

Daily Telegraph.

NO ICE TO ADVERTISERS.—All advertisements, Business Notices, Marriages, Deaths, &c., to be inserted in the TELEGRAPH, must invariably be accompanied with the CASH.

All communications recommending candidates for political offices must be paid for at the time they are handed in, otherwise they will be laid aside.

HARRISBURG, PA.
Saturday Afternoon, June 21, 1892.

A HARRISBURG SOLDIER WOUNDED.—Patrick Kennedy, of this city, belonging to the 45th Pennsylvania regiment, (Col. Welsh,) was slightly wounded, during a recent engagement of the regiment with the enemy.

ARRIVAL OF COL. CHARLES CAMPBELL.—Col. Charles Campbell, formerly of the 1st Pennsylvania Artillery, but now of the 57th Pennsylvania Infantry, arrived in town at noon today from Baltimore, via the Northern Central Railroad. The Colonel participated in the recent battle of Fair Oaks, Va., where he was seriously wounded.

THE LANCASTER EXPRESS of yesterday, says that the body found in the Susquehanna river, near Lower Ferry, Manor, Lancaster county was not perfectly identified by Mrs. Wenneis as that of her son—though the probabilities are in favor of that supposition. His forehead was much cut and bruised by the rocks, preventing identification by means of a scar there which would have been conclusive.

REMEDY FOR BOILS.—Instead of the use of the lancet for the suppression of boils at an early stage, Dr. Spooner, of Boston, recommends an external solution of iodine (thirty grains of iodine to one ounce of ether,) applied with a brush, morning and evening. The same application gives relief in chilblains, and in erysipelas, or it may be varied by a solution of nitrate of silver. It is easy to try.

TO PREVENT HENS SETTING.—Put the hen in a tub, fill it with water so that her feet will touch the bottom, and her body be at the top of the water; then cover the tub up, so that it cannot fly out. As she cannot sit down without getting wet, and will have to stand up, leave her in this position two or three hours, and then let her out. She will not sit any more.

TO MAKE HENS LAY.—Put the hen in a tub of water—the water to come about three inches over her head—leave her in this condition for a few minutes only, then remove her and she will lay incessantly.

STRAWBERRIES.—The editor of the German-town Telegraph makes the following recommendation on the management of strawberries:

"When the fruit is forming, and especially when it has commenced to ripen, the beds should be plentifully watered once a day, at least. You need not be afraid of putting on too much; the more the better. It will repay the labor ten-fold. We find that rather low, moist ground, not glaringly exposed to the sun, and mulched, is far to be preferred to high, exposed ground, without any protection. A little shade does not hurt strawberries, and moist soil, artificially or naturally, is decidedly to be chosen. The best uniform crops we ever raised, or ever saw, were produced under such circumstances. If properly treated, there is no crop more certain than the strawberry, or easier to obtain."

LOCAL NEWS.—The local news market is decidedly dull—yet every person glances at the local department, and if it contains nothing the editor is lazy. If he speaks of things as they are, he is hissed. If he glosses over, smooths down the rough points, he is hissed. If he calls things by their proper names, he is unfit for the position of an editor. If he does, he is a rattlehead, lacking stability. If he condemns the wrong, he is a good fellow, but lacks discretion. If he lets wrong and injuries go unmentioned, he is a coward. If he upholds a bad man, he does it to gratify a spite—is a tool of a clique, or belongs to the "outs." If he indulges in personalities, he is a blackguard; if he does not, his paper is dull and ineffectual. Who would not be an editor?

THE FOURTH.—From every side our exchanges give us such items as the following:

"The Portland (Me.) city council have voted \$1,500 for a celebration of the Fourth of July. They are to have a procession, an oration, ringing of bells, salutes, and perhaps a regatta."

"Boston is making arrangements for a grand celebration of the day."

"Philadelphia will celebrate the Fourth in a creditable and becoming manner."

These are but few of the many indications of an unusually brilliant celebration in these and hundreds of other places; yet we hear of no concerted movement to do the thing on a large scale among us. Why is this? Is it because there is less of patriotism, less of veneration for the noble declaration of human rights which came into being on that day? Surely not. Nothing is wanted but somebody to lead off in the matter, to ensure a creditable celebration. If we have no public movement at all, our city will be disgraced. If that is our citizens' desire, they can fulfil it by remaining quiet and doing nothing in the matter. There is nothing but the want of interest in the subject to prevent a good celebration. The material is here; we have a splendid body of firemen; we have a number of singing associations, which are a credit to our city; we have a fine military company, who we know will do its share towards making up the celebration; we have good, honest, patriotic Union men among us, who have stood firm by the government from the beginning, who would be willing to give us orations appropriate to the occasion; we have hundreds who would contribute liberally to such a purpose; all we want is a few guiding hands in each of these departments, who will organize each their own branch and confer with the others to bring out a splendid anniversary. We trust that the different elements referred to will organize and harmonize early so that everything may not be crowded into the last few days, and thus the celebration "fall through" altogether.

STRAWBERRIES. from the celebrated patch of John Olwine, will be for sale by Mr. Chris. Eby, at the corner market house, at six o'clock this evening.

THE LEAVES of many peach trees have commenced curling this season, and the fruit of all such has dropped off. It is said that by digging around the roots of the trees, quantities of worms may be found penetrating the bark and seriously damaging the trees. These worms, after the destruction of the worm is accomplished, will straighten and the young fruit will remain.

"HOW TO JUMP FROM THE CARS UNINJURED."—This is the title of a paragraph we find occasionally in our exchanges, and which recommends persons who jump from cars in motion to jump in a contrary direction to that in which the cars are running. A man should not jump from cars in motion at all—even when a collision occurs it is safer to remain inside, and at all other times there can be no necessity for getting out until the cars are stopped. If any one believes he can safely jump in the manner recommended above, from a moving train of cars, we would recommend him to first try a less dangerous experiment, by jumping from a canal boat moving three or four miles an hour. If he jumps towards the stern of the boat without catching a fall he will be very lucky. If you must jump, jump in the direction you are moving while on the boat or train, and unless you are in very rapid motion, you will probably escape without injury.

FIREWORKS.—The near approach of the Fourth of July has started the boys, as usual, ahead of time in the way of exploding torpedoes, parlor matches and such other pyrotechnic productions as the state of their finances will admit. It is scarcely necessary to say that this is a dangerous practice and should be discontinued, as many accidents have previously resulted from this cause. On the two days allowed for celebration, everybody is expected to be on his guard against these projectiles and the casualties therefrom proceeding; but previous to that time the violation of the ordinance is certainly a nuisance, and a dangerous one at that. No one has less disposition than we to interfere with the amusements of the boys, and no one can more desire a tremendous celebration of the coming anniversary; but we think it a duty to the public to caution the youngsters against subjecting themselves to the penalty of violating the law, as well for their own sakes as those of the "children of larger growth." Wait until the day comes, boys, and then make all the noise you can—if not more.

A MODEL ESTABLISHMENT.—Among the many improvements lately made in our city, to which we can point with pride as an evidence of prosperity and as a determination on the part of our business men, no longer to remain behind the "light house," is the completion of Eby & Kunkle's large brick building at the corner of Market and Fifth streets, which is alike creditable to the owners and ornamental to that part of our city.

The building is not only one of the largest, devoted to the grocery business, outside of New York, but the stock challenges comparison. Without going into detail, we may safely say that the firm keep on hand everything usually kept in a grocery store, (liquors excepted,) and that they sell at very small profits. Their clerks are civil and accommodating, and have strict instructions under no circumstances whatever to misrepresent or take advantage of any customer. A general invitation is extended to the public to visit the new building and examine the extensive stock, whether they purchase or not.

PENALTY FOR TRESPASSING UPON GARDENS AND ORCHARDS.—Now, that the season for fruit and vegetables has commenced, it may be well to call attention to the legal penalty prescribed for trespassing upon gardens, orchards, or other private grounds—stealing fruits, flowers, vegetables, &c. Everybody knows it is wrong to take a single berry, or pluck a single flower, without the consent of the owner, but from time immemorial there has been a laxity in this respect, until boys and men even think it a small matter to trespass upon the property of others, and appropriate whatever suits them. Boys have become particularly troublesome in this respect, and in the cities and boroughs especially, it is next to impossible to prevent depredations upon gardens and orchards. So great has the evil become, that the Legislature, two years ago, found it necessary to pass a stringent law for the punishment of this class of offenders.

It is only necessary for the injured party to make information before a magistrate, and have the offender arrested and held for trial—when the testimony of the owner or occupant of the premises shall be admitted as evidence. Another method of procedure is by civil action before a magistrate, against any person who shall damage any garden, orchard or field of growing crops, in any manner whatever. Judgment shall be given by the magistrate for double the amount of the damage proved to have been done, together with costs of suit; one-half of the damage or penalty to go to the use of the poor of the district in which the premises lie; and in default of payment, the party may be committed to jail for not less than one or more than twenty days.

The criminal prosecution, however, is decidedly the most effective, and wherever it is enforced it works like a charm. It is unpleasant, we know, to prosecute boys, but it is equally unpleasant for persons to have fruits and shrubbery, the product of years of patient labor and watching, stolen, broken or mutilated by rascally boys. It is a terrible outrage upon the rights of citizens, and let the offender be man or woman, boy or girl, they should be made to pay the penalty. The fault, perhaps, lies not so much with the boys as with their parents, who either directly encourage these depredations, or are not careful to warn their children of the great moral and legal wrong they commit in thus trespassing upon the property of others. We have given both parties a clear knowledge of their rights and liabilities under the law. To escape punishment, it is only necessary to respect the rights of others.

PROP. E. W. BYLDERN, one of the Liberator's commissioners to this country, will preach in the Second Presbyterian church, (colored,) on Walnut street, at 6 o'clock, P. M., and at 8 o'clock, P. M., in the Masonic Hall, on Tanner's alley.

THE CITY LOCK-UP contained only two tenants last night—individuals charged with attempting to force themselves into a house east of the Capitol, where their presence was not wanted. They had a hearing before the Mayor this morning, and were sent to prison for forty-eight hours.

PAID OFF.—The soldiers of the 87th Pennsylvania, Col. George Hay, were paid off a few days since at Camp McKim, each man receiving several months' back pay. The members of company "B," Captain Detwiler, sent their respective "piles" to their friends in this place, which fact we take pleasure to announce. The citizens who had charge of the "spoons" informs us that the amount sent home by the respective parties, varied from fifteen to forty dollars. Among the "good boys" who evinced the commendable disposition to save their well-earned money, we notice the names of Capt. Detwiler, Serg't. Leib, Gallagher, Hiney, Keller, Bopp, Rudy, Voglesong and others. In our frequent visits to other camps, we observed with regret the spend-thrift propensities of some military men, literally throwing away their well-earned dollars at the gaming table, for strychnine whiskey and useless luxuries. Truly, the "Colder Fancies" are an honor to our city.

Pursuant to orders from the War Department, Capt. Detwiler left Camp McKim early on Friday morning with a company of picked men chosen from squads of the different companies of the regiment, to proceed on a secret ten-days' mission—some surmise to New York city, while others will have it to Fortress Monroe.

FROM NEW YORK AND PHILADELPHIA.—Good morning boys! What cool and rainy weather we have had during all of this spring. Indeed it has been so much so that I have deferred making my usual dry goods purchases for summer until I am positively compelled from the condition of my wardrobe. Now, Mrs. Price, I understand, that Mr. Bowman, (of the dry goods firm of Ulrich & Bowman,) has just returned from New York and Philadelphia with a beautiful stock of summer goods. Thus Mrs. Early said to Mrs. Price, and reader the ladies called and made their purchases, and not only got handsome goods, but the worth of their money.

\$5000 WORTH OF NEW GOODS!—400 pair of white muslin from auction, at 25, 37, 50, 62 and 75 cts.; 1000 Ladies' white collars, at 10, 20, 30, up to 75 cts. Great bargains! 500 new hoop skirts for 50, 62 and 75 cts., up to \$2.50—cheapest in town; the largest assortment of low priced dress goods—all prices. 100 pieces white brilliant at 12 1/2 cts.; some at 15 to 18 cts.; 50 dozen of shirt waists at 12 1/2 cts., 20, 25 and 37 cts., extra cheap. 200 dozen of Ladies' white stockings, at 12 1/2 cts. A magnificent assortment of embroidered cambric hand, and cambric edging and insertings, at all prices. 50 dozen of linen pocket kerchiefs, at 12 1/2 cts.; also hemstitched kerchiefs. Wholesale buyers we would invite to our large stock; and as we have a buyer in New York, who buys only at the large auctions. We promise to sell goods at city prices.

We also received 10 dozen of real German linen pocket handkerchiefs for gentlemen—a very scarce article; also 20 pieces of white and colored straw matting, and 8 pieces of new carpets from auction; 5 pieces of black silk at all prices.

BACHELOR'S HAIR DYE. THE BEST IN THE WORLD
