Young Men

Young Men Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an unimely grave thou ands of Young Mon of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence or waked to ecstasy the living lyre, may call with full confidence.

Marriage. Married Persons, or Young Men contemplating marriage, being aware of physical weakness, organic debitity, deformities, &c., speedly cured.

He who places bimself under the care of Dr. J. may religiously confide in his bonor as a gentleman, and confidently rely upon his skill as a Physician.

Organic Weakness
Immediately Cured, and full vigor Restored.
This distressing Affection—which renders I lie miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excerses from not being aware of the dreadful consectences that may ensue. New, who that understands the subject will pretend to deay that the power of procreation is lost scooper by those falling into improper habits than by the prudent? Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the Physical and Mental Functions Weakned, Loss of Procreative Power, Nervious Irratibility, Dyspepsis, Palpitation of the Heart, Indigestion, Constitution 1 Debility, a Wasting of the Frame, Cough, Consumption, Decay and Death.

A Cure Warranted in Two Days. Organic Weakness

A Cure Warranted in Two Days. No Mercury or Naussous Drugs, Dr. Johnson,

Member of the Reyal College of Surgeons, London, Graduate from one of the most eminent Colleges in the United States, and the greater part of whose life has been apent in the hospitals of London, Paris, Philadolphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden counts, bashfulness, with frequent blushing, attended sometimes with derangement of mind were cured immediately.

were cured immediately.

Take Particular Notice.

Dr. J. addresses all those who have injured themselves by impreper indulge-ce and solitary habits.

both body and makely nations who have rether business, but the property society or marriage.

These are some of the sad and melancholly effects produced by early habits of youth, viz: Weskness of the Back and Limbs, Palas in the Head, Dinness of Sight, loss of Muscular Power, Palpitation of the heart, Dyspepsy, Nervous Irratibil ty, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.,

MENTALLY.—The fearful effects on the mind are muc to be dreaded—Loss of Memory, Confusion of Ideas, De-pression of Spirits, kyil Forbodings, Avers on to Scorety, Self Distrust, Love of solitude, Timidity, &c., are some of the cells produced. the evils produced.
Thousands of persons of all ages can now judge what

becoming weak, pale, nervous and emaclated, having a singular appearance about the eyes, cough and symptoms of consumption.

Young Men

Who have injured themselves by a certain practice indujed in when alone, a habit frequently learned from ord companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately. What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prespects and enjoyments of life, by the conrequence of deviating from the path of nature and indulging in a certain secret habit. Such persons wur, before contemplating

Marriage,

reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life broomes a weary pligrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the metancholly refl. ction that the happiness of another becomes blighted with our own.

Disease of Imprudence.

When the mi-guided and imprudence.

When the mi-guided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often hapens that an ill-timed sense of shame or dread of discovery, deters him from applying to those who, from cluestion and respectability, can alone be-friend him, delaying till the constitutional symptoms on this horr d disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of signt, dealness, nodes on the shin bones and arms, blotches on the had, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fail in, and the victim of this awful disease become a horrid object of commiseration, till death puts a period to his dreadful suilerings, by sending him to "that Urdiscovvered Country from whence no traveler returns."

It is a melancholly fact that thousands fall victims to this terrible disease, owing to the unskilfuliness of ignorant pretendars, who by the use of that Deadly Poison, Morcury, ruin the consultation and make the residue o life miserable.

Strangers. Trust not your lives, or health, to the care of the many Unlearned and Worthiess Pretenders, destitute of knowledge, name or characler, who copy Dr. Johnson's adververtisements, or style tiemselves in the newspapers, regularly Educated Physicians incapable of Curing, they keep you trifling month after moath taking their filting and poisonousness compounds, or as long as the smallest fee can be obtained, and in despair, leave you with ruin-od health to sigh over your galling disspontment. Dr. Johnson takhe only Physician advertising. His oredential or diplomas always hangs in his office. His remedies or treatment are unknown to all others, prepared from a life spent in the great hospitals of Europe, the first in the country and a more extensive Private Practice than any other Physician in the world.

SPEECH OF CONGRESSMAN WOOD. The Recent Order in Reference to Telegraphic

Despatches from Cairo.

Colonel Corcoran to be Exchanged

Washington, May 16. The Senate to-day confirmed the nomination of Brevet Major General Wool to be Major General of Army for gallant conduct on the tenth of May, in taking the city of Norfolk and for other gallant services; also of Charles

The mails for New Orleans will be made at Leave New York at 7½ P. M., by the Fast New York, to be forwarded by sea on every steamer which may leave for that port.—
Therefore, the communication between these cities will be frequent. Postmasters are requested to forward all mail matter for New Orleans to the New York post office.

Isaac Newton, at present connected with the Agricultural branch of the Patent Office, has beed nominated by the President as Commissioner of Agriculture, under the recently passed law establishing a Department of Agriculture. Benjamin Wood not wishing to consume the time of the House in the delivery of his speech on the condition of the Union, obtained permission to print it. He says it has been left to him to speak the first conciliatory word in behalf of his suffering countryman. There were gentlemen within his vision whose sworn purpose and greatest desire, paramount even to the preservation of the republic is emanci-pation. They first applied the torch, and are now more busy than ever with throwing fresh

will bear the inscription of their names.

In place of making the negro question the subject-matter of debate, Congress should take into earnest and solemn consideration some expedient for securing peace. He believed that success would crown their efforts. An honorable peace was within their gream, and when the people shall realize that it is only the infamous design to strengthen the anti-slavery movement which prevents an effort to obtain peace, we to

HEADQUARTERS OF THE THIRD DIVISION, Huntsville, Ala., Camp Tyler, May 15. Huntsville, Ala., Camp Tyler, May 16.
To Hon. Ed. M. Stanton, Secretary of War:—At 6 P. 25, on the 18th inst., Gen. Negley's expedition from Pulaski, supported by Ool. Little's expedition from Athens, entered Rogersville, driving the enemy scross the Tennessee and destroying aportion of their ferry boats.

Having leanned of the approach of Colonel Little's forces the enemy succeeded in removing their artillery, baggage and stores before the arrival of Gen. Negley.

I expected an obstinate defence at the passage of the Elk river and accompanied in person

of the Elk river and accompanied in person Col. Little's expedition, but without crossing. The enemy, as usual, fled at our approach. I ordered on vesterday an expedition to move promptly from Rogersville to seize the bridge across Shad creek and the ferry below the mouth of the same stream. This duty has

been promptly executed and the ferry and bridge are ours. No more troops will enter from that region,

and we have now upon this side twelve or fifteen hundred of the enemy in bands of three or four hundred, whom we will endeavor to hunt down and destroy or capture.

The gunboat which I have extemporized will be ready for service to-day, and I will soon be able to pay my respects to the enemy in the eastern side of this region under my command. O. M. MITCHELL, (Signed)
