ELIXIR PROPYLAMINE, THE NEW REMEDY FOR RHEUMATISM:

ACUTE RHEUMATISM, OHRONIC RHEUMATISM, RHEUMATISM OF EVERY KIND; HOW STUBBORN, HOW LONG STANDING, NO MATTER PROPYLAMINE

THE BEST TESTIMONY, BEST MEDICAL AUTHORITY.

PENNSYLVANIA HOSPITAL.

[FROM OFFICIAL REFORM.]

MAY 19, 1960,—Ellen S., set. 28, single, never was yery strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks and subsequently from a relapse for four more. She has been well since then till last Satur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had so decided chill. Two days later her ankles began so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a resmedy which has recently been recommended in the treatment of rheumatism. I mean propylamine. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial. I must confess I am always incredulous as to the worth of new remedies, which are vanied as specifies; but this comes to us recommended so highly, that we are bound to give it a trial. but this comes to us recommare bound to give it a trial.

SAME CASE FOUR DAYS LATER! SAME CASE FOUR DAYS LATER!

May 23, 1880.—I will now exhibit to you the patient fer whom I prescribed Propylamine, and wa steen laboring under an attack of acute rheumatism. She has steadily taken it in doese of three grains every two hours (intermitting it at night.) The day after you saw her, I cound her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fall to notice a marked change in the appearance of her joints, which are new nearly all of their natural size.—Thur far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a decided opinion as to what is to be the result.

the result.

Here is another patient who was placed on the use of 212 same medicine on Sunday last; she has long been suffering from a broule rheumatism, and I found her at that time with an acute attack supervening upon her chronic effection. The wrists and knuckles were much swellen and tense. She took the chloride of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much diminished.

THREE DAYS LATER!!

MAY 28, 1880.—This is the case of acute rheumatiam treated with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very satisfactory resaits. The second case to which your attention was called at our last lecture, has also continued to dewel! I will now bring before you a very characteristic case of acute rheumatism, and if the result be satfactory, I think, as good jurymen, we shall justly render our verdict in favor of propylamin.

He is a soaman, set. 26, who was atmitted a few days ago. Has has ocasalonal rheumatic pains, but not so as to keep his bed, until eight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all awollen, teams and tasker. His tongue is furred, ols skin, at present dry, though there has been much sweating. His pulse is full and strong, and about 90.—He has now used propylamine for twenty-four hours. This gentieman is what may be called a strictly typical case of acute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower folions. There is fever and the profuse. and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There is fever and the profuse sweating, so generally attlendant on acute rheumatism. I did not bring this patient before you with the intention of giving you a lecture or all the points connected with rheumatism, but to again give a trial to the new remedy we are teeting, and to exhibit to you this typical case, as I have called it, than which there so uld not be a fairer opportunity for testing the medicine in question. We are, therefore, avaiding the use of all other medicines, even anodynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case of a future citile.

THE RESULT.

A FAVORABLE VERDICT.

JUNES, 1860.—The next of our convalescents is the case of acute rheumaism before you at our clinic of May 36th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore steadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not hesitate to say that I have neves seen as severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride o Propylamine, the patients have regained their health much carlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results. JUNE 9, 1860 .- The next of our convalescents is the

AYER'S SARSAPARILLA

FOR PURIFYING THE BLOOD. A ND for the speedy cure of the sub-

Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pastules, Blotches, Boils, Blains, and all Skin Diseases.

J. C. Aver & Co., Cents: I feel it my duty to acknowl. edge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it bro.e out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicine; and several physicians, but without much relief from anything. In fact, the disorder grew worse, At length I was rejoiced to cians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla,) for I knew from your reputation that anything you made must be good. I sent to Cinc must and got it, and use it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a mouth, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off, my skin is now clear, and I knew by my feelings that the disease has gone from my system You can well believe that I feel what I am saying whem I tell you, that I hold you to be one of the acostles of the age, and remain ever gratefully. Yours,

St. Anthony's Fire, Rose or Erysipelas,

Dr. Robert M. Preble writes irom Salem, N. Y. Math Sep., 1859, that he has cured an inveterate case of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous attack of Malignant Erysipelas by large doses of the same; says he cures the common Eruptions by it constantly.

Leucerrhea or Whites, Ovarian Tumor.

Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channiag, of New York City, writes; "most cheerfully comply with the respect of your agent in saying I have found your sarsaparilla a most excellent alternative in the numerous complaints for which we emoloy such a remedy, but especially in Female Diseases of the Scrofulous disthesis. I have cured many invoterate cases of Lencorrheea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals: for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous courtent temor on one of the females in my tamity, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afferd relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

New Organs, 25th August, 1969.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cared with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercarial Diseases. One of my patients had syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five week. Another was attached by secondary symptoms in his nose, and the ulcer tion had eaten away a considerable part of it, so that. helieve the disorder would soor reach his brain and sith aim. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poisoo in her bones. They had become so sensitive to the weather that on a damp day she suffered exeruciating vain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with the preparation from your aboratory must be a great remedy; consequently, these truly remarkeble results with the preparation from your aboratory must be a great remedy; on sequently, these truly remarkeble results with the preparation from your aboratory must be a great remedy; consequently, these truly remarkeble results with its preparation from your aboratory must be a great remedy; on sequently these truly remarkeble results with the preparation from your aboratory must be a great remedy; on sequently these truly remarkeble results with the preparation from your aboratory must be a great remedy. NEW ORLEANS, 25th August, 1959.

IMDEPENDENCE, Precton Co., Va., 6th July, 1859. DR. J. C. ATBE: Sir, I have been afficied with a paint ful chronic Rheumatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could fin , until I tried your Sarsaparilla...

One bottle cured me in two weeks, and restored my genral health so much that I am far botter than before I was attacked. I think it a wonderful medicine.

J. FREAM.
Jules Y. Getchell, of St. Louis. writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and everything failed to relieve me; and I have been a broken down man for some years from no ther cause than devangment of the Liver. My beloved pastor, the Rev. Mr. Enry, advised me to try your Sarsaparrills, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me. I feel young again. The best that can be said of you be.

young again. The best that can be said of you is not half good enough."

A great variety of cases have been reported to us where cures of these formidable complaints have result form the use of this remedy, but one space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them. Dyspepsia, Heart Disease, Fits, Epilep-

Many remarkable cures of these affections have been made by the alternative power of this medicine. It atimulates the vital functions into vigorous action, and thus evercomes disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.
