FERM OFFICIAL HOSPITAL REPORTS.]

MAY 19, 1860,—Ellen S., æt. 28, singlé, naver was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks and subsequently from a relapse for four more. She has been well since then till has Satur day, while enguged in house cleaning, she took cold, had pain in her back, fell cold, hot had so dedded chill. Two days later her ankies began so swell, which was followed by swelling of the knee jouts and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; shoth hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashlousbly called, rheumatic fever. It is a well remurged typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. I mean propylamine. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived groat beanfit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it ancher trial. I must confess I am always incredulous as to the worth of new remedies, which are vaunted as a pecifies; out this comes to us recommended so highly; that we are bound to give it a trial. [FROM OFFICIAL HOSPITAL REPORTS.]

### SAME CASE FOUR DAYS LATER!

SAME CASE FOUR DAYS LATER!

SMAY 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propytamine, and was then laboring under an attack of acute rheumatism. She has steadily taken it in doses of three gratis every two hours, intermiting it at night.) The day rifer you saw her, i found her much more comfortable, botter than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fall to notice a marked change in the appearance of her joints, which are new nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentiemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

the result.

Here is another patient who was placed on the use of all same medicine on Sunday last; she has long been suffering from a pronic rheumatism, and I found her at that time with an acute strack supervening upon her chronic affection. The wrists and knuckles were much swellen and tesse. She took the caloride of Propylamine in three grain doses every two hours, and you will perceive that the sweiling of the joints has much diminshed.

### THREE DAYS LATER!!

MAY 26, 1860.—This is the case of acute rheumatism treates with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seem d to be followed by very satisfactory results. The second cise to which your attention was called at our last iscaure, has also continued to dwel! I will now bring before you a very characteristic case of acute rheumatism, and if the result be saled on think as good invoice, we small institute has a

do well. I will now bring before you a very charactoristic case of acute rheucation, and if the result be satfactory, I think, as good jurymen, we small justly renier our verdict in favor of propylamin.

He is a seaman, set. 25, who was admitted a few days ago. Has had ocassional rheumatic pains, but not so as to keep his bed, until eight days ago. The pains began in his right knee, subsequently addeded the left knee, and later, the joints of the upper extremities. These joints are all swoiten, come and tender. His tongue is furrad; his skin, at present dry, though there has been much sweating. His pulse is full and strong, and about 90.—He has now used propylamine for twenty-four hours. This gentleman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe urticular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse aweating, so generally attlendant on acute rheumatism. I did not bring this patient before you with the intention of giving you a lecture on all the points connected with rheumatism, but to again give a triai to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there co induct a fairer opportunity for testing the medicine in question. We are, therefore, avoiding the use of all other medicines, even anolynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case of a future clinic.

### THE RESULT.

### A FAVORABLE VERDICT.

JUNE 9, 1860.—The next of our convalescents is the case of acute rheumatism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to yalk about, as you see. I do not bestate to say that I have never seen as severe a case of acute rhou satism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride o Propylamine, the patients have regarded their health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condensed extract, see the Philadelphia Medical and Surgical Reporter. It is the report after a fair trial by the best med-

Blains, and all Skin Diseases.

OAKLAND, Ind, 6th June, 1859.

J. C. AYER & Co., Gouts: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for Jears. Sometimes it hurst out in Ulcars on my hands and arms; sometimes turted in ward and distressed me at the stomach. Two years ago it broke out on my head and covered my scaip and sers with one sore, which was painful and loathsome beyond description. I tred many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gosjel Ressenger that you had prepared an alternative (Sarsaparilla,) for I knew from your reputation that anyth mg you make must be good. I see, to Cinc must and got it, and use it till it cured me. I took it, as you ndrive, in small doses of a teaspoculum over a mouth, and used almost three bottles. Act wand healthy skin soon began to form under the scab, which after a while fell off, my skin is now clear, and I know by my feelings that the disease has gone from my system you can well believe that I feet what I am saying vies. I tell you, that I hold you to be one of the ajostles of the age, and remain ever gratefully. Yours,

Dr. J. B. S. Channing, of New York City, writes; most cheerfully comply with the respect of your agent in saying I have found your sarsaparina a most excellent alternative in the numerous compliants for which we employ such a remedy, but especially in Female Diseases of the Serofulous diathesis. I have cured many investigate cases of Leucorrheau by it, and some where the complaint was caused by ulceration of the ulcerus. The ulceration itself was soon cured. Nothing within my knowledge equals. For these tenule derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ouarian tumor on one of the tenuses in my tamily, which had detted all the remedies we could employ, has at length been completely cured by your extract of Sarsaparilla. Our physical thought nothing but extripation could afferd relief, but he advised the trial of your sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

## Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1959

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects! I have realized with your Sarsaparila.

I have cored with it, in my practice, most of the complaints for which it is recommended, and have found age effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients and syphilical and the top of his mouth. Your Sarsaparilla, stea dity taken, cured him in two week. Another was attacked by secondary symptoms in his nose, and the ulcers too had esten away a considerable part of it, so that realieve the disorder would soot, cann his brain and kin. Im. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman won had been treated for the same disorder by mercury was suffering from this poisson in her bones. They had become so sensitive to the weather that on a damp day site suffered excruciating main in her joints and bones. She, too, was cured entirely by your Sarsaparilla to a few weeks. I know from its formula, which you agent gave me, that the Proparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with it have not surprised me.

Fraternally yours,

Jules Y. Getchell, of St. Louis. writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing and everything lailed to relieve me; and I have been a broken down man for some years from no ther cause than devangment of the Liver. My beloved pastor, the Rev. Mr Espy, advised me to try your Sarsaparrilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me. I feel

young again. The best that can be said of you is not half good enough." Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of

the Bones. A great variety of cases have been reported to us where cures of these formidable complaints have result-form the use of this remedy, but one space here will not admit them. Some of them may be found in our Amer can Almanac, which the agents below named are pieased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilep. sy, Melancholy, Neuralgia, Many remarkable cures of these affections have been made by the alternative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

in advanced Stages Of the Disease

This is a remedy so universally known to surpage any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth.— Yew are the communities, or even families, among them who have not some personal experience of its effects.— some living trophy in their misus of its victory over the suble and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of markind.
