To STRANGERS.

The many thousands cured at this institution within the last twelve years, and the numerous important Surgica operations performed by Dr. J., witnessed by the reporters of the papers, and many other persons, notices of which have appeared again and again before the public, besides his standing at a peralteman of character and responsibility, is a sufficient guarantee to the afflicted.

DINEASES OF IMPRUDENCE.—When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this patiful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability can alsen befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, affecting the head, throat, nose, skin, &c., progressing on with frightful rapidity, till death pruts period to his dreadful sufferings by sending him to "that bourne from whence no traveler returns." It is a melancholy fact that thousands fall victims to this terrible disease, owing to the unskilfulness of ignorant pretenders, who, by the use of that deadly posion, mercary, ruis the constitution and make the residue of life miserable.
