

Daily Telegraph

NOTICE TO ADVERTISERS.—All advertisements, Business Notices, Marriages, Deaths, &c., to secure insertion in the TELEGRAPH, must invariably be accompanied with the CASH.

HARRISBURG, PA.
Thursday Afternoon, June 26, 1892.

THE "HARRIS MANSION," formerly the Pennsylvania Female College building, a pretty location for a private residence, is offered for sale. See advertisement.

THE SHARPER GUARDS, formerly the Lancaster Zouaves, have been invited by the First City Zouaves to participate in the celebration of the fourth of July in this city.

ACCIDENT.—A short time since, a daughter of Mr. Abner Croll, of Middletown, fell upon a butcher knife and cut her face very badly—the knife penetrating to the cheek bone.

THE FRIENDSHIP and Good Will fire companies held a meeting last evening and formally accepted the invitation of the First City Zouaves to participate in the celebration of the Fourth of July.

NEW CHURCH.—We understand that a movement is on foot to build a German Reformed church in Middletown. It will be erected in the Middle Ward, provided a suitable lot can be secured.

RISE IN THE RIVER.—Since yesterday at noon the Susquehanna has risen some five or six feet, and a large quantity of drift wood is floating with the current, indicating a considerable freshet in some of the tributaries of the river.

SCARLET FEVER.—This dreadful disease is still pursuing its ravages in some sections of the country. Three children have lately died out of the family of Mr. Isaac Mumma, near Middletown, and several others of the same family are in a very critical condition.

COL. CAMPBELL.—The many friends of this gallant officer will be glad to learn that he has so far recovered as to be able to appear on our streets, though compelled to use crutches. He is stopping with his wife at the Brady House, in this city, where he receives all the attention which his situation requires. We saw him in the Adjutant General's office yesterday, and he seemed to be very sanguine of his early return to the army.

The gallant Colonel, was struck in the left groin by a round ball shot from a Mississippi rifle at the battle of Fair Oaks, just after sundown. The ball went completely through his person, luckily passing between the thigh bone and the femoral artery. A variation of half an inch to right or left would necessarily have proved fatal. He was in the woods at the time and owing to felled timber had disengaged with his horse. Contriving to pass from the woods into a wheat field, a distance of about thirty yards, he here sunk from exhaustion. A member of his regiment in endeavoring to assist him further, was killed, the shot that struck him fatally passing through the Colonel's right arm. An hour and a half passed before other assistance came, when two men with a stretcher appeared to bear the bleeding officer from the field. The cover of night and the humanity of their mission did not save them from annoyance. They were shot at, but preserved and successfully performed their errand. Between the time of the failure of the first effort to remove the Colonel and night, he was repeatedly fired upon as he lay there on the ground, some balls striking so near as to cast the dirt in his face. After a time he dragged himself into a furrow deeper than the rest, where he was less observed and able to enjoy comparative immunity from further assault.

Col. Campbell's sword scabbard and belt were carried from beside his person by a ball, one skirt of his coat was badly rent and a portion carried away by a piece of a shell, and through his clothing were five holes made by balls other than those that gave him his injuries.

A HARRISBURG CONTRACTOR AND INVENTOR.—G. B. Weistling, Esq., a native of this city, son of Geo. P. Weistling, Esq., is the civil engineer in charge, and one of the contractors of what is called the Van Nest Gap Tunnel, on the Warren railroad, New Jersey, said to be one of the most extensive works of the kind in America. The Tunnel is through Scott's Mountain, Warren county, New Jersey, and the Warren railroad is a continuation of the Delaware, Lackawanna and Western railroad of our State. The Tunnel is 3,000 feet long, and in the clear 28 feet wide and 20 feet high. About one-half of it required heavy timber supports and masonry, while the other half is through a very hard granite rock. In the prosecution of the work almost every character of labor done under ground proved necessary. The material ranged from quicksand, with a great abundance of water, to hard rock, with ledges, through which sometimes 100 feet was driven without meeting a seam.—There are 8 shafts on the work respectively 65 feet, 115 feet, and 166 feet deep. At these heavy engines for pumping and hoisting were used.

In the parapet masonry at the west end of the Tunnel a large marble slab has been placed, having on it the name of the Tunnel, President and Engineer of Road and Contractors, M. Allister and Weistling, with blank for naming date of completion, which will be in the month of July next.

During the progress of the work Mr. Weistling invented a gunpowder of novel composition, which possesses some extraordinary and valuable properties. If ignited in an unconfined mass or in an open keg, it burns without explosion, while if thoroughly secured by tamping it explodes with as much force as ordinary gunpowder. Mr. W. has used this powder extensively in his large operations in the tunnel and found it to be a superior article. A patent has been applied for it, though the papers are not yet issued. By varying the proportions of the ingredients a powder is produced which is explosive under all circumstances, and this property may be varied to any extent desired.

GOOD APPOINTMENT.—The Judges of the Court and Commissioners have appointed Mr. M. B. Ramler, of Middletown, to pay the families and all those entitled to the Soldiers' Relief Fund, in that city.

THE CROPS.—The important period of harvest is near at hand, and the prospect of gathering in an abundant crop, is very encouraging. In the counties of Cumberland, Dauphin, Lebanon, Berks and Lehigh, as we recently had an opportunity of observing, the grain is maturing beautifully, and the yield will undoubtedly be abundant.

THE ROBBERY OF MR. DELLONE.—No clue has yet been obtained in reference to the robbery of Mr. Joseph Dellone, of Hanover, York county, a notice of which appeared some time since in the TELEGRAPH. The amount stolen was over eight hundred dollars in \$100 bills on the York bank, and checks on the same bank to the amount of six or seven hundred dollars. Mr. Dellone, at the time of the robbery, was on his return from Philadelphia, and does not know whether he was robbed while in the train or in Harrisburg, where he had stopped for a few hours.

SCHOOL HARMONIUM.—Knoche Music dealer, No. 93 Market street, is the agent for Messrs. Mason and Hamlin's New School Harmonium—one of the newest and best musical instruments we have ever seen. It has a powerful, yet sweet tone, an excellent swell, a bellows that works with great ease, and a case which is very neat and strong. The small price at which it is offered for sale, puts it within the reach of almost every school. Teachers who desire to obtain an instrument for their private use, and cannot afford to purchase a good piano, will find in the School Harmonium an admirable substitute. We hope that teachers, and others concerned, will take an early opportunity to examine it for themselves.

ELPHANT LOOSE.—Our readers will recollect the performing elephant Tippo Sahb, belonging to Van Amburg's menagerie, which exhibited in this city a short time since. It seems that the animal sometimes gets his "dutch up," and on these occasions makes things "rip mischievously," regardless of expense. While at Lewistown, Tippo got one of these spells on and went off on an independent exhibition. The Democrat says, that after leaving the pavilion, he made his way to the Poor House Farm, where he was found some hours afterwards. He paid no respect to fences in his route. Where they were low enough he walked right over them, but where he could not do that, he laid a pannel or so down and walked through. He did no serious damage, and was easily caught and marched back by his keeper to headquarters.

ACCIDENT.—On Friday of last week, Mr. Lieby, of Middletown, met with a serious accident, near Mechanicsburg, Cumberland county. It appears that he procured a horse and carriage, in that place, to drive into the country. After proceeding a short distance, the horse became fractious and commenced kicking, upon which Mr. L. took his son—a lad of about eleven summers—out of the carriage. He then tried to pacify the horse, but his animal suddenly turned around, and threw Mr. L. on the ground, tramped upon him, and then ran over him with the carriage. His sad misfortune was soon discovered by some friends who conveyed him to town, and immediately procured the services of Dr. Day of that town, who, upon dressing his wounds, found that he had one rib broken and three others badly injured. He was taken to his residence, in Middletown, on the evening of the same day the accident occurred, and is now doing as well as can be expected.

SPECIAL MEETING.—A special meeting of the City Council will be held this evening.

A SPECIAL MEETING OF THE CITIZEN FIRE COMPANY will be held this evening, for the purpose of making arrangements for the celebration of the Fourth of July.

A SPECIAL MEETING OF THE MOUNT VERNON Hook and Ladder Company, will be held at the Truck House this evening to consider the propriety of accepting the invitation of the First City Zouaves to participate in the proposed 4th of July celebration.

THE PIC-NIC next Monday will be the largest of the season. The Kintoch Singing Association will be on the ground and favor the company with a variety of songs. All respectable ladies are invited, as umbrellas will be free for them.

HAY MAKING.—Since the commencement of the present favorable weather the farmers are busily engaged in securing their hay. The crop of grass is abundant, and should the weather remain favorable for a few weeks, thousands of tons of sweet scented hay will be gathered and secured.

THE COLD WEATHER PARTLY ACCOUNTED FOR.—The officers of the packet ship David Headly, which vessel arrived lately at New York from Liverpool, report that they encountered upwards of fifty icebergs during the passage, besides a great deal of floating ice. The ship Panama, also from Liverpool, brings a similar report. The presence of these large masses of ice on our coast probably accounts, in some measure for the extraordinary backwardness of the season. The nights and mornings in June are rarely as cold as snow. Numerous bergs and fields of ice from the Arctic seas, breaking up and drifting down with the current of the Gulf stream, have a tendency to produce such effects.

PENNSYLVANIA STATE TEACHERS' INSTITUTE.—All those engaged in teaching and who wish to keep pace with the progress of the age, in the art of acquiring and the still more important art of imparting knowledge to those committed to their charge, should, before making arrangements for their summer vacation visiting, remember that the State Teachers' Institute meets in the city of Reading, on the 12th of August next, and continues four days. As all teachers who labor in their vocation have need of recreation, there is no better way than travelling in a healthy region like that between this city and Reading. Eminent men of our own and other States will be there to give instruction. There is no doubt but the Reading Railroad Company will issue excursion tickets on that occasion.

THE ART OF SWIMMING.—Men are drowned by raising their arms above water, the unbowed weight of which depresses the head. Other animals have neither motion nor ability to act in a similar manner, and therefore swim naturally. When a man falls into a deep water, he will rise to the surface, and will continue there if he does not elevate his hands. If he moves his hands under the water in any way he pleases, his head will rise so high as to allow him free liberty to breathe; and if he will use his legs as in walking, (or rather of walking up stairs,) his shoulders will rise above the water, so that he may use the less exertion with his hands, or apply them to other purposes. These plain directions are recommended to the recollection of those who have not learned to swim in their youth, as they may be found highly advantageous in preserving life.

A MODEL ESTABLISHMENT.—Among the many improvements lately made in our city, to which we can point with pride as an evidence of prosperity and as a determination on the part of our business men, no longer to remain behind the "light house," is the completion of Eby & Kunkle's large brick building at the corner of Market and Fifth streets, which is alike creditable to the owners and ornamental to that part of our city.

The building is not only one of the largest, devoted to the grocery business, outside of New York, but the stock it challenges competition.—Without going into detail, we may safely say that the firm keep on hand everything usually kept in a grocery store, (liquors excepted,) and that they sell at very small profits. Their clerks are civil and accommodating, and have strict instructions under no circumstances whatever to misrepresent or take advantage of any customer. A general invitation is extended to the public to visit the new building and examine the extensive stock, whether they purchase or not.

COL. WM. F. SMALL.—We had the pleasure yesterday of taking by the hand Col. Wm. F. Small. The Colonel was wounded in the leg, (we think at Winchester,) and has suffered severely for the last six weeks, but is now slowly recovering, and expects to be at the head of his command soon. He was our best wishes, and in speaking of Col. Wm. F. Small, we associate his military services in Mexico, his gallant bearing at Baltimore, and his qualities as a soldier and gentleman, while the humble dry goods firm of Ulrich & Bowman continue to sell cheap at the south east corner of Front and Market streets.

\$5000 DOLLARS WORTH OF NEW GOODS!—400 pair of mitts direct from auction, at 25, 37, 50, 62 and 75 cents; 1000 Ladies' white collars, at 10, 20, 30, up to 75 cents. Great bargains! 600 new hoop skirts for 50, 62 and 75 cents, up to \$2.50—cheapest in town; the largest assortment of low priced dress goods—all prices. 100 pieces white brilliants at 12 1/2 cents; some at 15 to 18 cents; 50 dozen of short breasts at 12 1/2 cents, 20, 25 and 37 cents; extra cheap, 200 dozen of Ladies' white stockings at 12 and 18 cents. A magnificent assortment of embroidered cambric bands, and cambric edging and insertings, at all prices. 50 dozen of linen pocket handkerchiefs, at 12 1/2 cents; also hemstitched handkerchiefs. Wholesale buyers would invite to our large stock; and as we have a buyer in New York, who buys only at the large auctions. We promise to sell goods at city prices.

WE also received 10 dozen of real German linen pocket handkerchiefs for gentlemen—a very scarce article; also 20 pieces of white and colored straw matting, and 6 pieces of new carpets from auction; 5 pieces of black silk at city prices.

100 PERCH OF GOOD BUILDING LIME STONE.
FOR SALE AT THE
KEYSTONE FARM.
