Young Men Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thounders of eloquence or waked to cestasy the living lyre, may call with full confidence.

Marriage. Married Persons, or Young Men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., speedily cured.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a Physician.

Organic Weakness mmediately Cured, and full vigor Restored.

This distressing Affection—which renders I ite miserable and marriage impossible—is the penalty paid by the victims of improper indulgances. Young persons are too apt to commit excetses from not being aware of the dreadful consequences that may ensue. New, who that understands the subject will proton to dony that the power of procreation is lost sconer by those falling into improper habits than by the prudent? Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nervious Irratibility, Dyspepsia, Palphtation of the Heart, Intigestion, Constitutional Debility, a Wasting of the Frame, Cough, Consumption, Decay and Desth.

Loft hand side going from Baltimore street, a few door, from the corner. Fall not to observe name and number. Letters must be paid and contain a stamp. The Doctor's Diplomas hang in his office. A Cure Warranted in Two Days. No Mercury or Nauseous Drugs,

Dr. Johnson,

Member of the Royal College of Surgeons, London, Graduato from one of the most ominent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troublod with ringing in the head and ears whon asleep, great nervousness, being alarmed at suddon sounds, bashfulness, with frequent blushing, attended sometimes with deringement of mind were cured immediately.

Take Particular Notice.

Dr. J. addresses all those who have injured themselves by improper indulgence and solliary habits, which ruin both body and mind, unfitting them for either business,

study, society or marriaga.

These are some of the sad and melancholly effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimnoss of Sight, Loss of Muscular Power, Palpitation of the heart, Dyspepsy, Nervous Irratibility, Dorangement of the Digestive Functions, General Debility, Symptoms of Consumption

Who have injured themselves by a certain practice indulged in when alone, a habit frequently learned from evil companions, or at school, the effects of which are mightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately. What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prespects and enjoyments of life, by the conrequence of deviating from the path of nature and indulging in a certain secret habit. Such persons must, before contemplating

plating Marriage, reflect that a sound mind and body are the most necessary requisites to promote consubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the molancholly reflection that the happiness of another becomes bilghted with our own.

Disease of Imprudence.

Disease of Imprudence.

When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often hapens that an til-timed sense of shame or dread of discovery, deters him from applying to those who, from elucation and respectability, can alone befriend him, delaying till the constitutional symptoms on this hort of disease make their appearance, such as ulcorated sore threat, diseased nose, nocturnal pains in the head and limbs, dismess of sight, dealness, nodes on the shin bones and arms, blotches on the head, face and extremilies, progressing with frightful rapidity, till at last the painte of the mouth or the bones of the nose fall is, and the victim of this awful disease become a horrid object of commiseration, till death puts a period to his dreadful sufferings, by sending him to "that Undiscovvered Country from whence no traveler returns."

It is a sedmeholdy fact that thousands fall victims to this terrible disease, owing to the unskilluliness of ignorant pretenders, who by the use of that Deadly Post on, Mercury, ruin the constitution and make the residue o life miserable.
