAR SIR:—As I have learned that you have purchased the right to manufacture and sell M'Connell's Gotden Electric Oil, for the benefit of the afflicted, I send the following:—I have been afflicted with a runing sore on my left log for ten years, During that time I have been under the treatment of ten of the best Doctors in Harrisburg, Bailmore and Cumberland county; but all could not effect a cure. A little over a year past, going into my blacksmith shop after dark, I hurt my right leg also, below the knee. It spread all around the leg, and became a running sore. Several Doctors told me I must have my leg taken off, mortification having taken place. Fortunately I got a bottle of your Golden Electric Oil for my child's sore mouth. It cured so soon that I thought I would try it on my legs. I have been using it about six weeks, and my legs are now healed up—sound and well.

Blains, and all Skin Diseases.

OARLAND, I.d., 6th June, 1852.

J. C. AYKE & Co., Gents: I feel it my duty to acknow, edge what your Sarsaparilla has done for me. having inherited a Scrolulous infection, I have sufficed from it in various ways for years. Sometimes it bursteet in Ulcers on my hands and arms; sometimes titred in ward and distressed me at the stomach. Two years as it broke out on my head and covered my scarp and ear with one sore, which was painful and tathsome by food description. I tried many medicine, and several this cians, but without muou relef from anything. In lact, the disorder grew worse. At length I was rejocated read in the Gospel Messenger that you had prepared alternative (Sarsaparila,) for I knew from your relutation that anything you make must be keed. First to Cincinnati and got in, and use it util it cured me. I took it, as you advise, in small doses of a tuspe arm over a mouth, and used almost three touties. New minheaithy skin soon began to form under the scal, which after a while fell off, my skin is now clear, and I know by my feelings that the disease has gone from my System. You can well believe that I feel what I am saying with I tell you, that I hold you to be one of the apostes of the age, and remain ever gratefully. Yours.

Ringworm, Sore Eyes, Dropsy. Dr. Robert M. Proble writes from Salem, N. Y. 1-th Sep., 1859, that he has cured an inveterate case of from sy, which threatened to terminate fatally, by the persevering use of our Sarsapharila, and also a dangerous attack of Malignant trysupelas by large doses of the sansaps he cures the common Eruptions by it constantly.

Zebulon Siona of Prospect, Texas, writes: "Inrec booties of your Sarsaparills cured me from a Gerrax—a headens swelling on the neck, which I had suffered from over two years."

Leucorrheea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases. Dr. J. B. S. Channing, of New York City, writes; most cheerfully comply with the respect of your again in saying I have found your parsaparnia a motescener alternative in the numerous companies for which we constitute the property of the property of the constitution alternative in the numerous complaints for which we capploy such a remedy, but especially in Female Distance of the Scrotdious disthesis. I have cured many inveterate cases of Leucorrhosa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these lemale derangements."

Extwart S. Marrow, of Newbury, Ala, wines, "A dangerous orarian tumor on one of the females in my lamily, which had delied all the remedies we could employ, has at length been completely cured by your extractors as aparilla. Our physician thought nothing but extition could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remeay eight weeks no symptom of the disease remains."

NEW ORIZANS, 25th August, 1959

Dr. J. C. ATER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects. I have realized with your sarsaparilla.

I have oursed with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and hereourial Disease. One of my patients bad syphilitic ulers in his infreat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taked, cured him in tive week. Another was attacked by secondary symptoms in his nose, and the ulcers from had eaten away a considerable part of it, so that refleve the disorder would soot, reach his brain and kin. .im. But it yielded to my administration of your Earsaparilla; the ulcers healed, and he is well again, not of course without some distinguration to his face. A woman woo had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp my she suffered exeruciating main in her joints and bones. She, too, was oursel entirely by your Sarsaparitla is a few weeks. I know from its formula, which you agent gave me, that this Preparation from your laboratory must be a gre it remedy; consequently, these truly remarkeble results with the have not surprised me.
