DR. JOHNSON BALTIMORE LOCK HOSPITAL

H AS discovered the most certain, speedy DISEASES OF IMPRUDENCE.

RELIEF IN SIX TO TWELVE HOURS. No Mercury or Noxious Drugs. A Cure Warranted, or no Charge, in from one to Two Days.

Weakness of the Back or Limbs, Strictures, Affections of the hidneys and Bladder, Involuntary discharges, Impotency, General rebility, Nervousness, Dyspepsy, Ianguor, Low Spirits, Confusion of Ideas, Palpitation of the Heart Thmidity, Tremblings, Dimness of Sight or Giddiness, Diesase of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible disorders arising from the Solitary Habits of Youth—those secsur and solitary practices more Jatal to their victims than the song of Syrens to the Marinere of Ulysses, blighting their most brilliant hopes or anticipations, frendering marriage, &c., impossible. endering marriage, &c., impossible.

Young Men

Marriagre. Marriage.

Married Persons, or Young Men contemplating mar-riage, being a ware of physical weakness, organic deblit-ty, deformities, &c., speedity cured. He who places himself under the care of Ibr. J. may religiously confide in his bonor as a gentleman, and con-fidently rely upon his skill as a Physician.

Organic Weakness
Immediately Cured, and full vigor Restored.
This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excerses from not being aware of the dreadful consequences that may ensue. New, who that understands the subject will protend to deap that the power of procreation is lost sconer by those falling into improper habits than by the prudent? Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the Physical and Mental Fauctions Weakened, Loss of Procreative Power, Nervious Irratibility, Dyspepsia, Palpitation of the Heart, Indigestion, Constitution: 1 Debility, a Wasting of the Frame, Cough, Consumption, Decay and Death.

A Cure Warranted in Two Days. No Mercury or Nauseous Drugs, Dr. Johnson,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing our est that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind were sured immediately.

were cured immediately.

Take Particular Notice.

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which roin both body and mind, untiting them for either business, study, society or marriage.

These are some of the sad and melancholly effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Paipitation of the heart, Dyspepsy, Nervous Irratibility, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, and

MENTALLY.—The fearful effects on the mind are muci to be dreaded—Loss of Memory, Confusion of Ideas, De-pression of Spirits, Evil Forbodings, Aversion to Society, Self Distrust, Love of solitude, Timidity, &c., are some of

The evils produced.

Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emadated, having a singular appearance about the eyes, cough and symptoms

of eonsumption.

Young Men

Who have injured themselves by a certain practice indulged in when alone, a habit frequently learned from soil companions, or at school, the offsets of which are nightly felt, even when asleep, and if not cured ronders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prespects and enjoyments of life, by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons MUST, before contemplating

Marriage,

reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pligrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melanchelly refit cition that the happiness of another becomes blighted with our own.

Disease of Imprudence.

When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often hapens that an til-timed sense of shame or dread ef discovery, deters him from applying to those who, from elucation and respectability, can alone be-friend him, delaying till the constitutional symptoms on this horr of disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, dealness, nodes on the shin bones and arms, blotches on the h ad, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fail is, and the victim of this awful disease become a horrid object of commisseration, till death puts a period to his dreadful sufferings, by sending him to "that Urdiscovvered Country from whence no traveler returns."

It is a melancholly fact that thousands fall victims to this terrible disease, owing to the unskilfullness of ignorant pretenders, who by the use of that Deadly Poston, Mercury, ruin the constitution and make the residue o lite miserable.

ARRIVAL OF HON. THOS. A. SCOTT. LATE FROM GEN. HALLECK'S ARMY.

A Battle to take place in a few Days.

Blection of Thos. A. Scott as Vice President of the Pennsylvania Railroad.

PHILADELPHIA, May 28.

Hon. Thomas A. Scott, Assistant Secretary of War, arrived in Philadelphia, yesterday morning, direct from Halleck's army before Corinth, Mississippi, having left there on Friday, May 23d. Our army is represented as being in ex-cellent condition, occupying a strong position and ready for the great struggle at any moment that the enemy may see proper to make an at-tack. The battle may be expected to take place within the next ten days, with every reasonable assurance of success to our arms.

Mr. Scott has been unanimously re-elected

vice president of the Pennsylvania railroad and will soon enter upon the management of the road, the president, Edgar Thompson being

about to depart for Europe.

Mr. Summer offered an amendment as a new section, that any person who shall claim the service or labor for life of any person, under the laws of any State, shall be taxed on account or each person so claimed, the sum of ten dol-lars. He contended that such a tax could be laid without in any way recognizing the offen-sive doctrine that slaves were property. It was simply tax on persons

bill.

Mr. SHERMAN believed that slaves were per sons and were entitled to the rights of persons and as such they could not be taxed in this way and certainly the Senator from Massachusette would not propose to tax them as property, besides, if he undertook to collect such a tax, it would only fall on the loyal men of the border States and be looked upon as an indirect attempt at emancipation. He was willing to meet the question of emancipa tion openly when the time comes, and it he be lieved the union could not be preserved with out emancipation, he would support the President in emancipation. The only practical way to tax a large portion of the south was to tax

On the suggestion of several Senators, Mr. Summer modified the amendment so as to be in anguage.

An amendment was offered by Senator B. I SIMMONS, that an annual tax of five dollars should be paid by every person or persons, corporation or society, for and on account of every other person, between ages of ten and sixty-five whose service labor for the term of years or life is claimed to be owned by such first mentioned person or persons, corporations or society, whether in judiciary capacity or otherwise, under the laws or customs of any State, and said said annual tax shall be levied and collected of the person, persons, corporation or society, making such claims, and of their goods, chattels and lands, but in no case shall the person or persons whose service or labor so claims ed, or their service or labor, be sold for the purpose of collecting said tax. It further provides that this tax shall not apply to service

due to parents. Mr. SHERMAN offered an amendment to Mr. SUMMER's amendment. The proposition is to tax one cent per pound on cotton. Mr. King was in favor of tax on both cotton and slaves, and should vote for both if he could :

and therefore hoped that the tax on cotton would not be pressed as a substitute for the tax After a lengthy debate, Mr. Sherman's imendment was rejected—yeas 15, nays 22.

HEADQUARTERS 110TH REGIMENT, P. V. SHIELD'S DIVISION,

Winchester, Va., March 27th, 1862. BRIG. GEN. SHIELDS

General:-I have the honor to report that on the afternoon of Sunday, March 28d, my com-mand left camp, three and a half miles on the main road north of Winchester, by order of Col. Tyler, 3d brigade, and proceeded with his command immediately to the scene of action that afternoon. The brigade was ordered to the rear and to the left flank of the enemy, and were marched "close column by division" and under cover of a thick woods, when a dead-ly fire was immediately poured in upon them, which, for the moment, staggered our troops. They soon recovered, and my command, with the rest of the brigade, advanced to the outskirts of the woods and returned the fire with great spirit. Subsequently, finding that the enemy held a strong position behind a stone fence across a ravine directly opposite our centre and were harrassing us with their fire, I ordered a charge of my command at "double quick" upon that point, which was quite successful.

The enemy were completely routed on their flank and driven from their position behind the fence. In this charge the command suffered severely from the fire of the enemy.

The regiment was rallied after the action in good order, and we bivouscked for the night with the brigade on the field adjoining the battle field. Below I respectfully furnish the field return of the killed and wounded in the action:

Killed—eight.
Wounded—forty-three. Missing-none.

CAMP No. 11, IN THE FIELD,

May 6, 1862.

CAPTAIN:—In obedience to an order from brigade headquarters of this date, I have the nonor to report that this regiment was formed in line of battle yesterday on the left of the first brigade, and moved forward in support of the hattery on the right in the onen ground in the battery on the right, in the open ground in front of the second fort over which its colors were hoisted. The men were ordered to lie down during the rapid and heavy artillery fire, and remained thus until Lieut. Mitchell, of the brigade staff, informed me that the enemy had moved in force from the woods on our right, sential modifications, owing to the want of improvement in naval warfare. As the Secretary believes that it was intended by Congress to apply the nearly eight hundred thousand dollars heretofore appropriated upon the battery ginal line on the flanks of the fort. I faced by according to the original plan, should it have been approved, he does not feel authorized to expend the money to carry out the suggestions of the board. my right wing to fire obliquely to the right and their close and steady volley struck with terrible effect on the enemy, and when they came within easy distance the whole line opened upon them by file. When General Hancock ordered the line forward to charge the enemy, who were rushing upon us, my regiment, loud ly cheering, moved rapidly and steadily to the front, with their colors advanced and their line accurate. A regiment of the enemy were advanced to the woods on my left. I deployed by the left flank two of my companies, (I and K, Capts. DeWitt and Neice,) as skirminers, and

covered the left of thh line and held the woods until the enemy retreated. As far as possible, all random and desultory firing was prevented. My men were ordered to fire low and select their mark, and they obeyed. It would seem impossible for any more trying circumstances to surround a regiment, than those which, in common with the other regiments of the brigade, pressed on my men. They were weary; had lost s'eep; made a forced march over bad roads in wretched weather, and were, for the first time, confronting

their enemy in line of battle. The admirable discipline of the brigade gave the men the coolness of veterans. My guides were thrown on the line and it was formed

under fire, as if on parade.

It would be invidious for me to name, as worthy of praise, any of my officers, when all alike deserve it. But I cannot omit to state how well I was supported by Lieut. Col. Brisbine, Major Huling and my Adjutant, Lieut. E. D. Smith, and that my Assistant Surgeon Huber was present during the action, at his post near the regiment, promp'ly attended to our wounded, and then repaired to the general hospital and gave most efficient aid. The Surgeon, Dr. Gobrecht, was absent by order on detached duty at brigade hospital. Annexed is a list of the casualt regiment in the action of yesterday. casualties of this
