JOHNSON BALTIMORE

H AS discovered the most certain, speedy and effectual remedy in the world for DISEASES OF IMPRUDENCE.

RELIEF IN SIX TO TWELVE HOURS. No Mercury or Noxious Drugs. A Cure Warranted, or no Charge, in from one to Two Days.

Weakness of the Eack or Limbs, Strictures, Affections of the kidneys and Bladder, Involuntary discharges, Impotency, General Debility, Nervousness, Dyspepsy, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Tremblings, Dimness of Right or Gliddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible disorders arising from the Solitary Habits of Youth—those excest and solitary practicas more fatal to their victims than the song of tyrens to the Mariners of Ulyses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.

Vonno Man

Young Men Repecially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an unimely grave thousands of Young then of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Benates with the thunders of elequence or waked to ecstasy the living lyre, may call with full confidence.

Marriage.

Marriage. religiously confide in his honor as a gentleman, and confidently rely upon his skill as a Physician. Organic Weakness

mmediately Cured, and full vigor Restored.

This distressing Affection—which renders the miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excetees from not boing aware of the dreadful consequences that may ensue. New, who that understands the subject will pretend to deap that the power of procreation is lest sconer by those falling into improper habits than by the prudent. Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nevrious Irratibility, Dyspepsis, Palpitation of the Heart, Indigestion, Consumption, Decay and Death.

A Cure Warranted in Two Days.

No Mercury or Mauteous Drugs.

Dr. Johnson,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hespitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing our est that were eyer known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind were cured immediately.

Take Particular Notice.
Dr. J. addresses all those who have interest. Dr. J. addresses all those who have injured themselves by improper indulge.ce and solitary habits, which ruin both body and mind, unfitting them for citizer binsiness, study, scolety or marriage.

These are some of the sad and metaucholly effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the heart, Dyapepsy, Nervous Irratibility, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption,

MENTALLY.—The fearful effects on the mind are much to be dreaded—Loss of Memory, Confusion of Ideas, De-pression of Spirits, Evil Forbodings, Aversion to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousaxnes of persons of all ages can now judge what is the cause of their deciling health, losing their vigor,

becoming weak, pale, nervous and emadated, having singular appearance about the eyes, cough and sympton of consumption.

Woung Men

Woung Men

Who have injured themselved by a certain practice in dujged in when alone, a habit frequently learned from still companions, or at school, the effects of which are nightly felt, even when asleep, and it not cured renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons must, before contemplating

Marriage,

reflect that a sound mind and body are the jimost neces-sary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pligrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the meiancholly reflection that the happiness of another becomes blighted with our own.

Disease of Imprudence.

When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often kapens that an til-timed sense of shame or dread of discovery, deters him from applying to those who, from e lucation and respectability, can atone befriend him, delaying till the constitutional symptoms on this hort of disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the heast and limbs, dimness of sight, desiness, nodes on the shin bones and arms, blotohes on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall is, and the victim of this awful disease become a horrid object of commiseration, till death puts a period to his dreadful sufferings, by sending him to "that Undiscovvered Country from wenove no traveler returns."

It is a metancholly fact that thousands fall victims to this terrible disease, owing to the unskilfulness or ignorant protenders, who by the use of that Deadly Poison, Mercury, ruin the constitution and make the residue o life miserable. Disease of Imprudence.

Trust not your lives, or health, to the care of the many Unlearned and Worthless Pretenders, destitute of knowledge, name or character, who copy Dr. Johnson's advergertisements, or style themselves in the newspapers, regularly Educated Physicians incapable of Curing, they keep you trifling month after month taking their fillty and powonousness compounds, or as long as the smallest fee can be obtained, and in despair, leave you with ruined health to sigh over your galling disappointment. Dr. Johnson is the only Physician avertising. His credential or diplomas always hangs in his office. His remedies or treatment are quknown to all others, propared from a life spent in the great hospitals of Europe, the first in the country and a more extensive Private Practice than any other Physician in the world.

Indorsement of the Press.

Indorsement of the Press. The many thousands cured at this institution year after year, and the numerous important Surgical Operations performed by Dr. Johnson, witnessed by the reporters of the "Sun," "Clipper," and many other papers, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarrantee to the affilicted.

A Draft at Savannah.

Georgia Patriotism at a Low Ebb-Ludicrous Scenes

A Savannah correspondent of the Charleston Courier furnishes an amusing description of the scene which ensued on the occasion of a draft for four hundred men in Savannah, to complete a requisition for troops, the requisite number not having volunteered. Fifteed hundred of the business men and mechanics of the city were drawn up in a hollow square on the parade ground, all in a high state of excitement, when the following proceedings took place:

"The Colonel now takes his place in the centre, and from the back of the magnificent horse, in a few well timbered remarks, calls for volunteers. He said it was a shame that a Goods Ordered in the Georgian should submit to be drafted, and disonorable to a citizen of Savannah to be forced into the service of his country. He appealed to their patriotism, their pluck, and their—pelf. He told them of good clothes, good living, and fifty dollars bounty; and on the strength of these considerations, invited every body to walk three paces in front. Nobod

> An ugly pause ensued, worse than a dead silence between the ticking of a conversation. The Colonel thought he might not have been heard or understood, and repeated his catalo-gue of persuasions. At this point, one of the sides of the square opened, and in marched a company of about forty stalwart Iriahmen, whom their Captain, in a loud and exultant tone announced as "The Mitchell Guards; we volunteers, Colonel, in a body." The Colonel was delighted. He proposed three cheers for the Mitchell Guards, and the crowd indulged not inordinately in the pulmonary exercise.— The requisite number did not seem to be forthcoming, however, and the Colonel made anoth-or little speech, winding up with an invitation or little speech, winding up with an invitation deipnia; in to the black drummer and fifer to perambulate William S. the quadrangle and play Dixie, which they did, but they came as they went—solitary and alone; not the ghost of a volunteer being any where visiable in the Ethiopian wake. The Colonel looked as black as if he was getting

desperate, and a draft seemed indispensable.

As a dernier resort the Colonel directed all who had excuses, to advance to the centre and submit them for examination. Did you ever see a crowd running away from a falling building at a fire, or toward a dog fight or a street show? If you have, you can form some idea of the tempestuous nature of the wave that swept forward to the little table in the centre of the square, around which were gathered the four grave gentlemen who were to examine the documents. It was a scene which, as an unin-terested outsider, one could only hold his sides and laugh at. Hats were crushed, ribe punched, coins smashed and clothes term. Every hand held its magical bit of paper, from the begrimed digits of the individual just from a stable or a foundery to the dainty gloved ex-tremity of the dry goods clerk, just from his

Young and old, rich and poor, neat and nas ty, Americans, Englishmen, Irishmen, Germans, Frenchmen, Italians, Israelites and Gentiles, all went to make up the motley mass.— What a pretty lot of sick and disabled individuals there were to be sure. Swelled arms, limping legs, spine diseases, bad eyes, corns, toothaches, constitutional debility in the bread basket, eruptive diseases, deafness tism, not well generally—these and a thousand other complaints were represented as variously

and heterogeneously as by any procession of of pilgrims that ever visited the Holy Land. And so the day progressed, mearly ten hours being consumed in the endeavor to secure a draft. This afternoon the absentees were gathered together, and the efforts renewed, when strange to say, every man who found the lia-bility imminent of his being forced to enlist, protested that he was just on the point of doing so, and willingly put his name to the roll.

A Banquet in a Sewer.

On Monday afternoon, at the invitation of Mr. W. Webster, the contractor for carrying out that portion of the metropolitan main drainage from Deptford to the outfall at Erith. the members of the Greenwich District Board of works, and about five hundred inhabitants of the locality, proceeded to inspect the line of sewer previous to its being handed over to the Metropolitan Board. About twelve o'clock the company assembled in front of St. Alphade Church, Greenwich, the band of Volunteer Rifles being in attendance; and the descent, which occupied some time, having been accomplished by means of a long ladder, a novel scene was presented. The immense archway of brickwork, the radius of which is struck from a centre of 5ft. Sin., giving 11ft. 6in. in the clear, or diameter, and of circular form, had been provided with a temporary floor for a dis-tance of about one mile, and was lighted on both sides with lamps. The refreshment tables were abundantly supplied. The most interesting portion of the proceedings was the presentation of a testimonial from the inhabitants of Greenwich to Mr. Webster. The chair was occupied by M1. Briston, M. P., who presented the address to Mr. Webster, and observed that the sewer in which the large number before him assembled was, in his opinion, one of the greatest engineering works of modern times. A similar testimonial was presented to Mr. caroulated in its master or determined a similar testimonial was presented to Mr. any citizen from being or becoming a loyal citizen of the United States. A violation of this knowledged the same in suitable terms. Sevact shall be a high misdemeanor, and upon conviction before the Recorder of said corporation, shall forfelt and pay a fine of not less about two hous the company ascended.—Lonthan terms. about two hous the company ascended .- London Examiner.
