PENNSYLVANIA HOSPITAL. [FROM OFFICIAL HOSPITAL REPORTS.]

[FROM OFFICIAL HOSTITAL REFORMS.]

MAY 19, 1860,—Ellen S., set. 28, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks and subseqently from a relapse fer four more. She has been well since then till last Satur day, while engaged in house cleaning, ahe took cold, had pain in her back, felt cold, hot had no decided chill. Two days later her ankles began so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. I mean propylamine. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confess I am always noredulous as to the worth of new remedies, which are vanned as specifies; but this comes to us recommended so highly, that we are bound to give it a trial. but this comes to us recommand to give it a trial.

SAME CASE FOUR DAYS LATER!

SAME CASE FOUR DAYS LATES!

May 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was then laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains every two hours (intermitting it at night.) The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The Improvement has steadily progressed, and you cannot fall to notice a marked change in the appearance of her joints, which are now nearly all of their natural size.—
Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

the result.

Here is another patient who was placed on the use of
the same medicine on Sunday last; she has long been
suffering from c bronic rheumatism, and I found her at that time with an acute attack supervening upon her chronic affection. The wrists and knuckles were much swollen and tense. She took the chloride of Propplamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

MAY 26, 1860.—This is the case of acute rheumatism treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very satisfactory results. The second case to which your attention was called at our last fecture, has also continued to do well I will now bring before you a very characteristic case of acute rheumatism, and if the result be satisfactory. It hink, as good invremen, we shall instity render

do well I will now bring before you a very characteristic case of noute rheumatism, and if the result be satisfactory, I think, as good jurymen, we shall justly render our verdict in favor ef propylamin

He is a seaman, st. 28, who was admitted a few days ago. Has hal occasional rheumatic pams, but not so as to keep his bed, unul eight days ago. The pains began in his right kuee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all swollen, tense and tender. His tongue is furred; his skin, at present dry, though there has been much sweating. His pulse is full and strong, and about 90.—He has now used propylamine for twenty-four hours.

This gentleman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, swere articular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating, as generally attendant on acute rheumatism. I did not bring this patient before you with the intention of giving you a lecture on all the points connected with rheumatism but to again give a trial to the new remedy we are tealing, and to exhibit to you this typical case, as I have called it, than which there or lid not be a fairer opportunity for testing the medicine in quesion. We are, therefore, avoiding the use of all other medicines, even anodynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case or a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

JUNE 9, 1860.—The next of our convalescents is the case of acute rheumatism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily when in these graph decays agray two hours for how down was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given to three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as yousee. I do not hesistate to sry that I have neves seen as severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chioride o Propylamine, the patients nave regained their health much earlier than under the treatment ordinarily pursued. I wish gentlemon, you would yourselves try it, and report the results.

For a full report of which the above is a condensed extract, see the Philadelphia Medical and Surgical Reporter. It is the report after a fair trial by the best medical authority in this country, and makes it unnecessary to give numerous certificates from astonished docto and rejoicing patients.

Dr. W. Barr—Bran Sir :—As I have learned that you have purchased the right to manufacture and sell M Connell's Golden Electric Oil, for the benefit of the afflicted, I send the following :—I have been afflicted with a running sore on my lett leg for ten years. During that time I have been under the treatment of ten of the best Doctors in Harrisburg, Baltimore and Cumberland county; but all could not effect a cure. A little over a year past, going into my blacksmith shop after dark. I hart my right leg aiso, below the knee. It spread all round the leg; and became a running sore. Several Doctors told me I must have my leg taken off, mortification having taken place. Fortunately I got a bottle of your Golden Electric Oil for my child's sore mouth. It cured so soo a that I thought I would try it on my legs. I have been using it about six weeks, and my legs are now healed up—sound and well.

We, the undersigned, who are well acquainted with Elisha T. Houch, do certify to the fact as stated above, and the beneficial effects of M'Connell's Golden Electric Oil on many of our neighbors.

Sometimes it burst out in Ulcers on my hands and arms; sometimes turted inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp ann earn with one sore, which was painful and loathsome beyond description. I tred many medi ine, and several physicians, but without much rel of from allything. In lact, the disorder grew worse. At high! I was rejoced to read in the Gostel kessenger that you had prepared en alternative (Sarsaparina,) for I knew from your reputation that anything you make must be good. I sent to Clinc mant and got in, and use it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a mouth, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off, my skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the a soiles of the age, and remain ever gratefully. Yours,

ALFRED B. TALLEY.

Dr. J. B. S. Channing, of New York City, writes; "most cheerfully comply with the respect of your agent in saying I have lound your sarsaparila a motexcellent alternative in the numerous compliants for which we employ such a remedy, but especially in Female Diseases of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrheas by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals. for these lemale derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous contrain tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your extract of sarsaparilis. Cur physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy sight weeks no symptom of the disease remains." Uterine Ulceration, Female Diseases.

Syphilis and Mercurial Disease.

Dr. J. C. ATRR: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your sarsaparula.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Venreal and Mercural Disease. One of my patients had syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in live week. Another was attacked by secondary symptoms in his nose, and the ulcerten had eaten away a considerable part of it, so that believe the disorder would soor leach his brain and kin him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. Hey had become so sensitive to the weather that on a damp day she suffered exeruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla is a few weeks. I know from its formula, which you agent gave me, that his Preparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with it have not surprised me.

Fraternally yeurs,
