JUNN 9, 1860.—The next of our convalescents is the case of acuto rhoumatism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain disce every two hours for four days. The patient has got along very blocky, and is now able to walk about, as you see. I do not besitate to say that I have neves seen as severe a case of acute rhoumatism to soon restored to health as this man has been, and without being prepared to decide positive by as to the val-ne of the remedy we have used. I feel bound to state that in the cases in which we have tried the Chloride o Propylamine, the patient; have regained their health much carller than under the treatment ordinarily pur-sued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condens extract, see the Philadelphia Medical and Surgical R. porter. It is the report after u fair trial by the best me ical authority in this country, and makes it unnecessa to give numerous certificates from astonished docto and rejoicing patients.

A SPEEDY OURE, AN EFFECTUAL OURE. THE SAME RESULT

. WHAT IT HAS DONE,

Bullook & Grenshaw, a firm well known to most meet cal men, by whom the Elixir Propylamine has been i troduced, have sold to us the exclusive right to manufa ture it according to the original recipe, and we have made arrangements of such magnitude as to enable to scatter it broadcast amongst suffering humanity.

A WORD TO DOCTORS. If you preter to use the same eraedy in another for

we invite your attention to the BURB CRYSTALIZED CHLORIDE PROPYLAMINE, PURE PROPYLAMINE LIQUID, PUER PROPYLAMINE CONCENTRATED,
