[FROM OFFIGIAL HOSPITAL REPORTS.]

MAY 19, 1860.—Ellea S., set. 28, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks and subsequently from a relapse for four more. She has been well since then till last Satur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had no decided chill. Two days later her ankles began so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case. We will carefully watch tho case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. I mean propylamine. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confess I am always incredulous as to the worth of new remedies, which are vaunted as specific; but this comes to us recommended so highly, that we are bound to give it a trial. [FROM OFFICIAL HOSPITAL REPORTS.]

SAME CASE FOUR DAYS LATER! SAME CASE FOUR DAYS LATER!

May 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and wa sthen laboring under an attack of acute rheumatism. She has steadily taken it in doses of three grains every two hours (intermitting it at night.) The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fall to notice a warked change in the appearance of her joints, which are now nearly all of their natural size.—Thus far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

ne result. Here is another patient who was placed on the use of Jesame medicine on Sunday last; she has long been suffering from c bronic rheumatism, and I found ber at sincering from e frome trematism, and I loude to a state time with an acute attack supervening upon her chronic affection. The wrists and knuckles were much swollen and tense. She took the chloride of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diministrati

THREE DAYS LATER!!

THREE DAYS LATER!!

MAY 26, 1860.—This is the case of acute rheumatism treates with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very estisatory rescus. The second case to which your attention was called at our last lecture, has also continued to do welr I will now bring before you a very characteristic case of acute rheumatism, and if the result be satistic case of acute rheumatism, and if the result be satistic case of acute rheumatism, and if the result be satistic case of acute rheumatism, and if the result be satistic case of acute rheumatism, and if the result be satistic case of acute rheumatism, and if the result be satistic case of acute rheumatism, and if the result be satistic case of the part of the satistic case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There is fover and the profuse sweating, so generally attendant on acute rheumatism. In the lower joints. There is fover and the profuse sweating, so generally attendant on acute rheumatism. In the heumatism, but to again give a trial to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there could not be a fairer opportunity for testing the medicine in question. We are, therefore, avoiding the use of all other medicines, even anodynes, that there may be no misgiving as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

Junx 9, 1860.—The next of our convalescents is the case of acute rheumstism before you at our clinic of May 26th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy, It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have neves seen as severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride o Propylamine, the patients have regained their health Propylamine, the patients have regained their health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

AYER'S SARSAPARILLA

FOR PURIFYING THE BLOOD.

A ND for the speedy cure of the sub-Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pastules, Blotches, Boils, Blains, and all Skin Diseases.

Oakland, Ind, 6th June, 1859.

J. C. Ayre & Co., Gents: I feel it my duty to acknowl. edge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla,) for I knew from your reputation that anything you made must be good. I sent to Cinc must and got it, and use it till it cured me. I took it, as you advise, in small doses of a tenspoonful over a mouth, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off, my skin is now clear, and I know by my faelings that the disease has gone from my system You can well believe that I fee what I am saying when I tell you, that I hold you to be one of the apostice of the age, and remain ever gratefully.

Alfred B. Talley. OAKLAND, Ind, 6th June, 1859. I tell you, that I hold you to be one of the aposition of age, and remain ever gratefully. Yours,

ALFRED B. TALLEY.

Dr. J. B. S. Channing, of New York City, writes; "most cheerfully comply with the respect of your agent in saying I have found your Sarsaparilla a motexcellent alternative in the numerous complaints for which we employ such a remedy, but especially in **Emale Diseases of the Scrofulous diathesis. I have cared many inveterate cases of Leucorrhosa by it, and some where the complaint was caused by **ulceration** of the **ulceration** itself was soon cured. Nothing within my knowledge equals in for these temple derangements."

Edward S, Marrow, of Newbury, Ala., writes, "A dangerous coarian temper on one of the females in my immly, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sursaparilla. Our physician thought nothing but extirpation could afferd relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

NEW ORLEANS, 25th August, 1959.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommonded, and have found its effects truly wonderful in the cure of Veneral and Mercarial Diseases. One of my patients and syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five week. Another was attacked by socondary symptoms in his mose, and the ulcerriven had eaten away a considerable part of it, so that believe the disorder would soot reach his bran and kill him. But if yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some disliguration to his face. A woman who had become so sensitive to the weather that on a damp day she suffered excruciating pain in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you agent gave me, that this Proparation from your laboractory must be a great remedy; consequently, these truly romarkeble results with it have not surprised me.

Fraternally yours,

G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint. INDEPENDENCE, Precton Co., Va., 6th July, 1859.

Jules Y. Getcheil, of St. Louis. writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried overy thing, and every thing latied to relieve me; and I have been a broked down man for some years from no ther cause than devangment of the Liver. My beloved pastor, the Roy. Mr. Espy, advised me to try your Sarsaparrilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have result form the use of this remedy, but one space here will not admit them. Some of them may be found ut our Amercan Almanac, which the agents below named are pleased to furnish graits to all who call for them.

Ayer's Cherry Pectoral FOR THE RAPID CURE OF

in advanced Stages of the Disease This is a remedy so universally known to surpage any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its arrivalled excellence for coughs and colds, and its truly wonderial cures of pulmonary disease, have made it snown throughout the civilized nations of the earth.— Few are the communities, or even families, among them who have not some personal experience of its effects.— some living trophy in their milest of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadul fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Dr. J. C. Aybe: Sir, I bave been afflicted with a pain ful chronic Rheumatism for a long time, which baffled the skill of physicians, and stock to me in spite of all the remedies I could fin, until I tried your Sarsaparilla.—One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine.

Many remarkable cures of these affections have been made by the alternative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the nocessities of the people, and we are contident that this will do for them all that medicine can do.
