Young Men Especially, who have become the lyicitims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of elequence or waked to ecstary the living lyre, may call with full confidence.

Marriage.

Married Persons, or Young Men contemplating mar-riage, being aware of physical weakness, organic debili-ty, deformities, &c., speedly cured.
He who places himself under the care of Dr. J. may religiously confide in his bonor as a gentleman, and con-fidently rely upon his skill as a Physician.

Organic Weakness Organic Weakness

Immediately Cured, and full vigor Restored.

This distressing Affection—which renders I iso misorable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excerses from not being aware of the dreadful consequences that may ensue. New, who that understands the subject will pretend to dony that the power of procreation is lost sconer by those falling into improper habits than by the prudent? Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mindarise. The system becomes deranged, the Physical and Mental Functions Weakened, Loss of Progreative Power, Norvious irratibility, Dyspepsis, Palpitation of the Heart, Indigestion, Consumption, Decay and Death.

Member of the Royal College of Surgeons, Loudon, Graduste from oue of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing our that were ever known; many troubled with ringing in the head and ears when askeep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind were cured immediately.

Take Particular Notice!

Take Particular Notice.

Dr. J. addresses all those who have injured themselves by improper indulge-ce and solitary habits; which ruin both body and mind, unfitting them for either business, study, society or merrige.

These are some of the sad and melaucholly effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the heart, Dyspepsy, Nervous Irratibity, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, 800

Who have injured themselves by a certain practice indulged in when alone, a babit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cared renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons must, before contemplating

Marriage,

reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pligrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholly reflection that the happiness of another becomes blighted with our own.

the melancholy reficulon that the happiness of another becomes blighted with our own.

Disease of Imprudence.

When the mirguided and imprudent votary of pleasure finds that he has imbited the seeds of this painful disease, it too often hapens that an ill-timed sense of shame or dread of discovery, deters him from applying to those who, from e jucation and respectability, can alone befriend him, delaying till the constitutional symptoms on this horr d disease make their appearance, such as ulcerated sore threat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, dealness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with rightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease become a horrid object of commiseration, till death puts a period to his dreadful sulferings, by sending him to "that Urdiscovvered Country from whence no traveler returns."

It is a seanncholly fact that thousands fall victims to this terrible disease, owing to the unskifful uses of ignorant pretenders, who by the use of that Deadly Potson, Mercury, ruin the constitution and make the residue o life miserable.

Southern Comments on Southern News.

Why the reporting of a battle by telegraph, by letter, or by word of mouth, should deprive a man of every particle of common sense, or every spark of principle, we know not; but the fact is so. A battle is no sooner begun than we are notified by a "reliable" despatch that the are notified by a "reliable" despatch that the "whole army of the enemy will certainly be killed or captured." This we heard in regard to Donelson, Elkhorn, Shiloh, and nearly every other battle which has been fought. It has been claimed that the people of the North are liars, and that we of the South are truthful. This is a delusion. We are fast learning that to tell as many lies, as big lies, as foolish and self-evident lies as the Yankees. Every body knows that "the whole army of the enemy will certainly be killed or captured" means that the Confederates will be defeated next to convey disagreeable truth? Why not say purpose of properly equipping the Home Grands "the advantage is so far on our side, but the for active service. battle is not decided yet; the enemy's reinforcements may come up?" Or, when the stories of passengers by the cars are given, why not slit them, rejecting rightly all that savors of the least doubt, and reporting only what is well authenticated? Why raise false hope and

false joy in the people? Another piece of stupidity on the part of our ewspapers and telegraph men is the inordinate puffing of this or that General. Endless ridicule has been heaped upon Mr. Davis by comparing him to Washington; and we have been pained to see Mr. Breckinridge victimized by despatches from the battle-field of Shiloh. Hindman had his leg shot off, but that is a small matter when we consider that Breckin-ridge "won immortal honor" by having every rag of "his clothes shot off," his "horse rid-dled," and even "his hat swept down"—not-withstanding which (the frightful deprivation of his hat) he fought undisplayed. We mean no disrespect to Breckinridge; quite the con-trary. We are only angry that his friends should permit the reporters to make him out a

jackassical figure in history. Unless we can go back to the old habit of telling the truth and using moderate language quit "shaking Savannah with an earthquake" from a fort that surrendered after four men were wounded, and cease to imitate the bombastical and mendacious lings of the Mexican administration on the estate of Edmund Porter, and the Chinese, we had better shut up the affect of Dauphin county, dec'd, have been the determined to the nucersigned by the Register of Dauphin telegraph offices and suppress the newspapers. Let us show to the world that we are Southerners-lovers of truth, and of plain, honest speech, or else let us go back to the Yankees we so much resemble. The country is sick of the ineffable nonsense of the knaves and fools who pretend to report our battles.-Richmond

> THE MORTAR FLERT on the upper and lower Mississippi, it is now ascertained, are costly failures. Nine thousand bombs were hurled at SUGAR CURED HAMS. Fort Jackson and St. Philip, with scarcely any real appreciable effect, as was proven by a subequent examination of the forts by General Butler. Commodore Farragut could have passed the rebel defences, with his sloops of war and gunboats, as well on the first as on the sixth day of the bombardment; indeed the only real damage the forts sustained was from his Parrott and Dahlgren guns. On the upper Mississippi they have been equally ineffective as witness Island No. 10 and Fort Wright.—
> The official testimony of the engineers who planned the attack on Fort Pulaski was to the same effect; the rifled cannon alone were effective. This experience is that of all sieges in former times; bombs do very well to burn a as witness Island No. 10 and Fort Wright. former times; bombs do very well to burn a large city but are generally ineffective against earthworks and small forts, owing to the fact that they cannot be fired with a sufficient degree of accuracy, the slightest breeze baulking the most skillful aim. This war is repeating some old lessons in military operations as well as teaching us many valuable new ones.
