Medical.
DR. JOHNSON'S LOCK HOSPITAL!
HAS discovered the most certain, speedy and effectual remedy in the world for DISEASES OF IMPRUDENCE.
RELIEF IN SIX TO TWELVE HOURS.
No Mercury or Noxious Drugs.
A Cure Warranted, or no Charge, in from one to Two Days.

Organic Weakness.
Immediately Cured, and full vigor restored.
This distressing affection, which renders life miserable and is the penalty paid by the victims of improper indulgence. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. New, who that understands the subject will prevent to ensure that the proper of procreation is lost sooner by those falling into improper habits than by the prudent. Besides doing deprived the pleasure of healthy offspring, the most serious and destructive symptoms to the body and mind arise. The system becomes deranged, the Physical and Mental Faculties weakened, Loss of Procreative Power, Nervous Debility, Dyspepsia, Painful menstruation, Indigestion, Constitutional Debility, a Wasting of the Frame, Cough, Consumption, Decay and Death.
Office, No. 7 South Frederick Street.
Left hand side going from Baltimore street, a few doors from the corner. Full and complete information. Letters must be paid and contain a stamp. The Doctor's Diplomas hang in his office.

A Cure Warranted in Two Days.
No Mercury or Noxious Drugs.
Dr. Johnson, Member of the Royal College of Surgeons, London, Graduate of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; my trouble, which rendered me unable to do any business, and was attended with great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, situated in the country, with derangement of mind were cured immediately.
Dr. J. addresses all those who have injured themselves by excessive and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.
The cause of the head and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Fatigue of the Heart, Dyspepsia, Nervous Debility, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

Take Particular Notice.
Dr. J. addresses all those who have injured themselves by excessive and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.
The cause of the head and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Fatigue of the Heart, Dyspepsia, Nervous Debility, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

Young Men.
Who have injured themselves by a certain practice in dangerous and solitary habits frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately.
What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects of enjoyment in life, by the consequence of deterring from the path of nature and indulging in a certain secret habit. Such persons suffer, before contemplating marriage, the loss of their reason, and are forever rendered incapable of any useful pursuit.
When the misguided and imprudent votary of pleasure first begins to feel the seeds of the disease, he is often misled, it too often happens that an ill-timed sense of shame or dread of discovery, deters him from applying to those who, from education and responsibility, can alone best advise him in the course of his disease. In consequence of this he is obliged to resort to a course of treatment, which not only does not cure him, but increases his suffering, and makes his appearance, such as ulcerated sores throat, diseased nose, scrofulous pains in the head and limbs, discharges of blood, and other symptoms of the skin bones and arms, blotches on the face and extremities, progressing with frightful rapidity, till at last the pale of the mouth or the bones of the nose fall in, and the victim of this fatal disease becomes a horrid object of commiseration, till death puts a period to this terrible suffering, by sending him to "that undiscovered country from whose bowels no traveler returns."
It is a melancholy fact that thousands fall victims to this terrible disease, owing to the unskillfulness of ignorant practitioners, who by the use of the Deadly Poison, Mercurials, ruin the constitution and make the residue of life miserable.

Strangers.
Trust not your lives, or health, to the care of the many Quacks who write short for the purpose of deceiving the ignorant, name or character, who copy Dr. Johnson's advertisements, or style themselves in the newspapers, regularly visit Physicians incapable of curing, they keep you in a state of suffering after months waiting for relief, and then abandon you to your fate.
Dr. Johnson is the only Physician advertising.
His credentials or diplomas always hang in his office. His remedies or treatment are unknown to all others, prepared from a life spent in the great hospitals of Europe, the first in the country and a more extensive Private Practice than any other Physician in the world.

Indorsement of the Press.
The many thousands cured at this Institution year after year, and the numerous important Surgical Operations performed by Dr. Johnson, witnessed by the reporters of the "Sun," "Clipper," and many other papers, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.
Diseases speedily Cured.
Persons writing short for the purpose of deceiving the ignorant, name or character, who copy Dr. Johnson's advertisements, or style themselves in the newspapers, regularly visit Physicians incapable of curing, they keep you in a state of suffering after months waiting for relief, and then abandon you to your fate.
Dr. Johnson is the only Physician advertising.
His credentials or diplomas always hang in his office. His remedies or treatment are unknown to all others, prepared from a life spent in the great hospitals of Europe, the first in the country and a more extensive Private Practice than any other Physician in the world.

BY TELEGRAPH.
FROM WASHINGTON.
Transportation of Mails for Europe.
Re-Opening of the Post-Office at Beaufort, North Carolina.
WASHINGTON, June 19.
The Post-office department has concluded an arrangement with the Hamburg, Bremen and Liverpool lines of trans-Atlantic steamers, by which the fastest steamers of each of those lines are accepted for the United States mail service throughout the year, thus securing a fast steamer for the conveyance of the mails on each United States sailing days, viz: On Saturdays from New York, and on Wednesdays from Southampton or Liverpool. This arrangement so long desired by the Department will give increased efficiency to the United States mail service, and prove of great advantage to the commercial interest of this country and Europe.
The Post Office Department re-opened today—the post office at Beaufort, N. C. being the first post office regularly re-established since the occupation of that place by the United States forces.
According to a general order just published, furloughs will not be given by captains of companies or a furlough from such authority will not relieve a soldier from charge of desertion. Enlisted men absent from their regiments without proper authority, are in fact deserters, and not only forfeit all pay and allowances, but are subject to penalties awarded by law to such offenders.
No plea of sickness or other cause not officially established and no certificate of a physician in civil life, unless approved by some officers acting as a military commander, will hereafter avail to remove the charge of desertion or procure the arrears of pay when a soldier has been mustered as absent from his regiment with leave.

FROM MANASSAS.
MANASSAS, June 18.
The rebel mail carrier, Granville W. Kelly, who was captured day before yesterday, proves to be a man of considerable importance. He is the owner of a large flour mill, cloth factory, and plantation near Culpepper, and since the rebellion has been constantly at work for the Rebel Confederacy.
He says the rebel Government is largely indebted to him, and the \$10,000 in Confederate bonds found upon his person were taken in part payment of the debt.
Two deserters who were formerly from the North, but impressed into the rebel service, at New Orleans, came within our lines this morning. They have been under Jackson, but could give no information of any value to the Commanding General, and were accordingly allowed to go at large.
XXXVIIIth Congress—First Session.
WASHINGTON, June 19.
SENATE.
The Pacific railroad bill being the special order was taken up.
Mr. COLLAMER's amendment providing for the reservation of a certain amount of bonds until the road be completed was adopted.
Mr. CLARK, (N. H.) moved to strike out the provision for the Leavenworth and Pawnee Branch road. Agreed to—yeas 22, nays 14.
Mr. CLARK further moved to strike out the provision for the Sioux City Branch roads.
After further discussion, Mr. CLARK modified his amendment so as to strike out the provision for the Omaha Branch road.
Mr. CLARK's amendment, as modified, striking out the provision for the Omaha Branch, was rejected—yeas 16, nays 23.
Mr. CLARK offered an amendment making a point of connection of Hannibal and St. Joseph Branch with the Kansas road, not to exceed fifty miles west of the Missouri river. Rejected.
Mr. DOOLITTLE offered an amendment, setting apart the proceeds of lands in alternate sections, for the benefit of the proposed Northern Pacific railroad. Lost—yeas 18, nays 23.
Mr. WILSON (Mass.) moved to reconsider the vote on Mr. COLLAMER'S amendment, pending on which motion, the Senate adjourned.
HOUSE OF REPRESENTATIVES.
The House then proceeded to the consideration of the bill relating to claims for the loss and destruction of property belonging to loyal citizens and the damage done thereto by the troops of the United States during the present rebellion.
Mr. WESTON, (Mo.) spoke of the importance of this measure, and of the losses sustained by citizens of border States, which necessarily succeeded their occupation by our troops, whose animals must have forage and whose forests had to be cut down for fuel and buildings occupied as quarters. While the loyal people do not complain, they look to Government for speedy redress, which is their right.
Mr. WATSON, (Ohio) and others spoke on the question. Adjourned.

MARKETS BY TELEGRAPH.
NEW YORK, June 19.
Cotton firm—sales 2,000 bales at 81 1/2@82; Flour quiet—sales 18,000 bbls. at \$4 10@4 20 for State, 4 9@5 for Ohio, 4 9@5 for southern. Wheat quiet—sales 41,000 bu. at 100@104; for Milwaukee club. Corn quiet, sales 24,000 bush. at 51@51 1/2. Provisions steady. Whiskey dull, at 25 1/2@26. Sugar advanced 1/4c.

Horrible—Forty Men Singularly Poisoned on Dismal.
Some thirty boatmen yesterday morning called at the office of the Board of Health for medical treatment. They had just arrived in a steamer from up the river, and had been dreadfully poisoned or diseased through handling certain bags of wheat. All who had been engaged in stowing the wheat on board, and two or three persons who had simply sat for a short time on the sacks, were affected with large and highly inflamed welts running all over the body. Dr. Grinstead, the health clerk, was inclined to attribute the disaster to the prevalence of "black rot" in the wheat—cereals occasionally becoming infested with a species of terrible prolific animalcules that disseminate themselves at once by contact, and whose presence in grain is popularly designated as the "black rot." Some ten others, besides those who visited the health office, were similarly afflicted. Dr. G. instantly furnished the party with appropriate medicine, and gave such advice as he deemed proper in the case. An opinion among the patients was that the bags had been purposely poisoned, to prevent ants from eating the grain. This appears incredible. Another hypothesis is that the sacks had been in contact with a certain peculiar and poisonous species of oak. It strikes us that these sick ones should have the freight complained of, and the vessel concerned ought to receive careful and close attention. Certainly steps should at least be taken to prevent others from suffering through handling the noxious sacks of grain. We cannot learn that even the name of the steamer is known to the health authorities.
—St. Louis Democrat.

McClellan on Drunkenness.
Gen. McClellan sent back, some time since, as not satisfactory, the finding of a court martial, with the following pointed, just and timely admonitions:
"The testimony in this case exhibits a most disgraceful state of things. An officer receives from a friend in a neighboring city a case of liquor. The arrival of this mischievous box in camp is the signal and the occasion of a most blameable breach of discipline. It seems that all the acquaintances, officers and men, of the recipient, were called in to partake of this most pernicious gift, which if it had been sent by an enemy, could not have been more perfectly adapted to work injury to the regiment. From drunkenness, brought on from drinking in this assembly, proceeded the glaringly insubordinate conduct of the prisoner."
This was no palliation of his offence, but an addition to it. No evil agent so much obstructs this army in its progress to that condition which will enable it to accomplish all that true soldiers can, as the degrading vice of drunkenness. It is the cause of by far the greater part of the disorders which are examined by our courts martial. It is impossible to estimate the benefits that would accrue to the service from the adoption of a resolution on the part of the officers to set their men an example of total abstinence from intoxicating drink. It would be worth fifty thousand men to the arms of the United States."

An Affronting Scene.
The Chicago Times in noticing the visit of the Baltimore excursionists to Camp Chase, where some eight thousand Rebel prisoners are confined, says:
"A thrilling incident also occurred there, being the meeting of a father—one of the Baltimoreans—Mr. Shutzke, with his son, now a prisoner of war in the camp, who was taken at the fall of Donelson. They had parted two years previously, at which time young Shutzke had left his home for Alabama, to obtain employment. As he states, he was there impressed into the Confederate service, soon after the breaking out of the war, and taken prisoner as above mentioned. Shortly after his arrival at Camp Douglas he informed his father by letter of his situation, and a regular correspondence has since been maintained between them. Mr. Shutzke is a boot and shoe manufacturer in Baltimore, and firm in his devotion to the Union. He has no doubt of his son's loyalty, and has for some time been using active exertions to obtain his release. The meeting, though not unexpected, was yet a very affecting one, both bursting into tears as they fondly embraced each other.

An Interesting "Relic"
was found a few days since, over at the terminus of the Pontchartrain railroad, at the lake. It was discovered and raised by Col. Chas. C. G. Thornton, commanding the guard at that point, and Capt. George Wiggin, late of New London, at present Captain of the post at the lake. The relic is a submarine ram, of cigar shape, made of iron, hollowed so that a number of men can enclose themselves in it. It is twenty-four feet long, and has a propeller which can be worked by hand. On each side of the ram there is a sort of fin made of iron, three feet long and a foot and a half wide. By raising these wings, or fins, the ram rises to the surface and sinks by its depression. The bow is sharply pointed, and when run against any ordinary vessel below the water mark, would be able to sink it in a very short time. This "little arrangement" now lies at the lake shore—a curiosity to the visitors at that place. Captain Thornton is doing good service at the lake, in intercepting contraband letters and arresting spies.
Cotton from a New Source.
We have heard of late some stir about a species of cotton being produced this season, by what is known as common pharase as the "Balm-of-Gilead tree." A friend has just exhibited to us a specimen taken from a tree. The "cotton" seems to grow upon a sort of pod; is of very fine texture, but fibre quite short. Whether it can be manufactured into thread and cloth, is yet to be tried, as far as we know. It would doubtless answer for some uses the real article is now put to. What is remarkable, no one ever noticed such a production from the tree previous to this season.
The West of War.
The New York Evening Post says that the Maine 11th regiment, which passed through Broadway last November, chanting the Hallelujah chorus, eight hundred and fifty men strong, nearly all young and sturdy lumbermen, has suffered so much that when they went into the battle of Fair Oaks they numbered, fit for duty, only one hundred and eighty men. Nearly one half of this number were killed or wounded.
Important if True.
A Yankee has invented a new gun, with which he says he can sink the Monitor in thirty minutes. He sets a target of a thickness of nine inches of wrought iron obliquely, and at long range puts a small ball through the whole concern, clear and clean.
The rebel Confederacy, now so soon to perish, is utterly bankrupt. It was born without a cause, and will die without effects. —Frederic.
