ELIXIR PROPYLAMINE, THE NEW REMEDY FOR RHEUMATISM. A NEW REMEDY, A CERTAIN REMEDY, FOR ACUTE RHEUMATISM, CHRONIC RHEUMATISM, RHEUMATISM OF EVERY KIND; HOW STUBBORN, HOW LONG STANDING, PROPYLAMINE WILL CONQUER IT, WILL CURE IT, WILL OVERTAKE IT, WILL OVERTAKE IT, DOCTORS REAL DOCTORS EXAMINE, DOCTORS TRY IT.

PENNSYLVANIA HOSPITAL. (FROM OFFICIAL HOSPITAL REPORTS.) MAY 19, 1860.—Ellen S., et. 23, single, never was rheumatic. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks and subsequently from a relapse for four more. She has been well since then till last Saturday, when engaged in house cleaning, she took cold, had pain in her back, felt cold, but had no decided chill. Two days later her ankles began to swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism, in our program. Dr. Awenarius, of St. Petersburg, recommends it in the same terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confess I am always incredulous as to the worth of new remedies, which are vaunted as specific; but this comes to us recommended so highly, that we are bound to give it a trial.

SAME CASE FOUR DAYS LATER! MAY 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was a cheerfully and steadily taken in doses of three grains every two hours (intermitting it at night). The day after you saw her, I found her much more comfortable, better than she expected. Her joints were less tender, and she was free from all attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are now nearly all of their natural size. Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result. Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from chronic rheumatism, and I found her at that time with an acute attack supervening upon her chronic affection. The wrists and knuckles were much swollen and tender. She took the chloride of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!! MAY 26, 1860.—This is the case of acute rheumatism treated with propylamine. The first of those to whom I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very satisfactory results. The second case to which your attention was called at our last lecture, has also continued to do well. I will now bring before you a very characteristic case of acute rheumatism, and if the result is satisfactory, I think, as good judges, we shall justly regard our remedy in favor of propylamine. Here is a woman, et. 28, who was admitted a few days ago, with an acute rheumatism, but not so violent as to keep her bed, until eight days ago. The pains began in her right knee, subsequently attacked the left knee, and later, the joints of the upper extremities. These joints are all swollen, tender, and the skin is red and hot, and in the present dry, though there has been much sweating. Her pulse is full and strong, and about 90. Her bowels are regular, and she is free from all other symptoms. This gentleman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of soreness in the joints, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating, so generally attendant on acute rheumatism. Has had occasional rheumatic pains, but not so violent as to keep her bed, until eight days ago. The pains began in her right knee, subsequently attacked the left knee, and later, the joints of the upper extremities. These joints are all swollen, tender, and the skin is red and hot, and in the present dry, though there has been much sweating. Her pulse is full and strong, and about 90. Her bowels are regular, and she is free from all other symptoms. This gentleman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of soreness in the joints, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating, so generally attendant on acute rheumatism.

THE RESULT. A FAVORABLE VERDICT. JUNE 9, 1860.—The next of our convalescents is the case of acute rheumatism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have never seen so severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positively as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the chloride of Propylamine, the patients have regained their health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

WHAT IT HAS DONE, IT WILL DO AGAIN. Bullock & Crosshaw, a firm well known to most medical men, by whom the Elixir Propylamine has been introduced, have sold to us the exclusive right to manufacture it according to the original recipe, and we have made arrangements of such magnitude as to enable us to scatter it broadcast amongst suffering humanity.

A WORD TO DOCTORS. If you prefer to use the same remedy in another form we invite your attention to the PURE CRYSTALLIZED CHLORIDE PROPYLAMINE, PURE PROPYLAMINE LIQUID, PURE PROPYLAMINE CONCENTRATED, PURE IODINE PROPYLAMINE, of which we are the sole manufacturers. We claim no other virtue for the Elixir Propylamine than is contained in Pure Crystallized Chloride of Propylamine.

To all whom this may concern, and it concerns every body. JOHN & CROSLY'S IMPROVED GUTTA PERCHA CEMENT ROOFING, IT IS FIRE AND WATER PROOF.

It can be applied to NEW and OLD ROOFS of all kinds, steep or flat, and to SINGLE ROOFS without removing the shingles.

This article has been thoroughly tested in New York City and all other parts of the United States, Canada, West India Central and South America, on buildings of all kinds, such as FACTORIES, FOUNDRIES, CHURCHES, LATH ROADS, DAMS, CANALS, and on PUBLIC BUILDINGS generally GOVERNMENT BUILDINGS, &c., by the principal Builders, Architects and others, during the past four years, and has proved to be the CHEAPEST and MOST DURABLE ROOFING in use; it is in every respect a FIRE, WATER, WEATHER, and TIME PROOF covering for ROOFS OF ALL KINDS.

This is the ONLY material manufactured in the United States which combines the very desirable properties of Elasticity and Durability, which are universally acknowledged to be possessed by GUTTA PERCHA AND INDIA RUBBER.

No Heat is required in making application. The expense of applying it is trifling, as an ordinary roof can be covered and finished the same day.

It can be applied by any one, and when finished forms a perfectly FIRE PROOF surface with an elastic body, which cannot be injured by HEAT, Cold or Frost, SHOWERING OF ROOF BOARDS, nor any external action whatever.

LIQUID GUTTA PERCHA CEMENT, For Coating Metals of all Kinds when exposed to the Action of the Weather, and FOR PRESERVING AND REPAIRING METAL ROOFS OF ALL KINDS.

This is the only Composition known which will successfully resist extreme changes of all climates, for any length of time, when applied to metals, to which it adheres firmly, forming a body equal to cast iron, and being light, costs much less and will LAST THREE TIMES AS LONG; and from its elasticity is not injured by the contraction and expansion of the metal and other Metal Roofs, consequent upon sudden changes of the weather.

It will not CRACK IN COLD OR BE IN WARM WEATHER, AND WILL NOT WASH OFF. LEAKY TIN and other Metal Roofs can be readily repaired with GUTTA PERCHA CEMENT, and prevented from further corrosion and leaking, thereby ensuring a perfectly tight roof for many years.

This Cement is peculiarly adapted for the preservation of IRON RAILINGS, STOVES, RANGES, RAFFES, AGRICULTURAL IMPLEMENTS, &c., also for general manufacturers use.

AYER'S SARSAPARILLA, FOR PURIFYING THE BLOOD. AND for the speedy cure of the subjoined varieties of Diseases: Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pastules, Blotches, Boils, Blisters, and all Skin Diseases.

OAKLAND, Ind, 6th June, 1860. J. C. AYER & Co., Gents: I feel it my duty to acknowledge what your SARSAPARILLA has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago I broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder was so severe, that I thought I must be abandoned to the Gospel Messenger that you had prepared an alternative (Sarsaparilla), for I knew from your reputation that anything you put out would be good. I sent for a bottle and used it, and use it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. Now my skin soon began to form, and under the scales which were a while fell off, my skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying; and I tell you, that I hold you to be one of the saviors of the age, and remain ever gratefully. Yours, ALFRED B. TAILLY.

St. Anthony's Fire, Rose or Barylelas, Tetter and Salt Rheum, Scald Head Ringworm, Sore Eyes, Dropsy. Dr. Robert M. Preble writes from Salem, N. Y., 12th Sep., 1860, that he has cured an intractable case of Dropsy, which threatened to terminate fatally, by the use of your Sarsaparilla, and also a dangerous attack of Malignant Erysipelas by large doses of the same; says he cures the same Eruptions by its constantly.

Bronchocoele, Gout or Swelled Neck. Zebulon Sloan of Prospect, Texas, writes: "I was cured of your Sarsaparilla of a swelling of the neck, which I had suffered from over two years."

Lencorrhoea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases. Dr. J. B. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alternative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrofulous diathesis. I have cured many cases of Lencorrhoea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements." Edward S. Marrow, of Newbury, A. M., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the skill of the best physicians, and which had almost been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extraction could afford relief, but he advised the trial of your Sarsaparilla at the same time, and to my great joy, it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Diseases. NEW ORLEANS, 25th August, 1860. Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla. I have cured with it many cases, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Venereal and Mercurial Diseases. One of my patients had syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that he believed the disorder would soon reach his brain and kill him. But yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfigurement to his face. Another case was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you agent gave me, that this Preparation is not a mere laboratory matter, but a great remedy; consequently, those truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint. LEADERSHIP, Preston Co., Va., 6th July, 1860. Dr. J. C. AYER: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find. I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine.

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones. A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but one space here cannot admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who apply for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia. Many remarkable cures of these affections have been made by the alternative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of these affections, that it is useless here to publish the evidence of its efficacy. Its unrivaled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, amongst men who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorder of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when first the cure which have won so strongly upon the confidence of mankind.
