Young Men Rspecially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thourands of Young who might otherwise have entranced listening Senates with the thunders of elequence or waked to costasy the living lyre, may call with full confidence.

He who places himself under the care of Dr. J. may religiously confide in his bonor as a gentleman, and confidently rely upon his skill as a Physician.

Organic Weakness Immediately Cured, and full vigor Restored.

This distressing Affection—which renders i ifo miserable and marriage impossible—is the penalty paid by the victims of improper indulgances. Young persons are too apt to commit excerses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretond to deap that the power of procreation is lest scener by those falling into improper habits than by the prudent Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mindarise. The system becomes deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power. A Cure Warranted in Two Days.

No Mercury or Nameous Drugs,

Dr. Johnson,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges in the United States, and the greater part of whose lite has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind were cured immediately.

Take Particular Notice. Take Particular Notice.

Dr. J. addresses all those who have injured themselves by improper indulgace and solitary habits, which rvin both body and mind, untiting them for either business, study, society or marriage.

These are some of the sad and melancholly effects produced by early habits of youth, vis: Weakness of the Back and Limbs, Pains in the Head, Dinness of Sight, Loss of Musular Power, Palpitation of the heart, Dyspepsy, Nervous Irratibility, Derangement of the Digostive Functions, General Debility, Symptoms of Consumption, &co

MESTALLY.—The fearful effects on the mind are much to be dreaded—Loss of Memory, Contusion of Ideas, Depression of Spirits, Evi Forbodings, Averson to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

the evils produced.

THOUSANDS of Persons of all ages can now judge what is the cause of their declining health, losing their vigor, singular appearance about the eyes, cough and sympto of consumption.

Toung Men

Who have injured themselved by a certain practice in dulged in whon alone, a habit frequently learned from evil companious, or at school, the effects of which are nightly felt, even when asleop, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and ealoyments of life, by the consequence of deviating from the path of nature and indulging in a cartain secret habit. Such persons must, before contemplating

Marriage, reflect that a sound mind and body are the imost necessary requisites to promote countrial happiness. Indeed, without these, the journey through life becomes a weary pligrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melanchoily reflection that the happiness of another becomes blighted with our own.

Disease of Imprudence.

Disease of Imprudence.

When the mirguided and imprudent votary of pleasure finds that he has imblied the seeds of this painful disease, it too often hapens that an ill-timed sense of shame or dread of discovery, deters him from applying to those who, from olucation and respectability, can alone be friend him, delaying till the constitutional symptoms on this horr of disease make their appearance, such as ulcorated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, dealness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the most of the hose fall is, and the victim of this awful disease become a horrid object of commiseration, till death puts a period to his dreadful sufferings, by sending him to "that Undiscovvered Country from whence no traveler returns."

It is a melancholy fact that thousands fall victims to this terrible disease, owing to the unskilfullness of ignorant pretenders, who by the use of that Deadly Pottom, Mercary, ruin the constitution and make the residue o life miserable.

Indorsement of the Press.

The many thousands cured at this institution year after year, and the numerous important Surgical Operations performed by Dr. Johnson, witnessed by the reporters of the "Sun," "Glipper," and many other papers, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarrantee to the afflicted. bkin Diseases Speedily Cured.

THE SEWARD-LYONS TREATY NEWS FROM THE FLEET ON THE SOUTH

CAROLINA COAST,

Com. Prentiss Sails up the Interior Waters to Georgetown.

EXTENSIVE FORTIFICATIONS DESERTED.

No Resistance Made to the Fleet

WASHINGTON, June 10. The President has sent a message to Congress saying it is desirable that such legislation

as may be necessary to carry the Seward-Lyons treaty for the suppression of the slave trade into effect shall be enacted as soon as may comport with the convenience of Congress. The Navy Department has received dispatches from which it appears that Commander Prentiss; of the Albatross, recently sailed up the interior waters of South Carolina to Georgetown.

He crossed the baron on the 21st with his own vessel and the Norwich, Lieutenant Com-manding Duncan, and entered Winyan bay after passing a small dererted redoubt near the Light

An extensive fortification was observed on South Island with apparently several large guns mounted, which turned out to be quakers. This fort was found deserted.

Another abandoned fortification was found

on Cat Island.
On the 22d he stood up the bay for George town, entered Swampit creek, and steamed past the city's wharves.

Not being prepared to hold the place, he abstained from making any demonstration knowing that a contest with the artillery and cavalry in the place would compel him to destroy the town.

He afterwards ascended the Wacaman river to a point ten miles above Georgetown, through

country and meeting with no resistance He brought off eighty contrabands. The reb els were leaving their plantations, driving thei negroes before them in all directions. One hundred and fifty-nine rebel prisoners

principally of the Georgia Tigers and Twelfth Virginia regiments, captured recently at Front Royal, were brought here to-day and transferred to the provost guard, by whom they were escorted to the old capital military prison. Important from Memphis.

CHARLES ELLET, JR. The bearer of the flag and the above note was accompanied by Lieut. Crankell, of the Fifty-ninth Illinois regiment, and two men of

the boat guard. The following is the reply of the Mayor of the city:
