BARRISBURG, PA Wednesday Afternoon, April 16, 1862.

A DAY STAR.—The planet Venus is said to be visible in the day time to sharp-sighted people, who have the patience to discover her. At who have the patience to discover her. At noon, on a clear day, she may be found, after a long hunt, a little west of south, and about the greened it in the remaining hand and held it, was shot off; but before cents up to 87 cents; 40 pieces of beautiful Curtain muslin, very cheap; splendid black silks at 75 cents, worth 90 cents; good black

THE STATE FAIR. -- We alluded yesterday to the fact that a committee of the State Agricul. tural Society had invited competition from the several towns and cities in the State for the location of the next annual Fair of the Society, which is proposed to be held some time in October or November. Our citizens should make a note of this.

THE GREAT REBELLION.—Our friend, Harry Davis, the artist, is now engaged preparing the d'armee. In addition to the above, are Capt. canvass for several new sections which he intends adding to his panorama of the great rebellion. The sections will embrace scenes of all the battles and important events in the history of the rebellion since the "run" of the rebels at Roanoke Island, which, with those already painted, will give an uninterrupted pictorial representation of the war since the bombardment of Fort Sumter.

PILLS FOR THE REBELS, -A train of cars loaded with thirteen inch mortars and shells went east, a few days since intended for General McClellan. They were the largest size made, we believe, and were truly formidable looking weapons. She same kind were shipped west last winter, for the gunboats then being fitted out at Cairo. So it is not improbable that General McClellan intends to give the rebels in Virginia a taste of that arm of the service, as it has proved so efficient on our western waters.

THE DEAD BODY OF AN INFANT FOUND .- The dead body of an infant, apparently only a few days old, was dug up this morning by some boys on the river bank at the western enclosure | finds a market here, but the greater portion of of the Harris Park. The body was wrapped in a small piece of calico, inclosed in what seemed to be a segar box, and had been buried for several weeks. A medical gentleman present shortly after the discovery of the body, gave it by their rough and rugged exterior. They as his opinion that the child had been born alive. An inquest was held over the remains, but we did not learn the conclusions arrived at other business houses. The young men are inby the jury.

STRANGE MEETING .-- A few days since a deputy sheriff of a western county arrived at Pittsburg having in charge an alleged insane man, affection? The "Yankees" seem to behave city. For reasons not necessary to state, the deputy enlisted for three years or the war. On Friday last, four days after he arrived at Pittsburg, he was sent to this city with a squad preparatory to being sent to his regiment, and when seated in the car, was surprised to hear his alleged insane prisoner of a few days before answer to his name as a soldier. They were both enlisted, and are now in this city learning the mysteries of the manual. It tells well for the energy of the recruiting officer at Pitts-

THE MARKET this morning was well supplied, forced vegetables being abundant, and consider. ing the cost of raising them, quite cheap .-Salad, radishes, onions and other provocatives of appetite, were selling at scarcely more than summer prices, while spinach was unusually cheap and abundant. Life has been compared to a fountain fed by a thousand streams, and two of the principal ones, as we take it, are beefsteak and onions. A man who can afford disgusting vulgarity, interlarded with oaths these need not be afraid of affording all the others. The poetics of life are very lowly prized, and may be found in almost every corner. When the kitchen is savory and smiling, the boudoir generally maintains a corresponding degree of amiability. It isn't bear upon them. Let the habit, then, be disso much the parlor that ruins people as the

LECTURE LAST EVENING .- The fourth lecture of the series, got up under the auspices of the Young Men's Christian Association, of this city, was delivered in the English Lutheran church, last evening, before a large and intelligent audience. The lecturer chose a familiar and fruitful theme-"Reminisences of a Residence in Germany." The Reverend Doctor. while abroad, had admirable facilities of studying the literary, social and public life of the German people in "The Faderland;" visited its renowned universities, became familiar with its college life and personally acquainted with some of its most renowned men. This knowledge. together with a fund of entertaining and illustrative anecdotes, made his lecture highly shirts, 50 cts; under shirts and drawers, 40 entertaining and instructive. The series of lectures delivered before the Yong Men's Christian Association have thus far been very successful and have given general satisfaction. The Society may N. ADVANCE LODGE No. 39, I. O. of Good Templars, will hold a stated meeting in their hall, and South street, at 71 o'clock this evening .-Punctual attendance is requested.

Colonel Stambaughs regiment is not in Negley's division, the other two are. Stambaugh's is in the fifth brigade, (General McCooks,) of Buell's corps Palmer's Independent cavalry company, (attached to Buell's headquarters,) and Colonels Wynkoop's and Williams' cavalry regiments from this State.

Interesting Astronomical Fact.—Two persons were born at the same place, at the same moment of time. After an age of fifty years bombardment of Fort Sumter.

EASTER HOP.—The Liederkrantz singing association will give a grand social soiree in Frisch's new building, Market street, next Monday evening. The soirees of the Liederkrantz are always well attended, and contribute largely to the enjoyment of our German friends. The musical selections for the "hops" are of the highest order, being extracts from favorite English and Italian operas, and are greatly admired by the audience. We expect to see an unusually large and fashionable audience at the party next Monday night.

they both died, also at the same spot, and at the same instant, yet, one of them lived one hundred days more than the other. How was this possible? Not to keep our friends in suspense, the solution turns on a curious, but, with a very little reflection, a very obvious point in circumnavigation. A person going round the world to the west, looses a day, and toward the east, he gains one. Supposing, then two persons born at Cape of Good Hope whence a voyage around the world may be performed in a year; if one perform this constantly towards the west, in fifty-one years he performed in a year; if one perform this constantly towards the west, in fifty-one years he performed has the name "William A. > THE LUMBER TRADE. - The Susquehanna during the past few days has been well filled with rafts of lumber, quietly and slowly floating to market. The "run" has been very heavy, and unless prevented by extra high water, we may expect i s continuance for several days. Much of the lumber, shingles, &c., it passes down the river to Columbia and Tide-

water. The city now contains at least a regiment of sturdy raftemen, who are known at a glance have money to spend, and are leaving considerable quantities in the clothing stores and vesting in cheap jewelry from the prize medicine stands around the depot, and won't their sweethearts smile when these " costly gems" are laid in their laps as tokens of unchanging themselves with unusual propriety. We have seen no drunkenness or disorder among them as yet, and if they leave without "kicking up a shindy" tuey will exhibit quite an improvement in morals. The Northern Central railroad company will reap a harvest this week, carrying these men back to their homes, one or two hundred leaving by almost every train.

PROFANITY: In this age of Young American go-a-head-activeness, says our reportorial cotemparary of the Lancaster Express. many vices have lived and gone almost unrebuked so long as to become common with both old and young and among these none is more glaving or more degrading than the habit of profane swearing -an example which is too often set to the youngsters by their elders, who ought to know better. These thoughts were suggested or rather brought into greater activity by hearing two little boys, scarce either of them twelve LARGE SALE OF NURSERY STOCK years old, abusing each other with the most which sounded fearfully from lips so youthful Now this habit in the children is not to be cured by precept alone; no matter how strictly children are taught, example will prove more than all reason, advice and threats brought to couraged by every one. It is both foolish and degrading, and when those who practice it reflect upon the subject for a moment they cannot fail to see its utter uselessness. Many men use expressions which they know are not proper, but the habit has become strong and hard to break, and so they go on, without thinking of the consequences to the rising generation. The instance referred to would never have shocked the ears of the passer-by. Let their elders remember to set the example of abstainence from the use of such language and we will not find it in the children.
